

Progress Report #3
October 1 to December 31, 2017
CMP Grant: ItcGAIN Program -- Focused Nurse Education

The following outlines the progress made on the above-named grant between October 1 and December 31, 2017:

1. The website at <http://lfcgain.org> is continuing to be refined and populated with new content.
2. Six modules have been developed, peer reviewed, and proofread in their power point format.
3. Curriculum development is being finalized for the seventh module--UTI.
4. Six of the modules have been recorded in Panopto for voice over delivery when power points are incorporated onto the website. UTI will receive voice over functionality once curriculum is finalized.
5. The video scenarios and SBAR communications graphics have been written for each of the 7 modules and revised to mesh with the final module curriculum content.
6. Using the scenarios in #5 above, videos have been recorded to illustrate health history, nursing assessment, and SBAR communications techniques for each of the modules. Editing and finalization will take place throughout the month of January, prior to incorporation of the videos into each module on the web site.
7. The pre/post tests for all modules have been created and incorporated into the web site.
8. The on-line registration questions have been developed and incorporated into the website.
9. Applications for nursing continuing education are being completed by LeadingAge Ohio as each module is developed.
10. Grant funds have been received from the Ohio Department of Medicaid for the FY 18 timeframe and invoices will be received by LeadingAge Ohio from the OSU College of Nursing, the OSU Office of Geriatrics and Interprofessional Studies and the Optimized Care Network for work completed during October, November and December in the amount of \$21,925.00.
