

# HAVE YOUR CHILD TESTED FOR LEAD TODAY

Take this card with you to your child's next Doctor's appointment and ask for a Lead Test!

## Your child is required to be tested if:

- They are a Medicaid-eligible child between 12 and 24 months of age.
- They are a Medicaid-eligible child between 36 and 72 months of age and have never had a lead test before.

## Lead test facts:

- A blood lead test can be conducted during any visit to a doctor's office.
- A risk assessment questionnaire is not an acceptable substitute for a blood lead test.
- A child could have lead poisoning and not feel sick, so it is important to have them tested.

If your child's doctor has questions, they can call (800) 686-1516.  
Additional information is available at [www.Medicaid.ohio.gov](http://www.Medicaid.ohio.gov)

**It is not safe for your child to have lead poisoning. Have them tested!**
