Total Cost of Care for all Medicaid Healthcare Services

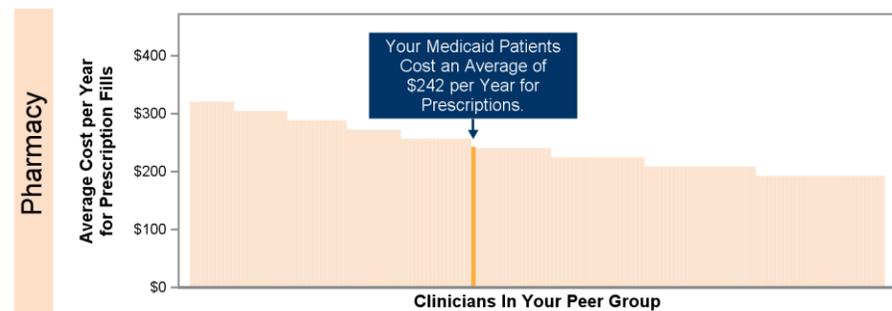

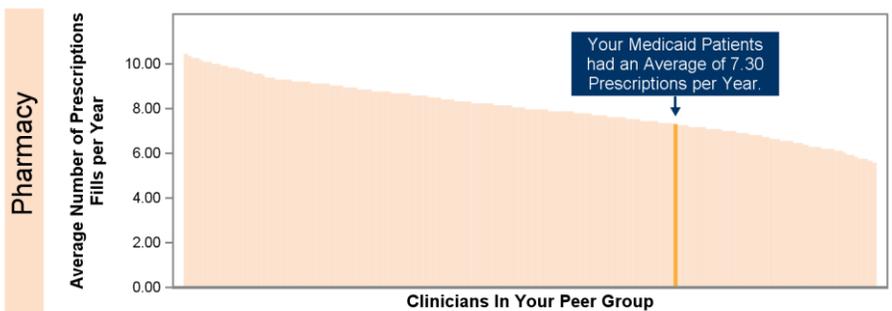

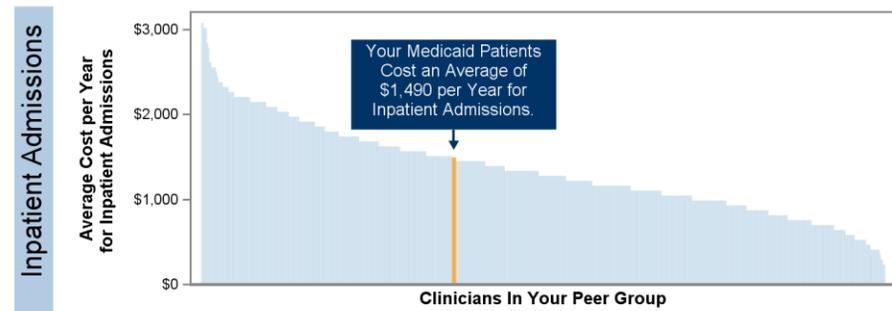

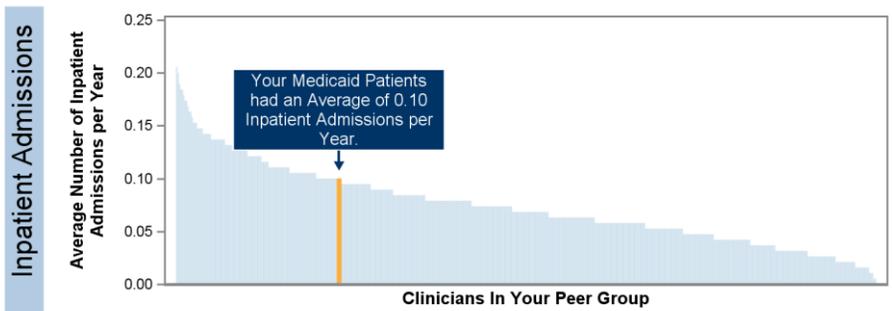

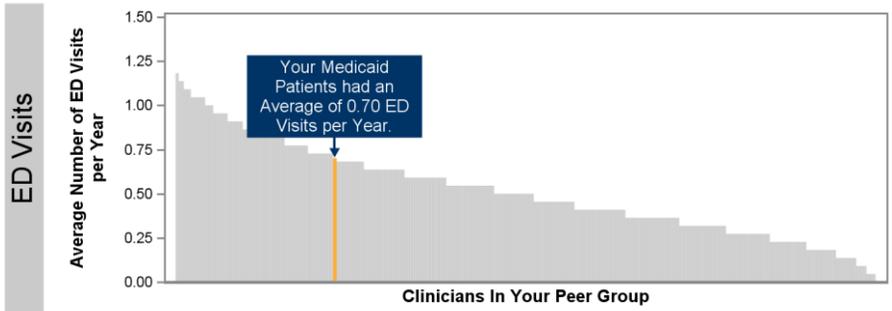

Report card includes fee-for-service and managed care patients and excludes dual eligible patients. All cost metrics are based on the amount paid only by Medicaid.

* Risk-adjustment for the Utilization and Cost metrics was performed using 3M™ Clinical Risk Grouping Software. Each clinician's relative risk score was derived from their Medicaid patients' unique risk scores. Risk scores are based on 24 months of claims history with 6 months of claims run-out.
