**October 12, 2018**

Amy Hogan  
Nursing Home Policy Manager  
The Ohio Department of Medicaid  
50 W Town St #400  
Columbus, OH 43215

**Dear Ms. Hogan,**

Grant ID: # G-1819-04-0401

During the first quarter of the "Put Our Faith in Caring" It's Never 2 Late project we have established a great baseline of information on how we may better serve our residents. The residents are receptive to the interviews and are happy to share their life stories.

Project facilitator, Ms. Erin Rorar, is creating a routine with our long-term residents and determining how to best implement the system. She is striving to focus on the established goals when creating each residents' program within the system. Ms. Rorar has effectively completed fourteen surveys to help us determine a resident centered plan for using the 'It's Never 2 Late' (IN2L) system.

We learned through the interviews that a resident had a brief period of her life as a nurse prior to marrying and becoming a homemaker. She reflects very fondly on her days in nursing school and especially enjoyed learning about the anatomy of the heart. Ms. Rorar has utilized the IN2L system to find diagrams and charts of the human heart to review with this resident. This has helped awaken an old interest of hers and helped with her sense of well-being. We have another resident who prefers to work independently. So, Ms. Rorar has spent time helping her set up a personal profile and teaching her how to navigate the system independently. Ms. Rorar is also working a varied shift to best accommodate the wide-ranging needs of our residents. This resident has shown challenges with created self-initiated activities. The IN2L project is helping her enhance her individualized activities.

The residents' positive outcomes have been apparent to all areas of care. We optimistically anticipated continued success in the upcoming thirty-three months of the project.

Sincerely,

Charlene Kish  
CEO Concordia at Sumner
