

# ICD-10 Implementation Checklist

## for Providers Enrolled with Ohio Medicaid

### Assess, remediate, and test:

- Conduct an ICD-10 needs assessment. *Where are ICD-9 codes currently used?*
- Update your policies, procedures, reports & systems.
- Test with your vendors, Medicaid managed care plans & trading partners. *Verify that your vendors and trading partners are testing with Ohio Medicaid.*

### Make sure you & your staff are up-to-date:

- Determine staff training needs.
- Get to know the ICD-10 codes. *Update your "superbill."*
- Practice coding.
- Use the free training resources offered by CMS & OSMA.

### Go online for more information:

- CMS: <http://cms.gov/Medicare/Coding/ICD10>
- Ohio Medicaid: [www.medicaid.ohio.gov/ICD10](http://www.medicaid.ohio.gov/ICD10)
- Managed Care Plans: Check out each plan's site for more info.
- Look for MITS web portal & fee-for-service remittance advice banner messages.
