OH is using its enhanced FMAP to expand capacity of its 1915(c) waiver services and to increase home health, private duty nursing, and behavioral health state plan services. Ohio will also expand capacity in their Program of All-Inclusive Care for the Elderly (PACE) and in their case management. In 2014 Q4, Ohio spent a total of \$17,288,205.

● STRUCTURAL CHANGES

Percent of deliverables remaining: **38%**

Structural Change	Progress	Comments
NWD/SEP System	●	OH recently selected Harmony Information to develop the NWD/SEP case management/case assessment system. The state also released an RFP to ask local agencies about their interest in becoming NWD agencies. The case management system will likely go live for development and testing in the next few months.
CSA	●	OH is making revisions and receiving feedback from stakeholders on a newly drafted Level I screen. OH created a brand new Level II assessment that will be built into the case management system. OH completed testing for their children's assessment, and is currently testing the adult assessment tool.
CFCM	●	Thus far, OH incorporated conflict-free tenets into the managed care plan contracts for the financial alignment demonstration. Ohio also developed firewalls for case management within their Aging system.
