

HOME Choice

What is HOME Choice?

HOME Choice is a transition program that assists persons of any age with any type of disability to move from a long-term care facility (e.g. a nursing facility, hospital, or residential treatment facility) into a home and community based setting.

The program is available to provide “wrap-around” services & supports for persons whether or not they enroll on a Medicaid waiver.

HOME Choice is part of the Federal Grant Program known as Money Follows the Person.

Applications are available online.

Helping Ohioans Move, Expanding Choice

Who may participate in HOME Choice? What is required?

Eligibility criteria for HOME Choice requires that an individual:

- 1:** Has lived in a Medicaid facility for at least 90 days at the time of discharge;
- 2:** Qualifies for Medicaid;
- 3:** Has care needs evaluated by HOME Choice staff, and
- 4:** Moves into qualified housing.

What is considered qualified housing?

- » A home owned or leased by the individual or family member.
- » An individually leased and lockable apartment (with sleeping, bathing, and cooking areas within unit in which the individual or family member has domain and control).
- » A community based residential setting with no more than four unrelated persons.

Thinking about Going Home?

The individual or their family/guardian will work with the long-term care facility and HOME Choice transitional staff to apply, discuss options, find housing and coordinate benefits and services through the discharge planning process.

HOME Choice is NOT a waiver program. It is a wrap-around program that provides “extra” services & supports to individuals.

Services & supports may include:

- » Case Management (before & after transition)
- » Community Transition Services (e.g. help with first month’s rent, etc.)
- » Transition Coordination
- » Other services necessary as identified by the discharge planning team.
