Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver’s target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

1. Major Changes

Describe any significant changes to the approved waiver that are being made in this renewal application:
New cost neutrality estimates in Appendix J-2-a, -b, -c and -d
New unduplicated enrollment projections in Appendix B-3-a
New self-directed service utilization projections in Appendix E-1-n

Align service names and/or definitions for consistency across the MyCare Ohio, Ohio Home Care, and PASSPORT waivers for the following services: home delivered meals, personal emergency response system, waiver nursing.

Align service limitations for the following services furnished in the Ohio Home Care, My Care Ohio and PASSPORT waivers: home delivered meals, personal emergency response systems, waiver nursing, out-of-home respite, home care attendant services, home modifications, and supplemental assistive and adaptive devices.

Adopt a consistent incident management system that is used in the Assisted Living, My Care Ohio, Ohio Home Care, and PASSPORT waivers

Update OAC references

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of Ohio requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).
B. Program Title (optional - this title will be used to locate this waiver in the finder):
   Integrated Care Delivery System (ICDS) Waiver (MyCare Ohio) - Renewal
C. Type of Request: renewal
   Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)
   ☐ 3 years  ☑ 5 years

Draft ID: OH.024.01.00
D. Type of Waiver (select only one):
1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid State plan (check each that applies):

- [x] Hospital as defined in 42 CFR §440.10
  - If applicable, specify whether the State additionally limits the waiver to subcategories of the hospital level of care:
    - N/A
- [ ] Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160
- [x] Nursing Facility as defined in 42 CFR §440.40 and 42 CFR §440.155
  - If applicable, specify whether the State additionally limits the waiver to subcategories of the nursing facility level of care:
    - N/A
- [ ] Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140
- [ ] Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)
  - If applicable, specify whether the State additionally limits the waiver to subcategories of the ICF/IID level of care:

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities. Select one:

- Not applicable
- [x] Applicable

Check the applicable authority or authorities:

- [ ] Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I
- [x] Waiver(s) authorized under §1915(b) of the Act.

Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

- 1915(b) waiver application is being submitted concurrently with this 1915(c) waiver application. Dual Eligible individuals living in the covered geographic area who do not choose an ICDS health plan will be passively enrolled in an ICDS plan that is selectively procured by CMS and the State of Ohio for both Medicare and Medicaid services. Dual Eligible individuals may opt out of the ICDS plan for Medicare, but will be mandatorily enrolled after the 60-day choice period for Medicaid benefits.

Specify the §1915(b) authorities under which this program operates (check each that applies):

- [x] §1915(b)(1) (mandated enrollment to managed care)
- [ ] §1915(b)(2) (central broker)
- [ ] §1915(b)(3) (employ cost savings to furnish additional services)
- [x] §1915(b)(4) (selective contracting/limit number of providers)

- [ ] A program operated under §1932(a) of the Act.

Specify the nature of the State Plan benefit and indicate whether the State Plan Amendment has been submitted or previously approved:
A program authorized under §1915(i) of the Act.
A program authorized under §1915(j) of the Act.
A program authorized under §1115 of the Act.

Specify the program:

H. Dual Eligibility for Medicaid and Medicare.
Check if applicable:

☒ This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. In one page or less, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

More than 182,000 Ohioans are currently enrolled in both Medicare and Medicaid, accounting for nine percent of total Ohio Medicaid enrollment and almost 30 percent of total Medicaid spending. Historically, the two programs were designed and managed with little connection to one another, and without a single point of accountability. Additionally, long-term services and supports (LTSS), behavioral health services and physical health services have been poorly coordinated. The result is diminished quality of care for dual eligibles. With this in mind, Ohio is seeking to create an Integrated Care Delivery System (ICDS) demonstration through the Centers for Medicare and Medicaid Innovation (CMMI) that offers a new approach to meeting the needs of dual eligibles by using a capitated managed care model that oversees the delivery of all medically necessary services.

As part of the ICDS demonstration, Ohio is requesting concurrent 1915(b)/(c) waivers in conjunction with the authority granted from CMMI to offer care to individuals with full dual eligibility for Medicare and Medicaid. Among other things, the 1915(c) ICDS Waiver will:

* Authorize home and community-based services (HCBS) not otherwise available through Ohio’s Medicaid State plan for individuals who meet either a hospital or nursing facility level of care (LOC), thus enabling them to maximize their independence and live in settings of their choice.
* Waive §1902(a)(1) of the Social Security Act (statewideness) in order to furnish Medicaid HCBS only to those individuals who reside in the following counties: Fulton, Lucas, Ottawa, Wood, Lorain, Cuyahoga, Lake, Geauga, Medina, Summit, Portage, Stark, Wayne, Trumbull, Mahoning, Columbiana, Union, Delaware, Franklin, Pickaway, Madison, Clark, Green, Montgomery, Butler, Warren, Clinton, Hamilton and Clermont.
* Assure continuity of care by offering HCBS that are consistent with the services available in Ohio's five NF-based LOC waivers (i.e., the PASSPORT, Choices and Assisted Living waivers administered by the Ohio Department of Aging (ODA) and the Ohio Home Care and Transitions II Aging Carve-Out waivers administered by the Ohio Department of Medicaid (ODM).
* Provide for self-direction of selected HCBS.

The ICDS demonstration will be implemented in March 2014 beginning with voluntary enrollment. Enrollment in selected regions began in April 2014. ODM will competitively select health plans that demonstrate an ability to effectively manage a comprehensive benefit package for Medicare and Medicaid enrollees (subject to Centers for Medicare and Medicaid Services (CMS) final approval).

If an individual is a dual eligible and is residing in a participating county, then he or she will be mandated into the ICDS Plan through the 1915(b) waiver, as well as its accompanying 1915(c) waiver. The 1915(c) waiver reserves all slots for the 1915(b) enrollees. The 1915(c) waiver will prioritize dual eligibles in the 1915(c) waiver's Appendix B.3.f and reserve capacity for individuals in the ICDS 1915(b) waiver.

Care Management and Waiver Service Coordination
Ohio's extensive experience administering HCBS waivers has demonstrated that the coordination of HCBS is extremely important to keeping an individual in the community. It has also been found that the relationship between the individual and his or her waiver service coordinator has a significant impact on outcomes. As a part of the ICDS demonstration, the individual will be assigned both an ICDS plan care manager and a waiver service coordinator. The ICDS care manager is expected to lead and coordinate the individual's trans-disciplinary team and ensure overall coordination between acute care and waiver services. The waiver service coordinator is the waiver service expert who will ensure that all functions under the waiver occur and ensure the

https://wms-mmdl.cms.gov/WMS/faces/protected/35/print/PrintSelector.jsp
that health and welfare checks are made as needed for each individual. ODM will also require that each ICDS plan hire a Long Term Care Services and Supports/Home and Community-Based Services Director to ensure there is a specific focus on the ICDS Waiver population.

Specific responsibilities of the ICDS plan care manager will include, but not be limited to, the following: serving as the accountable point of contact for the individual; identifying and negotiating roles and responsibilities for all team members; arranging for, or conducting, the comprehensive assessment; developing, implementing and monitoring the comprehensive care plan; directing all care management activities (e.g., delegating tasks to team members, completing the care gap analysis, and structuring the in-person contacts to ensure alignment with the care plan goals/interventions).

### 3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

**A. Waiver Administration and Operation. Appendix A** specifies the administrative and operational structure of this waiver.

**B. Participant Access and Eligibility. Appendix B** specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

**C. Participant Services. Appendix C** specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

**D. Participant-Centered Service Planning and Delivery. Appendix D** specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).

**E. Participant-Direction of Services.** When the State provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):

- ☐ Yes. This waiver provides participant direction opportunities. Appendix E is required.
- ☐ No. This waiver does not provide participant direction opportunities. Appendix E is not required.

**F. Participant Rights. Appendix F** specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.

**G. Participant Safeguards. Appendix G** describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.

**H. Quality Improvement Strategy. Appendix H** contains the Quality Improvement Strategy for this waiver.

**I. Financial Accountability. Appendix I** describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

**J. Cost-Neutrality Demonstration. Appendix J** contains the State's demonstration that the waiver is cost-neutral.

### 4. Waiver(s) Requested

**A. Comparability.** The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

**B. Income and Resources for the Medically Needy.** Indicate whether the State requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

- ☐ Not Applicable
- ☐ No
- ☐ Yes
C. **Statewideness.** Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):

- [ ] No
- [x] Yes

If yes, specify the waiver of statewideness that is requested (check each that applies):
- Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the State. Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:
  
  The ICDS Waiver will be limited to the following counties: Fulton, Lucas, Ottawa, Wood, Lorain, Cuyahoga, Lake, Geauga, Medina, Summit, Portage, Stark, Wayne, Trumbull, Mahoning, Columbiana, Union, Delaware, Franklin, Pickaway, Madison, Clark, Green, Montgomery, Butler, Warren, Clinton, Hamilton and Clermont.

- Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State. Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

5. **Assurances**

   In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

A. **Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:

1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;

2. Assurance that the standards of any State licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,

3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in Appendix C.

B. **Financial Accountability.** The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.

C. **Evaluation of Need:** The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.

D. **Choice of Alternatives:** The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in Appendix B, the individual (or, legal representative, if applicable) is:

1. Informed of any feasible alternatives under the waiver; and,

2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

E. **Average Per Capita Expenditures:** The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been
made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.

**F. Actual Total Expenditures:** The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

**G. Institutionalization Absent Waiver:** The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.

**H. Reporting:** The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

**I. Habilitation Services.** The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

**J. Services for Individuals with Chronic Mental Illness.** The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

### 6. Additional Requirements

*Note: Item 6-I must be completed.*

**A. Service Plan.** In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

**B. Inpatients.** In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.

**C. Room and Board.** In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in Appendix I.

**D. Access to Services.** The State does not limit or restrict participant access to waiver services except as provided in Appendix C.

**E. Free Choice of Provider.** In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.

**F. FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally
liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.

G. **Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

H. **Quality Improvement.** The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in **Appendix H.**

I. **Public Input.** Describe how the State secures public input into the development of the waiver:
Ohio has been working with stakeholders on the development of the ICDS demonstration since January 2011. In doing so, the State has conducted numerous activities to solicit input and has considered stakeholders' concerns and expectations in making key decisions. These activities have included:

* A Request for Information and summary of responses.
* Testimony by the Ohio Medicaid Director before the Ohio Legislature.
* Establishment of an advisory group made up of internal and external stakeholders.
* Presentation of a concept paper to the State's Unified Long Term Care Systems Advisory Workgroup.
* Regional meetings, statewide conference calls, public hearings and a teleconference with individuals, family caregivers, and advocates and stakeholders.
* Development of a Q & A document and fact sheet associated with the concept paper.
* Development of an individual questionnaire and summary of responses.
* Links to key information about ICDS and stakeholder engagement activities on the Governor's Office of Health Transformation website.

Ohio has received responses from individuals, families and caregivers throughout the public input process. The State has also heard from many stakeholder groups including, but not limited to health plans and health care delivery systems; care management and care coordination companies; provider associations; the Ohio Association of Area Agencies on Aging; the Ohio Olmstead Task Force; and social service and advocacy organizations.

Ohio will continue to engage with, and incorporate feedback from, stakeholders during the implementation and operational phases of the ICDS demonstration. For example, Ohio recently commenced a new ICDS Demonstration Advisory Enrollment Workgroup that will provide OMA guidance and support in the development of the ICDS demonstration’s enrollment process.

Additionally, Ohio previously convened a group of individuals, providers and stakeholders to discuss other waiver reform initiatives. The populations included in the ICDS Waiver are represented by this workgroup. As a result, the State will also use this forum to share and discuss the delivery of HCBS in the ICDS demonstration.

**Public Notification and Public Input Process for the HCBS Statewide Transition Plan**

For each required public comment period, Ohio uses all of the above methods to notify the public of the opportunity to review and comment on the HCBS Statewide Transition Plan. In addition, remittance advice notifications are used to reach the provider community. ODM places a notice on provider “remittance advices” advising providers of the draft transition plan and listing the website at which they could read the plan and submit comments. Home health agencies, personal care aides and home care attendants, and waiver services organizations were among the provider types notified.

For each required public comment period, Ohio provides all of the above methods for the public to provide input on the draft transition plan and/or request a non-electronic copy of the plan.

Public comment process, comments and responses for Ohio's transition to a 1634 state are located in 8.B. Optional
January 2018 Amendment public comment.

Post Date: August 25, 2017
Comment End Date: September 25, 2017
Purpose: The purpose of this posting is to provide public notice and receive public comments for consideration regarding an amendment to the MyCare Ohio Medicaid waiver.

Detail: To view either the MyCare Ohio Waiver Amendment or the MyCare Ohio Waiver Amendment Summary, click here: http://medicaid.ohio.gov/RESOURCES/PublicNotices.aspx

A non-electronic copy of the MyCare Ohio Waiver Amendment may be obtained if requested by leaving a voice mail with your mailing address at the following TOLL FREE telephone number: 1-888-433-6755.

Comments must be submitted by midnight of the comment period end date using one of the following options:

E-mail: MyCarefeedback@medicaid.ohio.gov

Written comments sent to:
Attn: MyCare Ohio Waiver
Ohio Department of Medicaid 4th Floor
P.O. Box 182709
Columbus, OH 43218

FAX: (614) 752-7701
Please include Attn. MyCare Ohio Waiver Amendment in the subject line.

Call toll-free 1-888-433-6755 to leave a voicemail message about the MyCare Ohio Waiver Amendment

TTY: Dial 711.

Courier or in-person submission to Attn: Ohio Department of Medicaid, P.O.Box 182709, Columbus OH 43218

Non-electronic Methods: The local County Department of Job and Family Services offices posts a copy of the Public Notice and Request for Comment announcement, which includes information about how to obtain a non-electronic copy of the proposed waiver amendment.

No comments specific to the amendment were received. One general comment was received about the MyCare Ohio program.

J. Notice to Tribal Governments. The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

8. Authorizing Signature

This document, together with Appendices A through J, constitutes the State's request for a waiver under §1915(c) of the Social Security Act. The State assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are readily available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments.

Upon approval by CMS, the waiver application serves as the State's authority to provide home and community-based waiver services to the specified target groups. The State attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

Attachment #1: Transition Plan
Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.
Replacing an approved waiver with this waiver.

Combining waivers.

Splitting one waiver into two waivers.

Eliminating a service.

Adding or decreasing an individual cost limit pertaining to eligibility.

Adding or decreasing limits to a service or a set of services, as specified in Appendix C.

Reducing the unduplicated count of participants (Factor C).

Adding new, or decreasing, a limitation on the number of participants served at any point in time.

Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.

Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

Ohio is sensitive to the magnitude of the proposed changes and is committed to implementing the ICDS Waiver in a manner that allows for the safe transition of individuals, emphasizing continuity of care, and minimizing service disruption. As such, the ICDS plans will be required to adhere to specific transition requirements. The State has developed these requirements with the assistance of individuals and providers who voiced their concerns about continuity of care and risks to health outcomes if enrollment in the ICDS demonstration resulted in abrupt changes to care plans and providers.

Ohio projects there will be four groups of individuals who will meet the ICDS Waiver eligibility criteria and may each need special transition processes:

1. Individuals currently enrolled on the PASSPORT, Choices, and Assisted Living Waivers administered by ODA; and individuals currently enrolled on the Ohio Home Care and Transitions II Aging Carve-out Waivers administered by ODM;

2. “Community Well” individuals participating in the ICDS demonstration who experience a significant change that presents a new need for LTSS;

3. Current NF residents who are transitioning into the community and have a need for LTSS; and

4. Individuals who are newly eligible for either or both Medicare and Medicaid, are otherwise eligible for the ICDS demonstration, and are enrolled on an HCBS waiver during their fee-for-service (FFS) Medicaid period before they are enrolled on an ICDS plan. Individuals who present a need for HCBS, prior to their enrollment in the ICDS program will receive services on a FFS basis until a plan selection is made.

It is anticipated that individuals in groups 2 and 3 will move directly onto the ICDS demonstration without a “transition period”.

For individuals in groups 1 and 4, however, ICDS plans will be required to contract with each individual's established providers upon enrollment in the ICDS demonstration for the periods of time described below at the rate approved under the individual’s currently approved waiver service plan. Additionally, each individual's service plan shall be updated to reflect the service nomenclature in this waiver utilizing the crosswalk in the Service Crosswalk located on the Optional Page of this application.

Transition Periods:

• Waiver personal care assistance, nursing, out-of-home respite, enhanced community living, adult day services, social work/counseling and independent living skills providers will be maintained for 365 days unless a change is required.

• All other waiver service levels will be maintained for 365 days, and providers will be maintained for 90 days.

Changes in Provider During Transition Periods:

Individuals may initiate a change in waiver service provider at any time. However, any change in services or service providers (initiated by either the individual or the ICDS plan) may occur only after an in-home assessment and the development of a plan for the transition to a new provider. In cases where the health and welfare of the individual is judged to be in danger, expedited service authorization time frames will apply per 42 CFR 438.210.

During the transition periods listed above, an ICDS plan-initiated change from an existing provider may occur in the following
circumstances:

• The individual has a significant change in status as defined in Ohio Administrative Code (OAC) rule 5101:3-45-01;

• The provider gives appropriate notice of intent to discontinue services to an individual; or

• Provider performance issues that affect an individual’s health and welfare are identified. If the ICDS plan detects a quality of care issue, the ICDS plan will work with the provider and individual to satisfactorily resolve the issues. If resolution is not possible, the ICDS plan will assist the individual in choosing a provider willing and able to comply with quality of care requirements.

Prior to the conclusion of the transition period, the individual shall meet with his/her waiver service coordinator and other transdisciplinary care team members to review the current care plan and discuss any required changes in services or providers. If a change in HCBS provider is required for any reason, the individual will be provided information regarding other available providers and an individualized transition plan will be developed and integrated into the comprehensive care plan.

April 2016: 1634 Conversion Transition Plan

Ohio is sensitive to the magnitude of the proposed change to convert from a section 209(b) state to a section 1634 state. The objectives of the waiver transition plan are to ensure every individual potentially impacted by the conversion receives adequate notice of the conversion and potential impact on his/her Medicaid eligibility, is educated on his/her options, and has access to assistance to establish a Qualified Income Trust (QIT)/Miller Trust. All affected Medicaid beneficiaries will receive notification from Ohio Department of Medicaid (ODM) of the conversion to a section 1634 state.

Using information derived from the State’s Medicaid eligibility system, the State has identified beneficiaries with income over the special income limit (300% of the SSI Federal Benefit Rate), by waiver program and county of residence. These individuals will have the option to continue their Medicaid eligibility and waiver services through the use of a QIT/Miller Trust.

At least 90 day prior to the conversion to a section 1634 state, ODM will send letters directly to each individual enrolled on the waiver with income over the special income limit. The letter will describe the option of continuing Medicaid eligibility and waiver services through the use of a QIT/Miller Trust. The letter will include the contact information for the vendor that will assist the individual with establishing a QIT/Miller Trust.

Information about the conversion to a section 1634 state will be posted on the ODM website. In addition, the sister agency websites (Ohio Department of Developmental Disabilities and the Ohio Department of Aging) will include a link to the ODM website.

The waiver case managers for the identified individuals will receive information regarding the conversion from a section 209(b) state to a section 1634 state, and be directed to the ODM website for access to the state-developed QIT/Miller Trust education materials and templates. The State plans to engage a statewide vendor to contact each individual enrolled in the waiver with income over the special income limit to assist with establishing a QIT/Miller Trust. Using state-developed QIT/Miller Trust education materials and templates, the vendor will validate the status of individuals identified as having income over the special income limit, educate individuals on the QIT/Miller Trust option, assist with the creation of the QIT/Miller Trust, assist with the creation of a bank account for QIT/Miller Trust deposits, and ensure trust information is submitted to the local County Department of Job and Family Services.

Subsequent reminders will be mailed by ODM to individuals to encourage them to take the necessary actions in order to maintain Medicaid eligibility.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c) (6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.
Note that Appendix C-5 HCB Settings describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here. Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state’s HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

HCBS Settings Transition Plan

State’s Response

I. STATUS OF THE STATE TRANSITION PLAN

Under the umbrella of the Office of Health Transformation http://www.healthtransformation.ohio.gov, an interagency project team, comprised of state staff from the Ohio Department of Medicaid (ODM), and the Ohio Department of Aging (ODA), the Ohio Department of Developmental Disabilities (DODD) adopted a shared approach for developing the draft statewide transition plan. Compliance with the CMS rule creates different opportunities and challenges for the Nursing-facility based level of care (NF-LOC) waiver system and the Intermediate Care Facilities for Individuals with an Intellectual Disability (ICF-IID) waiver system. As a result, the project team leveraged the existing resources and infrastructures of each waiver system to establish system specific assessment methodologies to conduct a review of the applicable state statutes, administrative rules, approved waivers, provider licensing, qualifications and waiver certification requirements, service specifications, case management administrative and operational processes, monitoring and operational oversight activities, and quality improvement strategies to determine the current level of compliance and identify areas for improvement and remediation to achieve and maintain full compliance.

December 2015 The Centers for Medicare and Medicaid Services (CMS) completed its initial review of Ohio’s Statewide Transition Plan and issued the findings to the State on July 23, 2015. As a result of the of the initial CMS review of the draft statewide transition plan, the plan was revised and posted for public comment. During Ohio’s second formal public comment period, copy of the full draft transition plan was posted to the website of Ohio’s Office of Health Transformation between October 15, 2015 and November 15, 2015. A summary of the public input process is described in 6I and the summary of comments on the revised draft transition plan pertaining to this waiver is described in Section 8B.

II. DESCRIPTION OF THE ICDS WAIVER SERVICES IN NON-RESIDENTIAL SETTINGS – ADULT DAY HEALTH SERVICE

The ICDS waiver serves individuals age 18 or older and furnishes them with the services and supports necessary to allow the individuals to reside in their community rather than in a nursing facility. The purpose of the Adult Day Health service in the waiver is to furnish regularly scheduled services that support the individual’s health and independence goals in a community setting. The service is available to eligible individuals and includes recreational and educational activities of the individual’s choice.

Individuals utilizing the adult day health service in the ICDS waiver reside in traditional private residences in the community and receive the HCBS service for a portion of the day at an adult day health setting of their choice. A qualifying HCBS adult day health center must be a freestanding building or a space within another building not used for other purposes during the provision of adult day health service. The Adult Day Health Service in the ICDS waiver is furnished in a non-residential setting. As a result, the focus of the compliance analysis is directed at the Adult Day Health service and the characteristics of the settings in which this service is delivered.

December 2015: No modifications were made to this section in the revised draft statewide transition plan.

III. ASSESSMENT OF THE NON-RESIDENTIAL SETTING IN ICDS

The State conducted a systematic review of applicable state statutes, administrative rules, provider requirements (licensing, qualifications and waiver certification), service specifications, case management standards, administrative and operational processes, and monitoring and operational oversight activities for the approved ICDS waiver. The state also conducted an online survey to gauge how the Adult Day service providers assessed their level of compliance with the new regulations. There are currently 270 adult day health HCBS providers eligible to furnish the waiver service. The state conducted an analysis of data maintained by ODA and ODM and determined the adult day health waiver settings are located in 50% (44) of 88 counties and serve approximately 2,300 individuals enrolled on one of the State’s five NF-LOC waivers receiving the service.

December 2015: No modifications were made to this section in the revised draft statewide transition plan.
IV. ANALYSES OF THE NON-RESIDENTIAL SETTINGS IN ICDS

Adult Day Health services in non-residential settings that currently meet the HCBS setting characteristics:

ANALYSIS:
A) In the preliminary analysis, the State has not identified any non-residential settings that are currently 100% compliant with the new regulation.

The state will ensure that existing settings continue to meet the HCBS characteristics by adopting a new Ohio Administrative Code rule and modifying the State’s HCBS ongoing provider oversight function.

In the event a setting, which previously demonstrated evidence of compliance but subsequently cannot (or does not) produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals who choose to transition to a setting of their choice which meets the HCBS characteristic.

December 2015: No modifications were made to this section of the revised draft statewide transition plan

B) Adult Day Health services in non-residential settings that currently do not meet HCBS characteristics for provider-owned or controlled settings, but may with modifications:

ANALYSIS:
The HCBS waiver provider certification standards provide a basis for reducing the risk of isolating individuals from the broader community. Proposed modifications will ensure individuals on ICDS are afforded full access to the benefits of community living across the system, rather than relying on setting specific policies and practices. In the preliminary analysis, the State has identified that 92% of the currently certified HCBS adult day health providers are free standing.

REMEDICATION:
Proposed modifications will ensure individuals are afforded full access to the benefits of community living across the system, rather than relying on setting specific policies and practices. The state will ensure that existing settings come into full compliance with the HCBS characteristics by adopting a new HCB setting rule, modifying existing OAC rules, furnishing provider education, and modifying the State’s HCBS ongoing provider oversight function.

In the event a setting, which previously demonstrated evidence of compliance but subsequently cannot (or does not) produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals who choose to transition to a setting of their choice, which meets the HCBS characteristics.

December 2015: No modifications were made to this section of the revised draft statewide transition plan

C) Adult Day Health services in non-residential settings that are presumed to have the effect of isolating individuals and may be subject to heightened scrutiny process:

ANALYSIS:
CMS described settings “presumed to have the qualities of an institution” as those located in a public or private facility that provides inpatient treatment. The State’s preliminary assessment identified one setting, which may have the effect of isolating individuals and be subject to heightened scrutiny by virtue of its location alone: adult day health settings that are located in the same building as a nursing facility.

There are 22, or 8%, of adult day health service waiver providers that are located in the same building as a nursing facility. These settings are located in 15 Ohio counties and currently serve approximately 9% of all the individuals receiving the adult day health service in the State’s five NF-LOC waivers.

REMEDICATION:
Recognizing that the size or physical location of a setting is not the sole factor in determining whether a particular location possesses the characteristics of an HCBS setting, the State will conduct on-site evaluations of these locations to determine their level of compliance. The on-site review will include a review of the providers’ policies and procedures as well as the experience of individuals served in these settings. Regulatory changes, administrative and operational processes must be established prior to conducting the on-site evaluations. The results of the on-site evaluations will be the primary factor in choosing whether enough evidence can be presented to CMS to show that the setting is not institutional in nature.

The State will ensure that existing settings that are subject to heightened scrutiny come into full compliance with HCBS characteristics requirements by adopting a new HCBS settings rule, modifying existing OAC rules, establishing standards and defining acceptable evidence of compliance, provider remediation plans, on-site assessments which includes the individual’s experience residing in the setting, and modifying the State’s HCBS ongoing provider oversight function.

In the event the setting cannot or does not produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals who choose to transition to a setting of their choice,
which meets the HCBS characteristics.

December 2015: No modifications were made to this section of the revised draft statewide transition plan

D) Adult Day Health ICDS waiver settings that cannot meet the HCBS characteristics:

ANALYSIS:
In the preliminary analysis, the State has not identified any non-residential settings that cannot meet the HCBS characteristics. By adopting a new HCBS settings rule and modifying the state’s initial HCBS provider certification rules, the State will ensure no new settings that cannot meet the HCBS characteristics are permitted to furnish the Medicaid funded Adult Day Health service.

In the event a setting, which previously demonstrated evidence of compliance but subsequently cannot (or does not) produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals to transition them to a setting of their choice, which meets the HCBS characteristics.

December 2015: No modifications were made to this section in the revised draft statewide transition plan.

V.DESCRIPTION OF THE RESIDENTIAL SETTING
The ICDS waiver serves individuals age 18 or older with a NF-LOC and furnishes services only to individuals who reside in licensed residential care facilities that are certified by ODA as a home and community-based waiver provider. The purpose of the assisted living service is to provide a setting that offers more person-centered services and supervision than a traditional community residence and more independence, choice, and privacy than a traditional nursing facility. This setting has the capacity to provide a response to the unscheduled/unplanned needs of individuals receiving services. Only a residential care facility licensed by the Ohio Department of Health (ODH) and certified by ODA as an HCBS waiver provider may deliver the assisted Living service to individuals enrolled on the ICDS waiver.

December 2015: No modifications were made to this section in the revised draft statewide transition plan.

VI.ASSESSMENT OF RESIDENTIAL SETTING
The State conducted a systematic review of applicable state statutes, administrative code rules, provider requirements (licensing, qualifications and waiver certification), service specifications, case management standards, administrative and operational processes, and monitoring and operational oversight activities for the approved Assisted Living waiver.

The state contracts with 13 regional entities (PASSPORT Administrative Agencies) to conduct initial and annual on-site compliance reviews of certified assisted living providers. A survey of the 13 PASSPORT Administrative Agencies (PAAs) was conducted to obtain information about the setting characteristics for currently certified assisted living providers. The state also conducted an on-line survey to gauge how the provider community assessed their level of compliance with the new regulations. Following the public comment period for the draft State Transition Plan, the state subsequently confirmed that independent living options were available for individuals not receiving Medicaid funded HCBS services at all the currently certified assisted living providers which had been categorized as privately operated continuing care retirement communities.

December 2015: No modifications were made to this section in the revised draft statewide transition plan.

VII.ANALYSES OF THE RESIDENTIAL SETTINGS
Settings that currently meet the HCBS setting characteristics:
ANALYSIS:
In the preliminary analysis, the State has not identified any residential settings in which the assisted living waiver service is furnished that are currently 100% compliant with the new regulation.

The state will ensure that existing settings continue to meet the HCBS characteristics by adopting a new Ohio Administrative Code rule and modifying the State’s HCBS ongoing provider oversight function.

In the event a setting, which previously demonstrated evidence of compliance but subsequently cannot (or does not) produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals who choose to transition to a setting of their choice which meets the HCBS characteristic.

Settings that currently do not meet HCBS characteristics for provider-owned or controlled settings, but may with modifications:
ANALYSIS:
In the preliminary analysis, the state determined 89 percent, or 298, of the currently certified HCBS assisted living waiver service providers are either free-standing communities or private continuing care retirement communities that offer independent living options for residents not receiving HCBS services. At the time of this analysis, these settings serve approximately 2,600 individuals or 94% of all individuals receiving the assisted living waiver service.
REMEDIATION:
The current residential care facility (RCF) licensure standards combined with the HCBS waiver provider certification standards provide a basis for reducing the risk of isolating individuals from the broader community. Proposed modifications will ensure individuals are afforded full access to the benefits of community living across the system rather than relying on setting specific policies and practices. The state will ensure that existing settings come into full compliance with the HCBS characteristics by adopting a new HCBS setting rule, modifying existing OAC rules, furnishing provider education, and modifying the State’s HCBS ongoing provider oversight function.

In the event a setting, which previously demonstrated evidence of compliance but subsequently cannot (or does not) produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals who choose to transition to a setting of their choice, which meets the HCBS characteristics.

Settings that are presumed to have the effect of isolating individuals and may be subject to heightened scrutiny process:

ANALYSIS:
CMS described settings “presumed to have the qualities of an institution” as those located in a public or private facility that provides inpatient treatment. The State’s preliminary assessment identified one type of setting that may have the effect of isolating individuals and thus be subject to heightened scrutiny. There are 11%, or 36, RCFs certified as an HCBS assisted living provider located in the same building as a nursing facility.

REMEDIATION:
The State will ensure that existing settings that are subject to heightened scrutiny come into full compliance with HCBS characteristics requirements by adopting a new HCBS settings rule, modifying existing OAC rules, establishing standards and defining acceptable evidence of compliance, provider remediation plans, on-site assessments which includes the individual’s experience residing in the setting, and modifying the State’s HCBS ongoing provider oversight function.

In the event the setting cannot or does not produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals who choose to transition to a setting of their choice, which meets the HCBS characteristics.

Settings that cannot meet the HCBS characteristics:

ANALYSIS:
In the preliminary analysis, the State has not identified any residential settings that cannot meet the HCBS characteristics.

REMEDIATION:
By adopting a new HCBS settings rule and modifying the state’s initial HCBS provider certification rules, the State will ensure no new settings that cannot meet the HCBS characteristics are permitted to furnish the Medicaid funded HCBS assisted living service.

In the event a setting, which previously demonstrated evidence of compliance but subsequently cannot (or does not) produce acceptable evidence of compliance, the state’s established relocation team, led by the State Long-Term Care Ombudsman, will work with individuals to transition them to a setting of their choice, which meets the HCBS characteristics.

December 2015: No modifications were made to this section in the revised draft statewide transition plan.

VIII. STATUS OF THE STATE’S TRANSITION TO COMPLIANCE
Ohio submitted its Final State Transition Plan through the portal on March 13, 2015. The State awaits CMA approval of the State Transition Plan. While the State is attaching a ICDS Waiver Transition Plan, the State expects that language in the State’s Transition Plan approved by CMS and related to the this waiver will take precedence over the language in the waiver transition plan.

December 2015: Ohio submitted the revised draft statewide transition plan through the portal on December 1, 2015. The State awaits CMS approval of the revised plan. The State expects that language in the State’s revised Transition Plan approved by CMS and related to the Assisted Living Waiver will take precedence over the language in the waiver transition plan.

Remediation strategies include:

Adoption of an overarching HCBS Waiver Administration rule that details the CMS HCBS settings characteristics required for all provider controlled settings, amendments to Adult Day Health OAC 173-39-02.1, and the Assisted Living OAC 173-39-02.16 and modification to the provider oversight process are slated for 7/2015-7/2016.

December 2015: No modifications were made in the revised draft statewide transition plan.

Provider Education and compliance monitoring will include development of a provider self-assessment tool, development of a standardized compliance monitoring tool, modification of provider and case management operational manuals and forms, as

December 2015: No modifications were made in the revised draft statewide transition plan.

Conduct on-site assessments for settings subject to heightened scrutiny. Proposed Time Frame: 7/2016-12/2016

December 2015: The following modifications were made to the action steps and time frames in the revised draft statewide transition plan:

Site Specific Self-Assessment
Proposed time frame: 1/2016-6/2016

Site Specific Remediation Plans submitted to the state.
Proposed time frame: July 2016-Sept 2016

On-Site Assessments of settings subject to heightened scrutiny.

For those locations that compliance reviews show they continue to have the effect of isolating individuals from the broader community, the state’s established relocation team, led by the State Long Term Care Ombudsman office, will work with individuals who choose to transition to a setting of their choice. Proposed Time Frame: 1/2017 and ongoing.

December 2015: No modifications were made in the revised draft statewide transition plan.

Ongoing Compliance achieved via on site provider reviews, which include experience of individuals in the setting, are slated for 7/2016 and ongoing.

December 2015: No modifications were made in the revised draft statewide transition plan.

The State’s Quality Strategy will include the results from a nationally recognized, statistically valid consumer survey, such as the National Core Indicators – Aging and Disability and the findings from the Long Term Care Consumer Guide Resident Satisfaction Survey to assess waiver participants’ experience with community integration and access. Proposed Time Frame: 2016 and ongoing.

December 2015: Modification was made to the proposed time frame in the revised draft statewide transition plan.
Proposed Time Frame: 2017 and ongoing

The state assures that the settings transition plan included with this waiver renewal will be subject to any provisions or requirements included in the State's approved Statewide Transition Plan. The State will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the next amendment or renewal.

On June 2, 2016, CMS granted the state of Ohio initial approval of its Statewide Transition Plan (STP) to bring settings into compliance with the federal home and community-based services (HCBS) regulations. The elements of the STP specific to this waiver are outlined in Appendix 3 and 4 of the STP. The state continues to work towards final approval of Ohio’s STP by addressing CMS’s remaining concerns related to the state’s site-specific assessment results and remediation. Ohio’s Statewide Transition Plan and related documents can be found at: http://www.medicaid.ohio.gov/INITIATIVES/HCBSTransition.aspx. Ohio continues to submit milestone updates to the Centers for Medicare and Medicaid Services (CMS); the last update to CMS was submitted July 2017. The state assures that the settings transition plan included with any waiver renewal or amendment will be subject to any provisions or requirements included in the State's approved Statewide Transition Plan. The State will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the next amendment or renewal.

### Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

**PROGRAM DESCRIPTION (continued)**

Specific responsibilities of the waiver service coordinator (who is directly employed by the ICDS plan or is employed through a contracted delegated arrangement) will include, but not be limited to, the following: the ongoing assessment of LTSS for
individuals currently receiving waiver services; the initial LTSS assessment for individuals who present a need (i.e., community well); waiver service plan development, review and updates; crisis intervention, event-based visits, provider monitoring and assisting individuals with self-directed care. The waiver service coordinator will be accountable to the ICDS plan care manager who is ultimately responsible for ensuring the appropriate development of the waiver service plan and its integration to the comprehensive plan of care.

Ohio recognizes both the right of the individual to choose his or her waiver service coordinator and the importance of the role entities in the state already play in the coordination of HCBS waiver services. Thus, in order to maintain continuity of care and assist in transitioning from a traditional fee-for-service environment to a managed care environment, the ICDS plans will be required to contract with Area Agencies on Aging (AAA) to perform waiver service coordination for, at a minimum, those individuals age 60 and older. ICDS plans may also choose to subcontract waiver service coordination to additional entities that have experience working with people with disabilities and/or chronic conditions including, but not limited to, centers for independent living and disability-oriented case management agencies. The ICDS plans may also provide waiver service coordination themselves.

Individuals will be given the right to choose from available entities that will provide waiver service coordination for traditional 1915(c) HCBS, as well as their specific waiver service coordinator. Individuals age 60 and older who do not choose a waiver service coordinator will be assigned a waiver service coordinator from the AAA.

ICDS plans will be responsible for ensuring that members of the individual's trans-disciplinary team, including staff who are directly employed by the plan or a delegated entity who are completing care management activities, are appropriate for responding to and managing the individual's needs, and follow the State's licensure/credentialing requirements. OMA will not dictate minimum requirements for ICDS plan care managers, however they must have the skills necessary to coordinate the full array of services required by the individual. Waiver service coordinators will be required to demonstrate at least one year of experience working with persons with disabilities/chronic conditions and LTSS. Depending on the structure of the ICDS plan's comprehensive care management program, the roles of the waiver service coordinator and the care manager may be filled by the same person. In this scenario, the minimum qualifications for the waiver service coordinator will still apply.

ELIGIBILITY:

Ohio projects there will be four groups of individuals who will meet the ICDS Waiver eligibility criteria:

* Individuals currently enrolled on one of Ohio's five NF-based waivers (i.e., the PASSPORT, Choices, and Assisted Living Waivers administered by ODA; and individuals currently enrolled on the Ohio Home Care and Transitions II Aging Carve-out Waivers administered by ODM);

* "Community Well" individuals participating in the ICDS demonstration who experience a significant change that presents a new need for LTSS;

* Current NF residents who are transitioning into the community and have a need for LTSS; and

* Individuals who are newly eligible for either or both Medicare and Medicaid, are otherwise eligible for the ICDS demonstration, and are enrolled on an HCBS waiver during their fee-for-service (FFS) period before they are enrolled on an ICDS plan.

START-UP ENROLLMENT:

The first group (i.e., eligible individuals currently enrolled on one of Ohio's five NF-based waivers) will be enrolled into the ICDS Waiver over a four-month period.

Enrollment beginning March 1, 2014:
- Statewide voluntary enrollment

Enrollment beginning April 1, 2014:
- Northeast ICDS Region (Cuyahoga, Lake, Geauga, Lorain and Medina counties)

Enrollment beginning May 1, 2014:
- Northwest ICDS Region (Fulton, Lucas, Wood and Ottawa counties)
- Northeast Central ICDS Region (Trumbull, Mahoning and Columbiana counties)
• Southwest ICDS Region  (Butler, Warren, Clinton, Hamilton and Clermont counties)

Enrollment beginning June 1, 2014:
• East Central ICDS Region (Wayne, Summit, Portage and Stark counties)
• Central/Southeast ICDS Region (Union, Delaware, Franklin, Pickaway and Madison counties)
• West Central ICDS Region  (Clark, Green and Montgomery counties)

ENROLLMENT:
Ohio estimates that approximately 37,000 unduplicated individuals will participate in the ICDS Waiver in Year 1, many of whom will transfer from one of Ohio's five NF-based waivers. That number is expected to climb to approximately 41,700 in Year 3 of the demonstration. All capacity in this waiver is reserved for enrollees in the ICDS 1915(b) waiver and its associated ICDS plans.

WAIVER SERVICES:
The ICDS Waiver will offer an array of services that is consistent with Ohio’s five NF-based LOC waivers in order to assure continuity of care for individuals transferring from one of those waivers to the ICDS Waiver. Services will include: homemaker; personal care; adult day health; emergency response; home delivered meals; alternative meals; home modifications, maintenance and repair; home medical equipment and supplemental adaptive and assistive devices; waiver transportation; out-of-home respite; waiver nursing; home care attendant; chore; community transition; enhanced community living; independent living assistance; nutritional consultation; social work counseling; Choices home care attendant; pest control; and assisted living services. The full range of services will be available to the individual based upon identified need, regardless of the waiver from which he or she transfers. A crosswalk of the services offered in Ohio's NF-based waivers and the ICDS Waiver is provided below:

• Assisted Living Services: encompasses Assisted Living Services found in the ALW (0446).

• Adult Day Health Services: encompasses Adult Day Health Center Services found in the OHCW (0337) and TCOW (0440); and Adult Day Health found in the PASSPORT (0198) and Choices (4196) Waivers.

• Personal Care: encompasses Personal Care Aide Services found in the OHCW and TCOW; and Personal Care found in PASSPORT.

• Homemaker: encompasses Homemaker services found in PASSPORT.

• Chore Services: encompasses Chore Services found in PASSPORT.

• Home Medical Equipment and Supplemental Adaptive and Assistive Devices: encompasses Supplemental Adaptive and Assistive Devices found in OHCW and TCOW; and Specialized Medical Equipment and Supplies found in PASSPORT and Choices.

• Home Modifications, Maintenance and Repair: encompasses Home Modifications found in OHCW and TCOW; and Minor Home Modifications, Maintenance and Repair found in PASSPORT and Choices.

• Emergency Response Services: encompasses Emergency Response Services found in OHCW and TCOW; and Personal Emergency Response Systems found in PASSPORT and Choices.

• Home Delivered Meals: encompasses Home Delivered Meals found in OHCW, TCOW, PASSPORT and Choices.

• Alternative Meals: encompasses Alternative Meals found in Choices.

• Waiver Transportation: encompasses Supplemental Transportation found in OHCW and TCOW; and Non-Medical Transportation found in PASSPORT.

• Waiver Nursing: encompasses Waiver Nursing found in OHCW and TCOW.

• Home Care Attendant Services: encompasses Home Care Attendant Services found in OHCW and TCOW.
• Out-of-Home Respite: encompasses Out-of-Home Respite found in OHCW and TCOW.

• Enhanced Community Living: encompasses Enhanced Community Living found in PASSPORT.

• Social Work Counseling: encompasses Social Work Counseling found in PASSPORT.

• Nutritional Consultation: encompasses Nutritional Consultation found in PASSPORT.

• Independent Living Assistance: encompasses Found independent Living Assistance found in PASSPORT.

• Community Transition: encompasses Community Transition found in PASSPORT and Community Transition Services for nursing home residents enrolling found in the ALW.

• Choices Home Care Attendant Services: encompasses Home Care Attendant Services found in Choices.

• Pest Control: encompasses Pest Control found in PASSPORT.

FIREWALLS:
ODM will work with the ICDS plans, and the entities responsible for conducting level of care assessments/reassessments, and for providing waiver service coordination and/or waiver services, to develop necessary firewalls to eliminate the possibility of any potential conflicts of interest regarding each entity's responsibilities under the ICDS Waiver.

Conflicts of interest will be avoided and/or diminished within the ICDS Plans via a variety of safeguards.

Plans will be required to attest that care managers and waiver service coordinators are not:

• Related by blood or marriage to the individual or any paid caregiver;
• Financially responsible for the individual;
• Empowered to make financial or health related decisions on behalf of an individual; and
• Providers of any HCBS services.

Additionally, consistent with Ohio’s approved MOU each plan must establish an advisory committee in each region in which they are contracted. The advisory committee must reflect the diversity of the ICDS enrollee population the plan is serving and must provide for meaningful input of individuals into program management issues.

Plans are also required to notify all individuals enrolled on the ICDS waiver at the time of their enrollment and at least annually (in writing and verbally) the process for filing grievances and appeals.

In addition, safeguards will be utilized to ensure that consumer choice is honored in the service planning process by assuring that waiver service plans are developed with the individual in accordance with their stated preferences and by documenting that the individual was presented with the choice among in-network providers.

ODM will engage in a variety of activities to insure individuals’ rights are safeguarded including:

• Using state staff to monitor plan’s efforts to detect over- and under-utilization of services as documented within the plan’s quality assessment and performance improvement programs;
• Using state staff to review the number and types of appeals and grievances related to waiver service plan development/updates and/or long term care services and supports;
• Using the state contracted EQRO to review service planning activities;
• Administering a state-developed care management survey (in the first and third years of the demonstration) that evaluates the individuals’ satisfaction and experience with care management services. This will include questions related to individuals’ involvement in waiver service planning.

Because the ICDS plan/contracted waiver service coordinator and the ICDS plan care manager are not providers of direct service and do not make enrollment eligibility decisions, the state does not believe a conflict of interest exists.

However, since the AAAs, through their contractual relationship with OMA, will be performing level of care functions for the ICDS waiver as well as providing waiver service coordination, each AAA will be required to implement state developed firewalls to address conflicts of interest.
December 2015 HCBS Transition Plan Comment Summary

Dates of the Formal public comment period for the revised draft statewide transition plan: October 15 through November 15, 2015.
Active Link used to post the entire plan: http://www.healthtransformation.ohio.gov/CurrentInitiatives/ExpandandStreamlineHCBS.aspx

The state received 8 unduplicated comments on the revised draft statewide transition plan during the formal public comment period. Some submissions addressed a variety of themes. The following is a summary of the comments germane to this waiver:

Comment: The personal needs allowance for individuals enrolled on the waiver is inadequate to promote community inclusion.
Response. The state will consider the personal need allowance policy in future waiver design. No change made to the plan.

Comment: The principle that individuals and families determine what integration means must permeate the plan.
Response: The plan provides opportunities for the experience of individuals to inform the implementation and ongoing assessment of compliance. No change made to the plan.

Comment: The on-site evaluations should include a broader sample of settings, not just those based on provider self-assessments.
Response: The ongoing provider oversight process does incorporate a review of the settings beyond those identified proposed plan, as appropriate. No change made to the plan.

Comment: Benchmarks and timelines are needed to make sure sufficient progress is made and process is transparent.
Response: The plan outlines the proposed timelines for each component. The State will use existing stakeholder communication avenues to report on implementation progress. No change made to the plan.

Comment: Enforcement mechanism for individuals to challenge any setting not compliant.
Response: Using the existing complaint processes, individuals have the right to file a complaint regarding a specific setting and/or to report directly to the State any concerns with a setting’s ability to comply. Upon receiving a report by an individual or another entity, the State will initiate a formal review, as appropriate.

Comment: Clarify the individual has a right to due process upon proposed modifications.
Response: Due process is currently afforded if individuals have concerns with the scope, duration, or frequency of services authorized in the person-centered service plan, including any modifications proposed to the plan. No change made to the plan.

Comment: Ongoing education is needed about the new rule and subsequent changes.
Response: The state will continue to share information about changes and status updates through the established stakeholder groups, routine publications, and websites. The design of the communication strategy included in the plan is underway as well as the development of “easy read” documents for individuals served by the ICF-IID system. No change made to the plan.

Comment: The Office of the State Ombudsman is supportive of the ombudsman’s role in the education and relocation process. The Ombudsman recommends flexibility with timeframes for relocation, depending on the number of settings, to ensure smooth transition for individuals.
Response: The existing relocation team protocols will be used to ensure smooth transitions for individuals, including determining time frames for relocations. No change made to the plan.

On June 2, 2016, CMS granted the state of Ohio initial approval of its Statewide Transition Plan (STP) to bring settings into compliance with the federal home and community-based services (HCBS) regulations. The elements of the STP specific to this waiver are outlined in Appendix 3 and 4 of the STP. The state continues to work towards final approval of Ohio’s STP by addressing CMS’s remaining concerns related to the state’s site-specific assessment results and remediation. Ohio’s Statewide Transition Plan and related documents can be found at: http://www.medicaid.ohio.gov/INITIATIVES/HCBSTransition.aspx. Ohio continues to submit milestone updates to the Centers for Medicare and Medicaid Services (CMS); the last update to CMS was submitted July 2017. The state assures that the settings transition plan included with any waiver renewal or amendment will be subject to any provisions or requirements included in the State's approved Statewide Transition Plan. The State will implement any required changes upon approval of the Statewide Transition Plan and will make conforming changes to its waiver when it submits the next amendment or renewal.

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one):

https://wms-mmdl.cms.gov/WMS/faces/protected/35/print/PrintSelector.jsp 7/24/2018
The waiver is operated by the State Medicaid agency.

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one):

- The Medical Assistance Unit.

Specify the unit name:

The ICDS Waiver will be administered by the Ohio Department of Medicaid’s Office of Managed Care. (Do not complete item A-2)

- Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit.

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

- The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.

Specify the division/unit name:

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

As indicated in section 1 of this appendix, the waiver is not operated by a separate agency of the State. Thus this section does not need to be completed.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):
Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).

Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6.

The 1915(b) ICDS Waiver will authorize mandatory enrollment in an ICDS plan for covered services. Through a three-way contract with CMS under a CMMI dual eligible integration demonstration, and a Medicaid provider agreement, the Ohio Department of Medicaid (ODM) (i.e., the State Medicaid Agency), will oversee the ICDS plans as they manage Medicaid services, including acute care services and home and community-based services under this waiver. The ICDS plans will pay for covered health services to enrolled qualified Medicaid providers furnishing services to individuals enrolled in Medicaid.

OMA is ultimately responsible for the oversight and day-to-day waiver operational and administrative functions performed by the ICDS plans in the waiver. However, the ICDS plans shall be responsible for:

- Coordination of waiver enrollment w/CDJFS
- Managing waiver expenditures against approved levels
- ICDS comprehensive care management
- Waiver service plan reviews
- Prior authorization of waiver services
- Utilization management
- Quality assessment and improvement activities
- Assuring the health and welfare of enrolled individuals
- Assuring that the policies and procedures established by OMA for the ICDS waiver are followed.

The ICDS plans, as part of their waiver administrative and operational responsibilities, shall:

- At the time of initial waiver enrollment, provide information to waiver participants about their rights and protections.
- Assure family/recipient awareness and freedom of choice for all available waiver services, including the right to select from among contracted providers.
- Resolve issues related to the enrolled individual’s health and safety and service delivery.
- Contract with a network of waiver service providers.
- Pay claims for authorized services furnished in accordance with the individual’s waiver service plan.
- Maintain a list of approved waiver service providers, recruit providers to address unmet needs, and provide training and technical assistance to providers contracted to provide waiver services.
- Provide utilization management through prior authorization and the review of paid claims data with follow-up as necessary.
- Quality management.
- Grievances and appeals.
- Provide or arrange for 24/7/365 care coordination and crisis response system.
- Conduct ongoing monitoring of contracted providers.

ODM will also contract with a single provider oversight vendor that will be responsible for investigating critical incidents as set forth in Appendix G of the ICDS Waiver. The provider oversight contract will be in place by 7/1/13. Responsibilities include: performing incident management and investigation activities for the ICDS waiver. Required Activities include: providing a secure data repository and tracking system where all ICDS plans will report their data on incidents for ICDS waiver program individuals, providing the Office of Medical Assistance staff access to the system for reporting purposes, investigating incidents as specified by the Office of Medical Assistance for ICDS participants, including abuse, neglect, and death, developing prevention plans for incidents which they investigate, and reviewing prevention plans that are developed by the ICDS Plans.

Additionally the provider oversight contractor will be responsible for monitoring provider compliance for the ICDS waiver. Required provider monitoring activities include: tracking and performing structural reviews of ODA-certified or ODM-approved providers who are providing services to individuals in the Integrated Care Delivery System waiver program and are not providers of services in the Ohio Home Care, Transitions II Aging Carve-Out, or any Ohio Department of Aging waiver program.

Provider oversight contractors must have a minimum of five years provider oversight and/or case management experience with community based services programs in the past ten years. Provider oversight conducted by the selected contractor is a comprehensive service comprised of a variety of specific tasks and activities.
including: performing incident management and investigation, operating an alerts process, managing provider non-compliance, monitoring providers including structural reviews of providers, etc.

- No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (Select One):

- Not applicable
- Applicable - Local/regional non-state agencies perform waiver operational and administrative functions.
  
  Check each that applies:

  - Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

  Specify the nature of these agencies and complete items A-5 and A-6:

  ODA and the State’s PASSPORT Administrative Agencies (PAA) perform LOC determinations and redeterminations for individuals enrolled in waivers operated by ODA pursuant to a three-party agreement with ODM. That role will be expanded such that ODA and the PAAs will also perform the LOC determinations and redeterminations for individuals enrolled in the ICDS Waiver. Additionally, in the ICDS Waiver, the PAAs will be responsible for entering pertinent waiver enrollment information into the State’s eligibility system to trigger the Medicaid eligibility determination process.

  The PAAs will have the capacity to perform the projected increase in the number of LOC determinations and redeterminations performed for the populations served by the ICDS Waiver in all of the counties served.

  ODM has in place three-party interagency agreements with ODA and the State’s 13 PASSPORT Administrative Agencies (PAAs) to perform LOC determinations and redeterminations for individuals enrolled in waivers operated by ODA. It is the State’s intention to expand that role to include the ICDS Waiver. Additionally, in the ICDS Waiver, the PAAs will be responsible for entering pertinent waiver enrollment information into the State’s eligibility system to trigger the Medicaid eligibility determination process.

  Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

  Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:
Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

The State will employ a variety of methods to oversee the performance of those entities responsible for the ICDS Waiver’s operational and administrative functions. These include:

- External Quality Review activities (e.g., participant satisfaction surveys, administrative reviews, performance improvement projects, etc.);
- Data Reporting and Analysis;
- Semi-Annual quality Briefings;
- Annual Review of Contracted Entities (site visit and desk review);
- Performance Measures; and
- Ongoing Review.

This waiver operates concurrently with the Ohio ICDS 1915(b) Waiver and is monitored consistent with the Quality Improvement Strategy described in both waivers.

Performance expectations and methods of evaluation and oversight by the State are also delineated in the contract between the ICDS plans and ODM. These contracts require that the ICDS plans report data to the State detailing various program administrative activities including, but not limited to, individual requests for services and access to care, the number of grievances and appeals, waiver enrollment and disenrollment figures, as well as certain waiver service coordination requirements such as compliance with contact schedules. Following the receipt and review of the information reported by the ICDS plans, the State may take corrective action, as needed, to assure compliance with state and federal requirements and to identify any necessary program changes.

In addition to the ICDS plans, as indicated in Appendix A,3 and A,4 the state will contract with a provider oversight contractor to perform a variety of tasks including: incident management and investigation, operating an alerts process (for incidents) and performing structural reviews of providers to monitor provider compliance with applicable conditions of participation. Ohio will also utilize the State’s twelve Area Agencies on Aging to perform level of care evaluations for individuals in the ICDS. These entities perform important quality and program integrity functions, and the state will closely monitor and assess the quality of their work.

To assess the AAAs’ performance, ODM will require that the AAAs report data to the State indicating the number of LOCs performed, the timeliness of those LOCs completed within 365 days, and the outcome of the LOCs conducted. This information will be submitted to ODM on a quarterly basis and analyzed by ODM. Should areas of noncompliance be identified, ODM will work with the AAAs to implement corrective action as needed. Additionally, through the on-going review process OMA will verify accuracy of level care determinations.

Monitoring, tracking and investigating critical incidents are essential to ensuring the health and welfare of individuals enrolled in the ICDS. As described in Appendix G, the State will utilize the provider oversight contractor in a variety of ways to monitor and investigate critical incidents as well as to evaluate the effectiveness of ICDS plans’ interventions on behalf of individuals enrolled on the waiver. ODM will be an active participant in this process and provide oversight through regular meetings with the contractor in addition to quarterly reports submitted by the contractor according to the performance measures in the Appendix G quality improvement strategy.

In addition to monitoring and investigating critical incidents, the provider oversight contractor will perform structural compliance reviews of waiver providers serving individuals enrolled in the ICDS waiver. These reviews verify provider compliance with required conditions of participation. The frequency of the reviews varies based on the type of provider and the service they furnish. Additional information is provided in Appendix C of this waiver application regarding the frequency in which a review is conducted. ODM will require the oversight contractor to report information to the State on both the frequency and outcome of those reviews. This information will be used by ODM to identify provider trends and to determine if disciplinary action is needed on an individual provider basis. The State will review, on an ongoing basis, the performance of the provider oversight contractor, against the contract standards and state requirements. Minimally, this review will entail review of quarterly reports submitted to the State in accordance with the contractor’s
contract and pursuant to the performance measure in Appendix A of this waiver. Additionally, OMA will conduct an annual review of the provider oversight contractor that will include both an on-site visit and desk reviews.

Oversight of the concurrent waivers is performed by ODM. ODM’s Bureau of Managed Care maintains a Compliance Assessment System that assures compliance with Medicaid program requirements for both the 1915(b) and (c) waivers. Identified areas of noncompliance are subject to sanctions including but not limited to corrective action plans, fines and potential termination. ICDS plans are required to implement corrective action for any program violation whether identified by the plan or by ODM.

OMA will use the EQRO, as required by federal managed care regulations, to evaluate the ICDS plan’s compliance with state and federal regulations. An Independent Assessment of the State will also be conducted in accordance with 1915(b) waiver requirements.

Lastly, ODM will also utilize the Ongoing Review to monitor compliance with waiver assurances. Through the Ongoing Review process ODM will use a standard tool that can be applied across systems to all waivers administered by OMA. For this waiver, the tool will be used to gather data to measure compliance and performance in regard to administrative authority and level of care assurances. This process includes record review and face-to-face interviews with waiver individuals. ODM selects a random sample of individuals each year, conducts reviews, and compiles the data for reporting and trend analysis. As part of this process, ODM conducts enough reviews to produce findings that can be reported with 95% confidence of being within a margin of +/- 5%.

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. Note: More than one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.
a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

(2) Number and percent of ICDS Waiver participants reviewed who had their level of care determined or redetermined within the past 12 months.

Data Source (Select one):
Record reviews, off-site
If ‘Other’ is selected, specify:
OMA Ongoing Review

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. ODM reviews reports from the ICDS plans and PAAs. The ICDS plans also provide OMA with updates on waiver quality processes and HCBS issues as they arise.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Oversight of the concurrent waivers is performed by ODM. ODM’s Bureau of Managed Care maintains a Compliance Assessment System that assures compliance with Medicaid program requirements for both the 1915 (b) and (c) waivers. ODM will compile, trend and review analyzed data gathered through the QIS processes detailed in this waiver application.

Individual remediation will occur on a case-by-case basis. Should the State, upon reviewing aggregated and analyzed data, determine that systemic deficiencies exist the State will require corrective action. Identified areas
of noncompliance are subject to sanctions including but not limited to corrective action plans, fines and potential termination. ICDS plans are required to implement corrective action for any program violation, whether identified by the plan or by ODM.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☐ No
☐ Yes
Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

<table>
<thead>
<tr>
<th>Target Group Included</th>
<th>Target SubGroup Included</th>

</tbody>
</table>

https://wms-mmdl.cms.gov/WMS/faces/protected/35/print/PrintSelector.jsp  7/24/2018
b. Additional Criteria. The State further specifies its target group(s) as follows:

To be eligible for enrollment in the ICDS Waiver, an individual must reside in one of the following ICDS counties in Ohio: Fulton, Lucas, Ottawa, Wood, Lorain, Cuyahoga, Lake, Geauga, Medina, Summit, Portage, Stark, Wayne, Trumbull, Mahoning, Columbiana, Union, Delaware, Franklin, Pickaway, Madison, Clark, Green, Montgomery, Butler, Warren, Clinton, Hamilton and Clermont.

The individual must also be determined to have a NF-based LOC (intermediate or skilled) pursuant to rule 5101:3-3-08 of the Ohio Administrative Code (OAC), and need at least one ICDS Waiver service monthly.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (select one):

- Not applicable. There is no maximum age limit
- The following transition planning procedures are employed for participants who will reach the waiver’s maximum age limit.

Specify:

Once an individual who is disabled reaches the maximum age limit in Appendix B.1.a, he or she transitions into the aged target group and continue enrollment on the ICDS waiver. As indicated in Appendix B.1.a there is no maximum age limit for the target group.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- No Cost Limit. The State does not apply an individual cost limit. Do not complete Item B-2-b or item B-2-c.
- Cost Limit in Excess of Institutional Costs. The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. Complete Items B-2-b and B-2-c.

The limit specified by the State is (select one)

- A level higher than 100% of the institutional average.

Specify the percentage:

- Other
Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.

Cost Limit Lower Than Institutional Costs. The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the State is (select one):

- The following dollar amount:
  Specify dollar amount:

  The dollar amount (select one)
  
  - Is adjusted each year that the waiver is in effect by applying the following formula:
    Specify the formula:
  
  - May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount.
  
  - The following percentage that is less than 100% of the institutional average:
    Specify percent:
  
  - Other:
    Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:
c. **Participant Safeguards.** When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant *(check each that applies)*:

- The participant is referred to another waiver that can accommodate the individual's needs.
- Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

- Other safeguard(s)

Specify:

---

**Appendix B: Participant Access and Eligibility**

**B-3: Number of Individuals Served (1 of 4)**

**a. Unduplicated Number of Participants.** The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

**Table: B-3-a**

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Unduplicated Number of Participants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>32869</td>
</tr>
<tr>
<td>Year 2</td>
<td>33409</td>
</tr>
<tr>
<td>Year 3</td>
<td>33938</td>
</tr>
<tr>
<td>Year 4</td>
<td>34621</td>
</tr>
<tr>
<td>Year 5</td>
<td>35305</td>
</tr>
</tbody>
</table>

**b. Limitation on the Number of Participants Served at Any Point in Time.** Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: *(select one)*:

- The State does not limit the number of participants that it serves at any point in time during a waiver year.
- The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

**Table: B-3-b**

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Maximum Number of Participants Served At Any Point During the Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td></td>

<tr>
<td>Year 2</td>
<td></td>
</tr>
<tr>
<td>Year 3</td>
<td></td>
</tr>
</tbody>
</table>
Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. **Reserved Waiver Capacity.** The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):

- Not applicable. The state does not reserve capacity.
- The State reserves capacity for the following purpose(s).

Purpose(s) the State reserves capacity for:

<table>
<thead>
<tr>
<th>Purposes</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Individuals Enrolled on the 1915(b) ICDS Waiver</td>
<td></td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose *(provide a title or short description to use for lookup)*:

Individuals Enrolled on the 1915(b) ICDS Waiver

Purpose *(describe)*:

The State is reserving participant capacity of the ICDS waiver for only those individuals meeting targeting and level of care criteria who are enrolled in the ICDS 1915(b) waiver and its associated ICDS plans.

Describe how the amount of reserved capacity was determined:

All slots in this waiver are reserved for members of the 1915(b) ICDS Waiver who meet the targeting criteria and level of care criteria for this 1915(c) Waiver.

The capacity that the State reserves in each waiver year is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Capacity Reserved</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>32869</td>
</tr>
<tr>
<td>Year 2</td>
<td>33409</td>
</tr>
<tr>
<td>Year 3</td>
<td>33938</td>
</tr>
<tr>
<td>Year 4</td>
<td>34621</td>
</tr>
<tr>
<td>Year 5</td>
<td>35305</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. **Scheduled Phase-In or Phase-Out.** Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):
The waiver is not subject to a phase-in or a phase-out schedule.

The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

The ICDS Waiver provides for the entrance of all eligible persons. To be eligible for enrollment in the ICDS Waiver, the individual must be enrolled in the 1915(b) waiver. The individual must also be determined to have a NF-based LOC (intermediate or skilled) pursuant to rule 5101:3-3-08 of the Ohio Administrative Code (OAC), and need at least one ICDS Waiver service monthly. No cost limits will be applied when determining eligibility for the ICDS Waiver.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. 1. State Classification. The State is a (select one):

- §1634 State
- SSI Criteria State
- 209(b) State

2. Miller Trust State.

Indicate whether the State is a Miller Trust State (select one):

- No
- Yes

b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. Check all that apply:

Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

- Low income families with children as provided in §1931 of the Act
- SSI recipients
- Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121
- Optional State supplement recipients
- Optional categorically needy aged and/or disabled individuals who have income at:
Select one:

- 100% of the Federal poverty level (FPL)
- % of FPL, which is lower than 100% of FPL.

Specify percentage:

☐ Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII) of the Act)
☑ Working individuals with disabilities who buy into Medicaid (TWWIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)
☑ Working individuals with disabilities who buy into Medicaid (TWWIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
☐ Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
☐ Medically needy in 209(b) States (42 CFR §435.330)
☐ Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
☑ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify:

42 CFR 435.210
42 CFR 435.110
42 CFR 435.116

Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed.

☐ No. The State does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
☑ Yes. The State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

☐ All individuals in the special home and community-based waiver group under 42 CFR §435.217
☑ Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

☑ A special income level equal to:

Select one:

- 300% of the SSI Federal Benefit Rate (FBR)
- A percentage of FBR, which is lower than 300% (42 CFR §435.236)

Specify percentage:

☐ A dollar amount which is lower than 300%.

Specify dollar amount:

☐ Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
☐ Medically needy without spenddown in States which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
☐ Medically needy without spend down in 209(b) States (42 CFR §435.330)
☐ Aged and disabled individuals who have income at:

Select one:

☐ 100% of FPL
☐ % of FPL, which is lower than 100%.

Specify percentage amount: [ ]

☐ Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

☑ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act.

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).

☐ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (select one):

☐ Use spousal post-eligibility rules under §1924 of the Act.
  (Complete Item B-3-b (SSI State) and Item B-5-d)

☐ Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)
  (Complete Item B-3-b (SSI State). Do not complete Item B-5-d)

☐ Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse.
  (Complete Item B-3-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.
b. Regular Post-Eligibility Treatment of Income: SSI State.

The State uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

i. Allowance for the needs of the waiver participant (select one):

○ The following standard included under the State plan

Select one:

○ SSI standard
○ Optional State supplement standard
○ Medically needy income standard
○ The special income level for institutionalized persons

(select one):

○ 300% of the SSI Federal Benefit Rate (FBR)
○ A percentage of the FBR, which is less than 300%
  
  Specify the percentage: ☐
○ A dollar amount which is less than 300%.
  
  Specify dollar amount: ☐
○ A percentage of the Federal poverty level
  
  Specify percentage: ☐
○ Other standard included under the State Plan
  
  Specify:

  ☐

○ The following dollar amount

  Specify dollar amount: ☐ If this amount changes, this item will be revised.

○ The following formula is used to determine the needs allowance:

  Specify:

  ☐

○ Other

  Specify:

  ☐

For individuals enrolled in the waiver and receiving any waiver service, except for the assisted living service, the formula for the allowance for the personal needs of the waiver participant is 65% of 300% of SSI. For individuals enrolled in the waiver and receiving the assisted living service, the standard is the current SSI benefit for the duration of time in which they receive assisted living services.

The county department of job and family services will determine patient liability. For those individuals who have a patient liability, the state will communicate to the ICDS plan the person's name and the amount of liability. Individuals enrolled on this waiver will be responsible for remitting their patient liability to their waiver providers. For individuals who have selected the Area Agency on Aging (AAA) to provide waiver services, the AAA will remit the patient liability to the state. The state will then communicate the amount of the patient liability to the ICDS plan.

service coordination, the individual will remit their patient liability amount to the AAA for collection.

The capitation rates calculated for the ICDS includes a long term services and supports (LTSS) component. When the capitation rates were developed, the LTSS long-term care component was calculated with consideration given to patient liability as a possible source of funds used to pay a portion of the services provided through the waiver.

This component of the capitation rate is available only for individuals who have been assessed to need long-term services and supports. With that requirement in place, the State can isolate the amount of the capitation rate paid to the ICDS plans that applies to an individual's LTSS services. As a result, the State is able to monitor and apply any income remaining after deductions are calculated through the post-eligibility treatment of income process towards the cost of the LTSS component of the capitation payment made to an ICDS plan.

In accordance with CMS' guidance, neither providers nor the AAAs shall collect patient liability from an individual in an amount that exceeds the LTSS component of the capitation rate certified by the State's actuary.

### ii. Allowance for the spouse only (select one):

- **Not Applicable**
- The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:

  Specify:

  [Blank]

  **Specify the amount of the allowance (select one):**

  - SSI standard
  - Optional State supplement standard
  - Medically needy income standard
  - The following dollar amount:

    Specify dollar amount: [Blank] If this amount changes, this item will be revised.

  - The amount is determined using the following formula:

    Specify:

    [Blank]

### iii. Allowance for the family (select one):

- **Not Applicable (see instructions)**
- AFDC need standard
- Medically needy income standard
- The following dollar amount:

  Specify dollar amount: [Blank] The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

  - The amount is determined using the following formula:

    Specify:

    [Blank]
iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- Not Applicable (see instructions)
  Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
- The State does not establish reasonable limits.
- The State establishes the following reasonable limits

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

- SSI standard
- Optional State supplement standard
- Medically needy income standard
The special income level for institutionalized persons
- A percentage of the Federal poverty level
  Specify percentage:  
- The following dollar amount:
  Specify dollar amount:  If this amount changes, this item will be revised
- The following formula is used to determine the needs allowance:
  Specify formula:  
  Other
  Specify:
  For all individuals except for those transitioning from the Assisted Living Waiver, the standard is 65% of 300% of SSI. For individuals transitioning from the Assisted Living Waiver, the standard is the current SSI benefit.

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.
  Select one:
  - Allowance is the same
  - Allowance is different.
  Explanation of difference:  

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:
  a. Health insurance premiums, deductibles and co-insurance charges
  b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.
  Select one:
  - Not Applicable (see instructions) Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
  - The State does not establish reasonable limits.
  - The State uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility
B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.
Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 1

ii. Frequency of services. The State requires (select one):

- The provision of waiver services at least monthly
- Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):

- Directly by the Medicaid agency
- By the operating agency specified in Appendix A
- By an entity under contract with the Medicaid agency.
Specify the entity:

- Other

Specify:

Evaluations for Level of Care

Individuals enrolling in the ICDS Waiver directly from one of Ohio’s five NF-based waivers will carry their level of care determination with them for the period it would have been effective in their previous waiver, absent a change of condition. This will also include those individuals who are newly eligible for either or both Medicare and Medicaid, are otherwise eligible for the ICDS demonstration, and are enrolled on one of the five NF waivers during their fee-for-service (FFS) period immediately preceding their enrollment on an ICDS plan.

The State will, through the interagency agreement, designate the PAAs to perform LOC determinations and redeterminations for individuals enrolled in the ICDS waiver who, prior to enrollment, did not present a need for HCBS.

The PAAs will perform both LOC determinations and redeterminations for “Community Well” individuals participating in the ICDS demonstration who experience a significant change that presents a new need for LTSS, and for current NF residents who are transitioning into the community and have a need for LTSS.

Reevaluations for Level of Care

LOC redeterminations will be performed outside of the ICDS by the PAAs for all individuals enrolled in ICDS. These redeterminations will be conducted annually or more frequently for individuals who experience a significant change in condition requiring adjustments to service plans.

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Registered Nurses (RN) and Social Workers (LSW or LISW) licensed to practice in the State of Ohio complete the initial LOC determination for waiver applicants. All RNs are licensed by the Ohio Board of Nursing and all LSWs and LISWs are licensed by the Counselor, Social Worker, Marriage and Family Therapists Board to practice in Ohio.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

As a condition of waiver eligibility, applicants must meet either the intermediate level of care (ILOC) or skilled level of care (SLOC) criteria set forth in OAC rule 5160-3-08 for individuals age 21 and older, and rule OAC 5160-3-09 for individuals through age twenty.

The ILOC criteria for individuals through age twenty is met when he or she either needs assistance with at least two age-appropriate ADLs and needs assistance with at least three age-appropriate IADLs or, needs assistance with at least two age-appropriate ADLs and needs at least one skilled nursing service at least two days per week.

The SLOC criteria for individuals through age twenty is met when long-term services and supports needs exceed the criteria for the intermediate level of care or the developmental disabilities level of care. They must have an unstable medical condition and either one skilled nursing service need at least seven days per week or one skilled rehabilitation service need at least five days per week.

The level of care for an individual through age twenty seeking ODM-administered nursing facility-based waiver services is determined through the ODM 10126 “Child Comprehensive Assessment Tool” (CCAT).

The ILOC criteria for individuals age twenty-one and older is met when long-term services and supports needs exceed the criteria for the protective level of care. The ILOC criteria includes skilled nursing service needs, skilled rehabilitation service needs, ADL assistance needs, assistance with medication self-administration, and the need for
twenty-four hour support in order to prevent harm due to a cognitive impairment and can be met in one of the following ways:

- Assistance with a minimum of at least two ADLs.
- Assistance with a minimum of at least one ADL and assistance with medication self-administration.
- A minimum of at least one skilled nursing service or skilled rehabilitation service.
- Twenty-four hour support in order to prevent harm due to a cognitive impairment.

The SLOC criteria for individuals age twenty-one and older is met when their long-term services and supports needs exceed the criteria for the intermediate level of care or the developmental disabilities level of care. They must have an unstable medical condition and either one skilled nursing service need at least seven days per week or one skilled rehabilitation service need at least five days per week.

The level of care for an adult seeking ODM-administered nursing facility-based waiver services is determined through the ODM 10125 “Adult Comprehensive Assessment Tool” (ACAT).

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):

- The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
- A different instrument is used to determine the level of care for the waiver than for institutional care under the State plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

Different instruments are used to determine the level of care for the Ohio Home Care Waiver than for institutional care under the State Plan.

There will be four new assessment tools for use in determining level of care eligibility. Each of the forms identifies the medical, developmental, behavioral, and ADL/IADL needs of the individual.

* The ODM 10127 “Adult Level of Care Questionnaire” will assess the needs of individuals 21 and older requesting Medicaid payment for a nursing facility stay.

* The ODM 10128 “Child Level of Care Questionnaire” will assess the needs of individuals through age 20 requesting Medicaid payment for a nursing facility stay.

* The ODM 10125 “Adult Comprehensive Assessment Tool” (ACAT) and the ODM 10126 “Child Comprehensive Assessment Tool” (CCAT) are comprehensive case management tools that will be used in nursing facility-based level of care waiver administration. ODM 10125 and ODM 10126 include all of the questions on the ODM 10127 and ODM 10128, respectively, but also include an evaluation of the individual’s living arrangements, family circumstances, caregiver needs, and formal/informal supports.

Individuals with HCBS needs who have enrolled in any of Ohio’s NF LOC Medicaid waivers on a FFS basis prior to ICDS enrollment will carry their LOC determination with them for the period it would have been effective in their previous waiver, absent a change of condition. Their LOC is determined using assessment tool(s) described above.

These tools will also be used to determine the LOC for individuals enrolled in the ICDS who, prior to their enrollment in the demonstration, did not have a need for HCBS services.

f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

In the ICDS waiver program, the State will accept the LOC determined for an individual entering the ICDS from an existing CMS-approved HCBS waiver for eligibility and enrollment in the ICDS waiver.

Once an individual is enrolled in the ICDS waiver, his or her LOC will be redetermined annually, per state and federal requirements, by a PAA. The PAAs will also be responsible for determining the LOC of individuals enrolled in the ICDS who, prior to their enrollment in the demonstration, did not have a need for HCBS services.
The PAAs will employ licensed RNs, LSWs or LISWs to conduct in-person interviews with each waiver applicant and/or his or her authorized representative. The LOC assessment will be completed using the ACAT or CCAT.

Once the LOC determination/redetermination is completed, the PAAs will communicate the results of the determination with the individual, ODM and the ICDS plan selected by the individual. The information gathered through this process will inform ICDS waiver service plan development. The individual is informed of his or her hearing/appeals rights in accordance with OAC Rule 5101:6 at the time the determination is made.

g. **Reevaluation Schedule.** Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule *select one*:

- Every three months
- Every six months
- **Every twelve months**
- Other schedule

Specify the other schedule:

h. **Qualifications of Individuals Who Perform Reevaluations.** Specify the qualifications of individuals who perform reevaluations *select one*:

- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- The qualifications are different.

Specify the qualifications:

i. **Procedures to Ensure Timely Reevaluations.** Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care *specify*:

Tracking of LOC due dates will occur at the ICDS plan. They will also be tracked by the PAAs for individuals enrolled on the ICDS waiver.

The PAAs will be required to submit quarterly performance reports that include timeliness data. ODM will also require, as an element of its comprehensive care management of individuals enrolled, the ICDS plan selected by the individual track LOC due dates and engage in ongoing dialogue with the PAAs and ODM to ensure the timeliness of LOC determinations/redeterminations.

ODM will review the LOC reports submitted by the PAAs and any additional information on timeliness provided by the ICDS plans. ODM does this to determine if the PAAs are achieving performance benchmarks. Should deficiencies be identified, ODM may require corrective action, or if necessary, initiate sanctions.

Timeliness of LOC determinations/redeterminations will also reviewed by ODM staff during ongoing and annual site reviews.

j. **Maintenance of Evaluation/Reevaluation Records.** Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Documentation of all LOC evaluations and reevaluations is maintained by the PAAs, as well as by the ICDS plans, in accordance with state and federal regulations.

### Appendix B: Evaluation/Reevaluation of Level of Care

**Quality Improvement: Level of Care**

*As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.*

a. **Methods for Discovery: Level of Care Assurance/Sub-assurances**
The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

   a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

(1) Number and percent of new ICDS Waiver participants who had a level of care indicating a need for institutional level of care prior to receipt of waiver services.

**Data Source (Select one):**

Reports to State Medicaid Agency on delegated Administrative functions

If ‘Other’ is selected, specify:

Data from the level of care vendor

**b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**c. Sub-assurance: The processes and instruments described in the approved waiver are applied appropriately and according to the approved description to determine participant level of care.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**

(2) The number and percent of sampled ICDS Waiver participants whose reassessment of level of care were completed with ODM-approved processes and instruments.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. ODM reviews reports from the ICDS plans and PAAs. The ICDS plans also provide ODM with updates on waiver quality processes and HCBS issues as they arise.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
   Oversight of the concurrent waivers is performed by ODM. ODM’s Office of Managed Care maintains a Compliance Assessment System that assures compliance with Medicaid program requirements for both the 1915 (b) and (c) waivers. ODM will compile, trend and review analyzed data gathered through the QIS processes detailed in this waiver application.

   Should the State, upon reviewing aggregated and analyzed data, determine that deficiencies exist, the State will require the LOC vendor to address those deficiencies. The State will require individual remediation and offer technical assistance that may include plans of correction to ensure compliance.

ii. Remediation Data Aggregation
   Remediation-related Data Aggregation and Analysis (including trend identification)

   c. Timelines
   When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

   ☐ No
   ☐ Yes
   Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

*Freedom of Choice*. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

i. informed of any feasible alternatives under the waiver; and
ii. given the choice of either institutional or home and community-based services.
a. **Procedures.** Specify the State's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

An individual participating in the State’s ICDS demonstration will receive a member handbook or evidence of coverage (EOC) from his or her selected ICDS plan at the time of enrollment. The handbook/EOC will include information about waiver services and enrollment. The individual will also receive a copy of the handbook/EOC or be provided with information about individual choice at the time of annual reassessment. The handbook/EOC details feasible alternatives that are available to the individual, including the option to receive waiver services or institutional care. It also informs the individual of his or her right to request a state hearing. An individual enrolling in the ICDS waiver must sign an agreement documenting his or her choice of waiver services in lieu of institutional services. This agreement can be made available to CMS upon request.

b. **Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

Documentation of Freedom of Choice forms is maintained by the individual’s selected ICDS plan in accordance with state and federal regulations.

---

**Appendix B: Participant Access and Eligibility**

**B-8: Access to Services by Limited English Proficiency Persons**

**Access to Services by Limited English Proficient Persons.** Specify the methods that the State uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

- Individuals with limited English proficiency will have access to language resources at the county, state and ICDS plan levels at the time of application and upon enrollment. County departments of job and family services (CDJFS) will make translators available as early as at the time of initial application for assistance; numerous ODJFS forms are available in several languages; and ODJFS contracts with an entity that offers “near-instant interpretation services” in as many as 110 different languages.

The ICDS plan must comply with ODM requirements for providing assistance to LEP members and eligible individuals. In addition, the ICDS plan must provide written translations of certain ICDS plan materials in the prevalent non-English languages of members and eligible individuals in accordance with the following:

If ODM identifies that five percent or more of the eligible individuals in the ICDS plan’s service area have a common primary language other than English, the ICDS plan must translate all ODM-approved marketing materials into the primary language of that group and make these marketing materials available to eligible individuals.

When five percent or more of an ICDS plan's members in the ICDS plan’s service area have a common primary language other than English, the ICDS plan must translate all OMA-approved member materials into the primary language of that group. The ICDS plan must monitor its membership and conduct a quarterly assessment to determine which, if any, primary language groups meet the five percent threshold. When the five percent threshold is met, the ICDS plan must report this information to ODM, in a format as requested by ODM, translate their member materials, and make these materials available to their members. ICDS plans must submit to OMA, upon request, its prevalent non-English language member analysis and the results of this analysis.

The ICDS plan must utilize a centralized database which records the special communication needs of all ICDS plan members, including those individuals enrolled on the ICDS waiver, and the provision of related services. ICDS plans shall also provide assistance to hearing-impaired, vision-impaired, Limited Reading Proficiency, and LEP members and eligible individuals pursuant to OAC rules.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
Adult Day Health Services (ADHS) are regularly scheduled services delivered at an ADHS center to individuals age eighteen or older. Services are provided in a non-institutional, community-based setting. The ADHS provider may provide waiver nursing and/or personal care services. The provider must also furnish recreational and educational activities to support individual health and independence. Providers must also furnish at least one meal, but no more than two meals, per day that meet the individual’s dietary requirements. The ADHS center may also make available skilled therapy services and transportation of the individual to and from ADHS center.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
*ADHS do not duplicate coverage provided under the State plan and EPSDT services are not duplicated*

**Service Delivery Method (check each that applies):**

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
Homemaker services consist of general household tasks (e.g., meal preparation and routine household care) provided by a qualified homemaker, when the individual regularly responsible for these activities is temporarily...
absent or unable to manage the home and care for him or herself or others in the home. Homemaker service providers shall meet such standards of education and training as are established by the State for the provision of these activities.

Homemaker service providers may also help the individual manage personal appointments, day-to-day household activities, and to ensure that the individual maintains his/her current living arrangement by acting as a travel attendant.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):

The service furnishes hands-on assistance with activities of daily living (ADLs) in the home and in the community. Tasks include: bathing, dressing, grooming, nail care, hair care, oral hygiene, shaving, deodorant application, skin care, foot care, feeding, toileting, assisting with ambulation, positioning in bed, transferring, range of motion exercises, and monitoring intake and output.

The service also furnishes hands-on assistance with instrumental activities of daily living (IADLs) in the home and in the community that are incidental to the provision of the hands-on assistance with ADLs, but may not comprise the entirety of the service. Tasks include: general homemaking activities including, but not limited to: meal preparation and cleanup, laundry, bed-making, dusting, vacuuming and waste disposal; Household chores including, but not limited to washing floors, windows and walls, tacking down loose rugs and tiles; and moving heavy items to provide safe access and exit.

The service does not include: tasks performed by a licensed health professional, including skilled or nursing care.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Personal Care Aide Services are intended to complement, not replace, similar services available under the Medicaid State Plan. They do not duplicate coverage provided under the State plan, including EPSDT services. They shall not be used in lieu of the Medicaid State Plan home health benefit when it has been determined the individual meets the eligibility criteria to receive that benefit as defined in Rule 5160-12-01 of the Administrative Code. Personal Care
Aide Services shall not be authorized as an alternative when the individual refuses to utilize Medicaid home health benefits they have been determined eligible to receive. In these instances, the CMA is responsible for assisting the individual in assessing the risks associated with their decisions and exploring options for meeting the individual's identified needs.

Personal Care Aide Services and the provider of such services must be identified on the person-centered service plan. Personal Care Aide Services do not include services performed in excess of the number of hours approved pursuant to the person-centered service plan.

If the provider cannot perform IADLs, the provider must notify ODM or the CMA in writing of the service limitations before inclusion on the individual's person-centered service plan.

*Personal Care Aide Services do not duplicate coverage provided under the State plan and EPSDT services are not duplicated.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
The service furnishes 24-hour on-site response capability, personal care, supportive services (homemaker and chore), and the coordination of the provision of three meals a day and snacks.

Nursing and skilled therapy services are incidental, rather than integral, to the provision of the assisted living service. Required nursing services include health assessment and monitoring, medication management including medication administration, and the delivery of part-time intermittent nursing and skilled nursing up to the maximum allowed in Ohio Administrative Code (OAC) Rule 3701:17-59 and 3701-17-59.1, when not available through a third party.

The scope of the service does not include 24-hour skilled care, one-on-one supervision, or the provision of items of comfort or convenience, disposable medical supplies, durable medical equipment, prescription medications or over the counter medications.

Individuals reside in single occupancy living units with full bathrooms in a setting that provides supervision and staffing to meet planned and unscheduled needs. The individual is required to pay the room and board obligation directly to the provider. The maximum room and board payment the provider may collect is established in OAC 5160-33.

Shared occupancy of a living unit is only permitted under these circumstances:
- The waiver participant requests the double occupancy at the time of the assessment AND
- There is an existing relationship between the waiver participant and the individual.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
The service is limited to one unit per calendar day.

Service Delivery Method (check each that applies):

- Participant-directed as specified in Appendix E
- Provider managed

Specify whether the service may be provided by (check each that applies):

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Choices - Home Care Attendant Service

HCBS Taxonomy:

Category 1:  Sub-Category 1:

08 Home-Based Services  08030 personal care

Category 2:  Sub-Category 2: 
Service Definition (Scope):
The Choices - Home Care Attendant Service consists of supportive activities specific to the needs of a medically stable, disabled adult, which are designed to address ADL and IADL impairments. Choices Home Care Attendant substitutes for the absence, loss, diminution or impairment of a physical or cognitive function and may include one or more of the following types of activities:

1) Personal Care including: assistance with bathing, dressing, and grooming, caring for nail, hair and oral hygiene, shaving, deodorant application, skin care with lotions and/or powders, foot care and ear care, feeding, assistance with elimination, assistance with ambulation, changing position in bed, assistance with transfers, normal range of motion, and adequate nutrition and fluid intake;

2) General Household Activities including: planning, preparation and clean-up of meals, laundry, bed making, dusting, vacuuming, shopping and other errands, replacing furnace filters, waste disposal, seasonal yard care and snow removal, and other routine household maintenance activities and other routine household chores;

3) Heavy Household Chores including: washing floors, windows, and walls, tacking down loose rugs and tiles, moving heavy items or furniture to provide safe access and egress, and other heavy household activities;

4) Assistance with money management and correspondence;

5) Escort services and transportation to enable consumers to gain access to waiver and other community services, activities, and resources. This activity is offered in addition to medical transportation available under the State Plan and does not replace it. Whenever possible, other sources will be utilized.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
This service cannot be used concurrently with personal care services.

Home Care Attendant Services do not duplicate coverage provided under the State plan and EPSDT services are not duplicated.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

Chore services include those needed to maintain a home in a clean, sanitary and safe condition. This service includes heavy household chores such as washing floors, windows and walls, tacking down loose rugs and floor tiles, moving heavy items of furniture in order to provide safe access and egress. These services are provided only when neither the participant nor anyone else in the household is capable of performing or financially providing for them, and when no other relative, caregiver, landlord, community/volunteer agency, or third party payor is capable of or responsible for their provision. In the case of rental property, the responsibility of the landlord, pursuant to a lease agreement, is examined prior to any authorization of service.

*Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:*
Service Definition (Scope):
Community Transition Services are non-recurring set-up expenses for individuals who are transitioning from an institutional setting or another provider-operated living arrangement to a living arrangement in a private residence where the person is directly responsible for his or her own living expenses. Allowable expenses are those necessary to enable a person to establish a basic household that do not constitute room and board and may include:

(a) security deposits that are required to obtain a lease on an apartment or home;

(b) essential household furnishing and moving expenses required to occupy and use a community domicile, including furniture, window coverings, food preparation items, and bed/bath linens;

(c) set-up fees or deposits for utility or service access, including telephone, electricity, heating and water;

(d) services necessary for the individual’s health and safety such as pest eradication and one-time cleaning prior to occupancy;

(e) moving expenses;

(f) necessary home accessibility adaptations “that are not the responsibility of the landlord”; and

(g) activities to arrange for and procure needed resources.

Community Transition Services are furnished only to the extent that they are reasonable and necessary as determined through the waiver service plan development process. All items and services obtained through this service must be clearly identified in the waiver service plan.

Community transition services may be available to up to 180 days prior to the individual’s discharge from an institution.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
This service is only available if the individual is unable to meet such expenses or when the services cannot be obtained from other sources.

Community Transition Services do not include monthly rental or mortgage expenses; food; regular utility charges; and/or household appliances or items that are intended for purely diversion/recreational purposes.

Individuals may use this service in lieu of, but not in addition to the community transition service available through Ohio’s Home Choice (MFP) Demonstration Program.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:
- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
The Enhanced Community Living service is provided by a designated team of nurses and direct care staff in a multi-family housing setting, and integrates the delivery of direct service interventions and health status monitoring activities. The ECL service includes eight elements:

* The establishment of measurable health goals;
• The identification of modifiable healthcare risks;

• The implementation and regular monitoring of specific interventions related to achieving the measurable health goals and modifiable healthcare risks;

• Assistance with accessing additional allied health services;

• The provision of, or arrangement for, education on self-managing chronic diseases or chronic health conditions;

• Daily wellness checks. "Daily wellness check" means a component of the service through which a direct-service staff member has face-to-face contact with the individual to observe any changes in the individual's level of functioning and determine what, if any, modifications to the day's service delivery plan are needed;

• Access to planned and intermittent assistance with the personal care service (PCS) under rule 173-39-02.11 of the Administrative Code.

The scope of personal care tasks includes assistance with ADLs (mobility, bathing, grooming, toileting, dressing, and eating) and the provision of any component of the homemaker service (HMK) under rule OAC 173-39-02.8 to assist the consumer with IADLs if the component is incidental to the care furnished or essential to the health and welfare of the consumer. The scope of homemaker tasks include assistance with meal planning, laundry, and house cleaning. Since personal care and homemaker service tasks are included in the scope of the enhanced community living service, the concurrent use by an individual of either the personal care service or the homemaker service as a distinct additional service is not permitted. The service authorization process will prevent the case manager from authorizing PCS and HMK services that are concurrent with an ECL service authorization.

• Activities to assist an individual who is returning home following a hospital or nursing facility stay.

The ECL service does not provide 24 hour on-site protective oversight, 24 hour supervision or 24 hour assistance.

Access to the Enhanced Community Living service is not contingent upon the individual’s receipt of the state plan home health service.

(2) The Enhanced Community Living (ECL) service provides the individual who resides in their own private residence in a multi-family housing setting, with on-site access throughout the day to individually-tailored supportive and health-related interventions necessary to avoid institutionalization and maintain optimal health status.

• Multi-family housing is defined as a housing site that uses a landlord-tenant rental agreement, provides a minimum of six units of housing under one roof; and receives assistance through a federally-assisted housing program (as defined under 24 C.F.R.5.100), a project-based voucher program (as defined in 24 C.F.R. 983) or a low-income housing tax credit program (that is based on Section 42 of the Internal Revenue Code). This waiver service is not furnished in facilities that are subject to Section 1616(e) of the Social Security Act.

• On-site access to the service produces increased service flexibilities for an individual by delivering the elements of the service in smaller blocks of time and more frequently throughout the day; and the scope/duration/frequency of the service delivery can be quickly modified in response to the individual’s intermittent and/or unplanned needs.

• The integration of the delivery of direct service interventions and health status monitoring activities is intended to support the transition of individuals from institutional settings and to reduce the risk for permanent institutionalization by: expanding access to services and supports delivered on an intermittent basis; empowering the individual to be an active participant in achieving his/her health care goals and reducing modifiable health risks; increasing the likelihood of timely identification of changes in health status; reducing the risks for acute exacerbation of chronic health conditions that result in hospitalization or nursing facility care; and increasing the continuity of care across sites of care.

(3) The service differs from the Medicaid state plan benefits, specifically private duty nursing and home health aide, in these areas:

• The waiver service provides interventions which focus on the prevention of deteriorating or worsening medical conditions and the management of stabilized chronic conditions; and
• The waiver service does not provide continuous (more than four hours) blocks of service to individuals.

The mechanisms to prevent duplicate billing for similar services include:

• Prior authorization requirement by the state Medicaid agency for the private duty nursing; and

• Requirement for the waiver service plan to include home health aide service in order for the service to be reimbursable.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Providers furnishing services in the ICDS waiver will be required to adhere to the following requirements as outlined in the Ohio Administrative Code.

ODA certified provider:

Compliance with OAC chapters 5160-44 and 173-39, including 173-39-02.20

Verification of Provider Qualifications

Entity Responsible for Verification:
ODA or its designee for ODA-certified providers
The ICDS plan as part of its credentialing and recredentialing processes will verify that the provider has an active Medicaid provider agreement to furnish waiver services.

**Frequency of Verification:**
ODA - Verification of provider qualifications is conducted in accordance with OAC 173-39-04

---

**Appendix C: Participant Services**

**C-1/C-3: Service Specification**

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

**Service Type:**
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**
Home Care Attendant

**HCBS Taxonomy:**

- **Category 1:**
  - **Sub-Category 1:**
    - 08 Home-Based Services
    - 08030 personal care

- **Category 2:**

- **Category 3:**

- **Category 4:**

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
Home care attendant services include all of the following tasks when provided by an unlicensed home care attendant, and authorized by a licensed physician or an RN (hereafter referred to as the authorizing health care professional):

- Assistance with the self-administration of medications in accordance with OAC rule 5160-44-27;
- The performance of certain nursing tasks in accordance with OAC rule 5160-44-27; and
- Personal care aide tasks as set forth in OAC rule 5160-46 or 173-39-02.11.
While this service includes personal care aide tasks, it is more involved because of the provision of assistance with self-administration of medication and the performance of certain nursing tasks - tasks that have, until the passage of RC 5111.88-5111.8811 (Am. Sub. H.B. 1, 128th General Assembly), and the addition of this service, had to be performed by an RN, or licensed practical nurse at the direction of an RN, as waiver nursing, private duty nursing or home health nursing services.

Home care attendants are non-agency providers (i.e., independent contractors) who bill ODM directly for reimbursement for services provided. The service doesn't require a financial management service (FMS) provider, and OSM issues the 1099 directly to the home care attendant. Individuals who receive home care attendant services do not have employer authority or budget authority, nor do they bear any liability for home care attendant services.

A home care attendant shall assist an individual with the self-administration of only the following medication: oral medications; topical medications; subcutaneous injections of routine doses of insulin; programming of a pump used to deliver routine doses of insulin; medication administered via stable, labeled gastrostomy or jejunostomy tubes using pre-programmed pumps; and doses of schedule II, III, IV and V drugs only when administered orally or topically.

A home care attendant shall not assist an individual with the performance of any of the following nursing tasks: intravenous (IV) insertion, removal or discontinuation; intramuscular injections; IV medication administration; subcutaneous injections (except for routine doses of insulin as described in the previous paragraph); programming of pumps used to deliver medications, including but not limited to epidural, subcutaneous and IV (and except for routine doses of insulin as described in the previous paragraph); insertion and initiation of infusion therapies; and central line dressing changes.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
* Individuals who receive home care attendant services do not have employer authority or budget authority, nor do they bear any liability for home care attendant services.

* Individuals cannot receive, and providers cannot bill separately for personal care aide services when personal care aide tasks are performed during a home care attendant service visit.

* A home care attendant who provides home care attendant services to an individual in accordance with the limitations set forth in Sections 5111.88 through 5111.8811 of the Revised Code, and Rule 5160-44-27 of the Administrative Code, including activities in accordance with the authorizing health care professional's authorization, is not considered to be engaging in the practice of nursing as an RN or an LPN in violation of section 4723.03 of the Revised Code (the Ohio Nurse Practice Act).

*Home Care Attendant Services do not duplicate coverage provided under the State plan and EPSDT services are not duplicated.

Service Delivery Method (check each that applies):

- Participant-directed as specified in Appendix E
- Provider managed

Specify whether the service may be provided by (check each that applies):

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

| Service Type: Other Service
| Service Name: Home Care Attendant |
ORC Sections 5111.88 to 5111.8811 and OAC Rule 5160-44. Specifically, the provider must supply ODM with evidence to its satisfaction of all of the following:

1) The home care attendant either meets the personnel qualifications specified in 42 CFR 484.4 for home health aides, or has successfully completed at least one of the following:

   * A competency evaluation program, or training and competency evaluation program approved or conducted by the Ohio Department of Health under section 3721.31 of the Revised Code;
   * A training program approved by ODM that includes training in at least all of the following and provides training equivalent to that approved or conducted by the Ohio Department of Health under section 3721.31 of the Revised Code or that meets the requirements of 42 CFR 484.36(a), basic home safety, universal precautions for the prevention of disease transmission, consumer-specific personal care aide services and the labeling, counting and storage requirements for schedule medications;

2) Prior to beginning home care attendant services, the home care attendant must have received training and instruction about how to deliver the specific home care attendant services authorized by the individual's authorizing health care professional, and/or the individual or the authorized representative in cooperation with the individual's licensed health care professional.

3) Upon request of the individual, individual's authorized representative, or the individual's authorizing health care professional, the home care attendant has performed a successful return demonstration of the home care attendant service to be provided.

4) The home care attendant has obtained a certificate of completion of a course in first aid that is not provided solely through the Internet, includes hands-on training by a certified first aid instructor, and requires the home care attendant to perform a successful return demonstration of what was learned in the course.

5) The home care attendant must secure the services of an RN, in agreement with the individual or authorized representative, and participate in a face-to-face visit every ninety days with the individual, authorized representative, and the RN for the purpose of monitoring the individual's health and welfare. During the face-to-face visit, the RN shall serve as a resource for the purpose of answering any questions the home care attendant, individual and/or authorized representative have about individual care needs, medications and other issues. The home care attendant and the RN shall document the activities of the visit in the individual's clinical record. The home care attendant shall also discuss the results of the face-to-face visit with the case manager, and the individual or authorized representative.

6) The home care attendant shall complete at least twelve hours of in-service continuing education regarding home care attendant services annually. Continuing education topics include, but are not limited to, individual health and welfare, CPR, patient rights, emergency preparedness, communication skills, aging sensitivity, developmental stages, nutrition, transfer techniques, disease-specific trainings and mental health issues.

7) The home care attendant shall not provide home care attendant services until the department receives an ODM-approved home care attendant service plan authorization form that contains all of the following:

   * Written consent from the individual or the authorized representative allowing the home care attendant to provide home care attendant services;
* Written consent from the individual's authorizing health care professional indicating that the home care attendant has demonstrated the ability to furnish the individual's specific home care attendant service to the individual. The consent must include the individual's name and address; a description of the specific nursing task or self-administration of medication that the attendant will assist with (including name, dosage and route of administration of any medications); the times/intervals when the attendant is to assist the individual; the dates on which the attendant is to begin and cease providing assistance; a list of severe adverse reactions that the attendant must report to the individual's health care professional; at least one telephone number at which the attendant can reach the individual's health care professional in an emergency for consultation after contacting emergency personnel; at least one fax number at which the attendant can reach the individual's authorizing health care professional when the schedule drugs are missing or cannot be reconciled; and instructions the attendant must follow when assisting the individual (including instructions for maintaining sterile conditions and for the storage of task-related equipment and supplies). ODM will communicate to the waiver service coordinator that the home care attendant has been authorized by the authorizing health care professional to provide home care attendant services to the individual.

ODM Providers: Compliance with OAC Chapters 5160-44, 5160-45, and 5160-46
ODA Providers: Compliance with OAC Chapters 5160-44, 173-39, including 173-39-02.24

Verification of Provider Qualifications

Entity Responsible for Verification:
ODM or its designee for ODM-approved providers

The ICDS plan as part of its credentialing and recredentialing processes will verify that the provider has an active Medicaid provider agreement to furnish waiver services. The home care attendant is not enrolled as an approved provider until the information on the ODM-approved home care attendant service plan authorization form has been verified by OMA. A copy of the form is then attached to the provider master file that is accessible to the ICDS plan.

Frequency of Verification:
ODM - Verification of Provider qualifications occurs in accordance with OAC 5160-45-06
ODA - Verification of Provider qualifications occurs in accordance with OAC 173-39-04

Home Delivered Meals

HCBS Taxonomy:

Category 1:  Sub-Category 1:
06 Home Delivered Meals  06010 home delivered meals

Category 2:  Sub-Category 2:
Service Definition (Scope):
“Home delivered meals” is a meal delivery service based on an individual’s need for assistance with activities of daily living and/or instrumental activities of daily living in order to safely prepare meals, or ensure meals are prepared to meet the individual’s dietary or specialized nutritional needs as ordered by a licensed professional within his or her scope of practice.

The service includes the preparation, packaging, and delivery of a safe and nutritious meal(s) to an individual at his or her home. This may include a single ready-to-eat meal, or multiple single-serving meals that are frozen, vacuum-packed, modified-atmosphere-packed meal, or shelf-stable. Specialized meals include, but are not limited to, specialized diets due medical conditions (i.e. reduced sodium, diabetic diet), or specialized textures, therapeutic or kosher meals.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
The service includes no more than 2 meals per day

Planned multiple meal delivery may include meals for up to seven days that are compliant with food storage and safety requirements.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Home Medical Equipment and Supplemental Adaptive and Assistive Device Services

HCBS Taxonomy:

Category 1: Sub-Category 1:
14 Equipment, Technology, and Modifications 1420 home and/or vehicle accessibility adaptations

Category 2: Sub-Category 2:
14 Equipment, Technology, and Modifications 1431 equipment and technology

Category 3: Sub-Category 3:
14 Equipment, Technology, and Modifications 1432 supplies

Category 4: Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Home Medical Equipment and Supplemental Adaptive and Assistive Device Services are medical equipment, devices and supplies, and vehicle modifications to a vehicle owned by the individual, or a family member, or someone who resides in the same household as the individual, that promote accessibility, enabling the individual to function with greater independence, avoid institutionalization, and reduce the need for human assistance. Adaptive and Assistive Devices, in particular, are contingent upon completion of and recommendations resulting from an evaluation. Some adaptive/assistive devices including, but not limited to, vehicle modifications may be provided prior to the individual's discharge from an institution into the community. In such instances, the adaptive/assistive device can be initiated up to 180 days prior to discharge, and the date of service for allowable expenses shall be the date on which the individual leaves the institution and enrolls on the waiver.

Adaptive and Assistive Devices and Medical Supplies do not include:

* Items considered by the federal Food and Drug Administration as experimental or investigational.

ODA - Verification occurs in accordance with OAC 173-39-04
ODM - Verification occurs in accordance with OAC 5160-45-06
* Funding of down payments toward the purchase or lease of any adaptive and assistive devices.

* New equipment or supplies or repair of previously approved equipment or supplies that have been damaged as a result of apparent misuse, abuse or negligence.

* New vehicle modifications or repair of previously approved modifications that have been damaged as a result of apparent misuse, abuse or negligence.

* Payment toward the purchase or lease of a vehicle except as set forth in the service definition above.

* Routine care and maintenance of vehicle modifications and devices.

* Permanent modification of leased vehicles.

* Vehicle inspection costs.

* Vehicle insurance costs.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

*Reimbursement for Home Medical Equipment and Supplemental Adaptive and Assistive Device Services shall not exceed a combined total of $10,000 within a calendar year per individual.

*The service prohibits the same type of medical equipment, supplies and devices being purchased for the same individual during the same calendar year, unless there is a documented need for ongoing medical equipment, supplies or devices as documented by a licensed health care professional, or a documented change in the individual’s medical and/or physical condition requiring the replacement.

*The service prohibits the same type of vehicle modification for the same individual within a three-year period, unless there is a documented change in the individual’s medical and/or physical condition requiring the replacement.

Home Medical Equipment and Supplemental Adaptive and Assistive Device Services do not include:

*Items considered by the federal Food and Drug Administration as experimental or investigational.

*Funding of down payments toward the purchase or lease of any supplemental adaptive and assistive device services.

*Equipment, supplies or services furnished in excess of what is approved pursuant to, and as specified on the individual's All Services Plan.

*New equipment or supplies or repair of previously approved equipment or supplies that have been damaged as a result of apparent misuse, abuse or negligence.

*New vehicle modifications or repair of previously approved modifications that have been damaged as a result of apparent misuse, abuse or negligence.

*Payment toward the purchase or lease of a vehicle except as set forth in the service definition above.

*Routine care and maintenance of vehicle modifications and devices.

*Permanent modification of leased vehicles.

*Vehicle inspection costs.

*Vehicle insurance costs.

*Services performed in excess of what is approved pursuant to, and specified on, the individual's service plan.

*Supplemental Adaptive and Assistive Device Services do not duplicate coverage provided under the State plan and EPSDT services are not duplicated.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
"Home modifications" are environmental adaptations to the private residence of an individual family that are necessary to ensure the health, welfare, and safety of the individual or that enable the individual to function with greater independence in the home. Such adaptations include the installation of ramps and grab-bars, widening of doorways, modification of bathroom or kitchen facilities, or the installation of specialized electric and plumbing systems that are necessary to accommodate the medical equipment and supplies that are necessary for the welfare of the individual. Home modifications also include service calls and the repair of previous modifications. Repairs include the cost of parts and labor.

Home modifications may be provided in advance of an individual's discharge from an institution into the community. In such instances, the modification can be initiated up to one hundred eighty days prior to discharge, and the date of service for allowable expenses shall be the date the individual leaves the institution and enrolls onto the waiver.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
Home modifications do not include new, replacement, or repair of a previously approved home modification that has been damaged as a result of apparent misuse, abuse or negligence.

Home modification services are limited to $10,000 per twelve-month calendar year.

Home modification services do not duplicate coverage provided under the State plan and EPSDT services are not duplicated.

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

This service provides individuals with a range of information and educational training and supports they need to increase their ability to live more independently. Training focuses on financial, health and home management skill-building, as well as the development of social, personal care (such as self-administering medications) and community living skills.

The service also provides one-on-one coaching that gives the individual the tools and confidence to make informed/independent choices, set/achieve short and long-term goals, manage multiple tasks, identify options and solve problems, identify/link to community resources and connect to potential job opportunities. The service can be provided one-on-one, in a group or in a classroom setting, or over the phone, and may include travel attendant activities. The independent living skills training provider is not the individual’s care manager.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Service Type: Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.
Service Title:
Personal Emergency Response System

HCBS Taxonomy:

Category 1: 14 Equipment, Technology, and Modifications
Sub-Category 1: 010 personal emergency response system (PERS)

Category 2: 
Sub-Category 2: 

Category 3: 
Sub-Category 3: 

Category 4: 
Sub-Category 4: 

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Personal Emergency Response System (ERS) are emergency intervention services composed of telecommunications equipment (ERS equipment), an emergency response center and a medium for two-way, hands-free communication between the individual and an emergency response center. Personnel at the emergency response center intervene in an emergency when the center receives an alarm signal from the ERS equipment.

ERS can meet the needs of individuals who live alone, are alone for significant parts of the day, or have no regular caregiver for extended periods of time and would otherwise require extensive routine supervision. ERS includes installation, testing and equipment rental, and monitoring fees.

ERS equipment shall include a variety of remote or other specialty activation devices from which the individual can choose in accordance with their specific needs. All ERS equipment shall have an internal battery that provides at least twenty-four hours of power without recharging and sends notification to the emergency response center when the battery's level is low. Equipment includes, but is not limited to:

- Wearable waterproof activation devices; and

- Devices that offer:
  - Voice-to-voice communication capability,
  - Visual indication of an alarm that may be appropriate if the consumer is hearing impaired, or
  - Audible indication of an alarm that may be appropriate if the consumer is visually impaired.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
PERS does not include the following:

- Equipment such as a boundary alarm, a medication dispenser, a medication reminder, or any other equipment or home medical equipment or supplies, regardless of whether such equipment is connected to the PERS equipment.

- Remote monitoring services.

- New equipment or repair of previously-approved equipment that has been damaged as a result of apparent misuse, abuse or negligence.
PERS does not duplicate coverage provided under the State plan and EPSDT services are not duplicated.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Social Work Counseling

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Category 4: Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Social work/counseling services are transitional services provided to the individual, authorized representative, caregiver and/or family member on a short-term basis to promote the individual’s physical, social and emotional
well-being. Social work/counseling services promote the development and maintenance of a stable and supportive environment for the individual.

Social work/counseling services can include crisis interventions, grief counseling and/or other social service interventions that support the individual’s health and welfare.

Social work/counseling services shall not:

* Take the place of case management services; or
* Include services provided in excess of what is approved on the individual’s services plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Service Delivery Method (check each that applies):

- [ ] Participant-directed as specified in Appendix E
- [x] Provider managed

Specify whether the service may be provided by (check each that applies):

- [ ] Legally Responsible Person
- [ ] Relative
- [ ] Legal Guardian

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

Waiver transportation services promote an individual’s full participation in the community through access to waiver services, community activities, and medical appointments as specified by the individual’s service plan when not otherwise available or funded by state plan or any other source.

The service is offered in addition to transportation service under the State Plan as defined at 42 CFR§440.170(a) (if applicable), and does not replace it. Whenever possible family, neighbors, friends or community agencies that can provide this service without charge are utilized.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Waiver transportation services do not include services performed in excess of what is approved pursuant to, and specified on, the individual's waiver service plan.

* Waiver transportation services do not duplicate coverage provided under the State plan and EPSDT services are not duplicated.

**Service Delivery Method (check each that applies):**
Participant-directed as specified in Appendix E

**Appendix C: Participant Services**

**C-1: Summary of Services Covered (2 of 2)**

b. **Provision of Case Management Services to Waiver Participants.** Indicate how case management is furnished to waiver participants (select one):

- **Not applicable** - Case management is not furnished as a distinct activity to waiver participants.
- **Applicable** - Case management is furnished as a distinct activity to waiver participants.

*Check each that applies:*

- As a waiver service defined in Appendix C-3. Do not complete item C-1-c.
- As a Medicaid State plan service under §1915(i) of the Act (HCBS as a State Plan Option). Complete item C-1-c.
- As a Medicaid State plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.
- As an administrative activity. Complete item C-1-c.

---

c. **Delivery of Case Management Services.** Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Under the 1915(b)/1915(c) concurrent waivers, the ICDS plans shall conduct all care management functions compliant with managed care treatment planning requirements at 42 CFR 438.208(c) using ICDS care managers. The ICDS plan will formulate a team to provide care management services that is led by the ICDS Plan care manager. The team may, with input from the individual and/or authorized representative, consist of the individual, authorized representative, the primary care provider, the care manager, the waiver service coordinator, as appropriate, the individual's family/caregiver/supports, and other providers based on the individual's needs. The role of the ICDS plan care manager will include, but not be limited to, the following: delineating roles and responsibilities for team members; serving as the accountable point of contact; directing all care management activities; developing, implementing and monitoring the care plan; exchanging information between team members; and organizing team meetings.

The ICDS care managers are employed by the ICDS plan and must not be employed by agencies providing direct services to the individual. The ICDS plans are responsible for ensuring that staff who are performing care management functions are operating within their professional scope of practice, are appropriate for responding to the individual’s needs, and follow the state’s licensure/credentialing requirements.
ICDS plans will be responsible for ensuring that members of the team, including staff who are directly employed by the plan or a delegated entity, who are completing care management activities are operating within their professional scope of practice, are appropriate for responding and managing to the individual’s needs, and follow the state’s licensure/credentialing requirements. ODM will not dictate minimum requirements for ICDS plan care managers whereas waiver service coordinators will be required to demonstrate at least one year of experience in working with persons with disabilities/chronic conditions and long term services and supports. Depending on the structure of the ICDS plan’s comprehensive care management program, the roles of the waiver service coordinator and the accountable care manager may be filled by the same person. In this scenario, the minimum qualifications for the waiver service coordinator will still apply. Like ICDS care managers, waiver service coordinators must not be employed by agencies providing direct services to the individual.

ODM will require that the ICDS plan conduct professional training sessions for its personnel regarding disability competency issues such as access, communication, cultural sensitivity, person-centered approaches, and independent living philosophies.

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the State’s policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- No. Criminal history and/or background investigations are not required.
- Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

Each ICDS plan must ensure through its credentialing and recredentialing processes as required by 42 CFR 438.214 that it contracts only with providers who have valid Medicaid agreements at all times. Through the Medicaid provider enrollment process, ODM verifies that all ICDS waiver providers have had criminal record checks initially and then on an on-going basis (i.e., for all agencies and all ODA-certified independent and consumer-directed providers, at least every five years or at the time of any employment with a different provider agency even if the period of employment is less than five years; and annually for all ODM-approved non-agency providers). ODM requires all new ICDS waiver service providers to meet ODM’s criminal record check requirements at the time of enrollment. Providers certified by ODA or the Ohio Department of Health (ODH) are subject to similar criminal record checks requirements as those approved by ODM. Therefore, such providers are not required to undergo an additional ODM criminal record check in order to be an ODM-approved ICDS waiver service provider.

There are two levels of background checks: background screening against relevant abuse and fraud databases (this screening process is described in detail in Appendix C-2-b of this waiver application) and criminal record checks with Ohio Bureau of Identification and Investigation (BCII). A criminal record check must be conducted by the FBI if the person does not present proof of Ohio residency during the five-year period immediately prior to the date the BCII criminal record check is requested.

If the criminal record check with BCII does find criminal convictions in the ICDS HCBS worker’s past, there are tiered exclusionary periods for disqualifying offenses during which individuals convicted of certain crimes may not be hired. These exclusionary periods apply to both agency and non-agency providers. The exclusionary periods include five, seven and ten-year bars, as well as a permanent exclusion for certain disqualifying offenses.

The processes for background checks differ between agency and non-agency providers furnishing ICDS waiver services.

Process for Non-Agency Providers: ODM requires that non-agency providers, as part of the Medicaid application process, provide a set of fingerprint impressions to BCII. If the person fails to provide fingerprint impressions upon request, they cannot be approved as a new Medicaid provider. ODM applies the results of the criminal record check against the tiered exclusionary periods. Only if the individual is eligible to be a Medicaid provider, does ODM then conduct a database screening (see C-2-b). ODM notifies the non-agency provider of the need to undergo the
background and screening rechecks annually thereafter, on or before the anniversary date of their Medicaid provider agreement. If the non-agency provider does not submit to the background checks and screening, their provider agreement will be terminated.

Process for Agency Employees: Prior to hiring a new employee, the waiver agency must screen the applicant against a list of databases (see C-2-b) for disqualifying information. If the applicant meets certain criteria based on the results of their registry screening, they will not be permitted to furnish HCBS to individuals enrolled on the ICDS waiver and a criminal record check will not be necessary.

Persons who clear the screening are required to furnish a set of fingerprint impressions and submit to a criminal record check with BCII. If the person fails to provide the agency with fingerprint impressions upon request, they cannot be employed by the agency to provide HCBS to individuals on the ICDS Waiver. The agency can conditionally employ the person on a time-limited basis pending the results of the criminal record check, however, the person is only permitted to provide services under supervision. The agency applies the results of the criminal record check against the tiered exclusionary periods. If the results indicate the person has been convicted of, or pleaded guilty to, a disqualifying offense, then employment must be terminated. The agency is responsible for ensuring that employees are subject to the database screening and criminal records recheck procedures every five years. The agency maintains documentation of the screening and records recheck for all employees. ODH reviews the records of agencies providing Medicare services and who are Joint Commission-accredited. ODM reviews agency records of agencies who do not provide Medicare services and who are not Joint Commission-accredited according to a pre-determined monitoring schedule. In addition, all ICDS plans follow NCQA-accreditation standards for recredentialing of agency providers (e.g., on-site visits of Medicare-certified home health agencies).

b. Abuse Registry Screening. Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):

- No. The State does not conduct abuse registry screening.
- Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

Pursuant to sections 173.38, 5164.342 and 5164.341 of the Ohio Revised Code, Ohio requires registry screens of provider agency applicants or employees prior to the background check being performed. They must also be performed on non-agency providers/applicants as part of the provider enrollment process. If a prospective provider, or existing agency or non-agency provider meets certain criteria based on the results of their registry screen, the person will not be permitted to furnish services to individuals enrolled on the ICDS Waiver. These databases include, but are not limited to the following:

1. The excluded parties list system maintained by the United States General Services Administration, which tracks individuals who are debarred, suspended, or otherwise excluded from participating in procurement activities under the Federal Acquisition Regulation or from participating in non-procurement activities under regulations issued under Executive Order No.12549 or under guidelines implementing Executive Order No. 12549;

2. The list of individuals and entities excluded by Medicare, Medicaid, or SCHIP and maintained by the Office of Inspector General in the United States Department of Health and Human Services;

3. The DODD abuser registry;

4. Ohio’s internet-based sex offender and child-victim offender database;

5. Ohio’s internet-based database of inmates;

6. Ohio’s state nurse aide registry;

7. Any other database, if any, specified in rules adopted by ODM or the Ohio Department of Aging.
Providers are also prohibited from furnishing waiver services if the screen reveals there are findings by the director of the Ohio Department of Health that the applicant or employee neglected, abused, or misappropriated the property of, a resident of a long-term care facility or residential care facility.

Additionally, in accordance with Section 4723 of the Ohio Revised Code, nurse providers must have current, valid and unrestricted Ohio RN or LPN licenses, and LPN supervisors must hold appropriate licensure. Dietitians, social workers, nurses and counselors cannot have any actions or sanctions pending against them by their respective licensing bodies. This is verified according to the provider qualification verification section in the service definition outlined in Appendix C.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:

- [ ] No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.
- [x] Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

i. Types of Facilities Subject to §1616(e). Complete the following table for each type of facility subject to §1616(e) of the Act:

<table>
<thead>
<tr>
<th>Facility Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>Residential Care Facilities</td>
</tr>
</tbody>
</table>

ii. Larger Facilities: In the case of residential facilities subject to §1616(e) that serve four or more individuals unrelated to the proprietor, describe how a home and community character is maintained in these settings.

Ohio defines a residential care facility (RCF) as "a home that provides either of the following: (a) accommodations for 17 or more unrelated individuals and supervision and personal care services for three or more of those individuals who are dependent on the services of others by reason of age or physical or mental impairment; (b) accommodations for three or more unrelated individuals, supervision and personal care services for at least three of those individuals who are dependent on the services of others by reason of age or physical or mental impairment, and, to at least one of those individuals the skilled nursing care." (Source: Ohio Revised Code (ORC) 3721.01)

The average size of an Ohio licensed RCF is 50-60 individuals. The RCF must offer a minimum of 100 square feet for single occupancy living units, a central dining room, living room or parlor, and a common activity area.

In addition to the RCF licensure requirements, an RCF certified to deliver the assisted living waiver service must provide a single occupancy living unit with identifiable eating and living areas and must include a full private bathroom located in the unit. The living unit must be lockable (both inside and outside) at the discretion of the waiver individual unless a physician has certified in writing that the individual is sufficiently cognitively impaired as to be a danger to self or others if given the opportunity to lock the door.

Double occupancy is not at the provider's discretion and is only allowed when requested by the waiver individual at the time of assessment and is with a person the waiver individual has an existing relationship with.

</tr>
</tbody>
</table>

When facility standards do not address one or more of the topics listed, explain why the standard is not included or is not relevant to the facility type or population. Explain how the health and welfare of participants is assured in the standard area(s) not addressed:

ODH's RCF policy set forth in OAC Rules 3701-16-01 through 3701-16-18 establish that staffing levels must be based on an individual's needs, not on a ratio of the number of individuals residing in the setting. The following requirements assure health and welfare of individuals enrolled on the ICDS waiver: 24-hour on-site staff must be awake and immediately available; a minimum of one staff member must be on duty at all times and be qualified to deliver personal care; and an additional staff person with the same qualifications must be on call.

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:

- No. The State does not make payment to legally responsible individuals for furnishing personal care or similar services.
- Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of extraordinaire care by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.

Select one:

- Self-directed
- Agency-operated

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. Select one:

- The State does not make payment to relatives/legal guardians for furnishing waiver services.
- The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.
Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

Other policy.

Specify:

Individuals may receive certain services from non-legally responsible family members in support of individual choice and control. Specifically, such persons are permitted to provide personal care services, waiver nursing, home modification, and maintenance and repair services, Choices home care attendant, and supplemental transportation services as long as they meet provider requirements for the service in question.

The waiver service coordinator, in consultation with an individual and other members of an individual's trans-disciplinary team, is responsible for determining whether it is appropriate for a legal guardian to serve as an individual's paid provider. The waiver service coordinator first determines if this provider arrangement is permissible in accordance with OAC rules governing the service to be furnished, and the guardianship requirements set forth in OAC rule 5160-44-31. The waiver service coordinator also determines whether such an arrangement is in the best interest of the individual, and whether or not it has the potential to create a conflict of interest for the legal guardian. If the legal guardian is hired to furnish services as a non-agency provider, the legal guardian will be asked to designate another person to serve as the individual's authorized representative for the purpose of directing the individual's care.

As a condition of reimbursement, the non-legally responsible family member must be identified as the provider, and have specified on the waiver services plan, the number of hours for which the provider is authorized to furnish the service to the individual. This ensures that payment is made to the non-legally responsible family member as a provider only in return for specific services rendered.

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Under its risk contract with ODM, each ICDS plan must establish policies and procedures to monitor the adequacy, accessibility and availability of its provider network to meet the needs of individuals served through the concurrent §1915(b)/ §1915(c) waivers. Each ICDS plan must analyze its provider network and demonstrate an appropriate number, mix and geographic distribution of providers, including geographic access by beneficiaries to practitioners and facilities. ODM reviews provider network adequacy against contractual provider network standards on a quarterly basis. If ODM finds any issues regarding provider access through other methods, including grievance reviews, ICDS plans are required to document a plan of assurance that access can be provided. The ICDS plan must also comply with contracting requirements in each individual's transition plan.

Qualified providers will have an opportunity to enroll as ICDS Waiver providers through ICDS plans. However, they must have an actual Medicaid provider agreement for the service they are authorized to provide. As part of credentialing, ICDS plans will be required to confirm that providers furnishing services in the ICDS Waiver have an active Medicaid provider agreement and are in good standing with ODA or ODM, as appropriate.

Providers seeking to furnish services on those waivers must meet the following criteria for approval/certification:

Any person or agency that wants to provide ICDS Waiver services must complete the waiver service provider enrollment process set forth in OAC rule 5160-45-04 and meet the provider requirements and specifications set forth in OAC rules 5160-46-04, 5160-46-04.1, for home care attendant services, as appropriate; or OAC chapter 173-39 (which includes provider conditions of participation, structural compliance reviews and program integrity (sanctioning for non-compliance) and waiver service specifications), as appropriate.

If a waiver individual prefers a particular provider who is not an approved Medicaid waiver provider, the ICDS plan selected by the individual can assist the individual and the potential provider in accessing appropriate informational
materials and forms to initiate the provider enrollment process with ODM. The prospective provider is encouraged to contact ODM to initiate the provider enrollment process.

Prospective providers are able to access information about the waiver program via the ODM website, ODM provider newsletters and other communications, and through ICDS plans’ websites.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
(6) The number and percent of existing agency providers that continue to meet certification requirements at the time of Structural Compliance Review

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. ODM reviews reports from the ICDS plans and the State’s provider oversight vendor. The ICDS plan also provides ODM with updates on waiver quality processes and HCBS issues as they arise.

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Oversight of the concurrent waivers is performed by ODM. ODM’s Office of Managed Care maintains a Compliance Assessment System that assures compliance with Medicaid program requirements for both the 1915 (b) and (c) waivers. ODM will compile, trend and review analyzed data gathered through the QIS processes detailed in this waiver application.

In an effort to ensure the continuity of care as individuals transition from fee-for-service Medicaid waivers to the ICDS waiver program, providers seeking to participate in the ICDS waiver must first be eligible to furnish services in the PASSPORT, Choices, Assisted Living, Ohio Home Care, or Transitions II Aging Carve-Out waiver programs. As a result, the ICDS plans will be responsible for verifying that prospective providers meet these criteria prior to serving individuals enrolled on the ICDS waiver.

The aforementioned waiver programs are operated by ODM and ODA. These State departments maintain robust and active provider structural review criteria to ensure HCBS waiver providers meet established conditions of participation including licensure/credentialing status.

Providers contracting with ICDS plans to furnish waiver services are subject to review by the ICDS plans. Any areas of non-compliance with plan contracting requirements or with conditions of participation are grounds for the ICDS plan to terminate their contract with the provider.

If, during a structural review performed by ODM or ODA of the provider’s fee-for-service waiver services, areas of non-compliance with conditions of participation are discovered, each department maintains processes for educating, sanctioning and terminating providers. Should such action be taken by the State, the ICDS plans will be notified of this action and the provider will be terminated from the ICDS waiver, as well. If the provider is terminated, the ICDS plan is required to transition individuals to other service providers, thus insuring their health and welfare.

ii. Remediation Data Aggregation

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Qualified Providers that are currently non-operational.

☐ No

☐ Yes

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.
Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. **Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (select one).

- **Not applicable** - The State does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- **Applicable** - The State imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (check each that applies)

- **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver. 

  * **Furnish the information specified above.**

  a) Waiver services to which the limit applies:

  - *Home Modification, Maintenance and Repair Services are limited to $10,000 per twelve-month calendar year.*

  - *Under Home Medical Equipment and Supplemental Adaptive and Assistive Device Services, reimbursement for medical equipment, supplies and vehicle modifications shall not exceed $10,000 within a calendar year per individual. The same type of medical equipment, supplies and devices cannot be approved for the same individual during the same calendar year unless there is a documented need for ongoing medical supplies or devices as documented by a licensed health care professional, or there is a documented change in the individual's medical and/or physical condition requiring the replacement.*

  - *Under Supplemental Adaptive and Assistive Device Services, the service prohibits the same type of vehicle modification for the same individual within a three-year period unless there is a documented change in the individual’s medical and/or physical condition requiring the replacement.*

  (b) **Basis of limit:** The limits that are being established for these services are set forth in the OAC. The limit on vehicle modifications is three years in order to avoid unnecessary replacement of vehicles, upgrades, etc.

  (c) **Adjustment of the limit:** Home modification, Maintenance and Repair Services and Home Medical Equipment and Supplemental Adaptive and Assistive Devices must be prior-approved by the ICDS plan. Home Medical Equipment and Supplemental Adaptive and Assistive Devices in excess of the limit can be approved by the ICDS plan when there is a documented need for ongoing medical supplies, or a documented change in the individual’s medical and/or physical condition requiring replacement.

  (d) **Provision of exceptions:** Any exceptions to either vehicle modifications and/or Home Medical Equipment and Supplemental Adaptive and Assistive Devices must be brought to ODM's attention for review and prior approval.

  (e) **Safeguards:** ICDS plans are responsible for monitoring the adequacy of services provided to individuals. Individuals can request Home Modification, Maintenance and Repair Services and/or Home Medical Equipment and Supplemental Adaptive and Assistive Device Services from their ICDS plan at any
time. The need for Home Modification, Maintenance and Repair Services must be identified by an occupational therapist or physical therapist as licensed pursuant to sections 4755.08 and 4755.44 of the Revised Code during an in-person evaluation of the site to be modified, and with the individual present. A skilled therapist may also be consulted to evaluate and recommend the most appropriate home medical equipment/adaptive and assistive device to meet the individual’s identified needs.

(f) Notification of amount: ICDS plans must notify the individual of the approval of the request for and amount of Home Modification, Maintenance and Repair Services and/or Home Medical Equipment and Adaptive and Assistive Device Services, and must update the individual's service plan accordingly.

(g) Hearing rights: ICDS plans must also notify individuals of their right to request a hearing subsequent to a denial of the individual’s request for initial or subsequent Home Modification, Maintenance and Repair Services and/or Home Medical Equipment and Supplemental Adaptive and Assistive Device Services.

☐ **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant. 
* Furnish the information specified above.

☐ **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services. 
* Furnish the information specified above.

☐ **Other Type of Limit.** The State employs another type of limit. 
* Describe the limit and furnish the information specified above.

### Appendix C: Participant Services

#### C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

*Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.*

Specific settings where individuals reside

- Individuals enrolled on this waiver reside either alone in a private residence or with families/friends in a private residence.
- Individuals enrolled in this waiver may reside in facilities subject to 1616(e) of the Social Security Act.

Specific settings where individuals receive services

- Individuals enrolled on this waiver may receive HCB services in residential and non-residential settings.
- Residential settings: The State has determined the residential settings are compliant since all of the individuals enrolled in this waiver live alone in a private residence or with families/friends in a private residence. As a function of service planning and monitoring, the waiver case manager conducts home visits, in accordance with Appendix D of the approved waiver application, to ensure individuals are residing in settings compliant with 42 CFR 441.301.(c)(4)-(5). Attachment 2 describes the remediation strategies outlined in the statewide transition plan for determining the level of compliance.

### Appendix D: Participant-Centered Planning and Service Delivery

https://wms-mmdl.cms.gov/WMS/faces/protected/35/print/PrintSelector.jsp 7/24/2018
D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:
Waiver Service Plan

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (select each that applies):

- Registered nurse, licensed to practice in the State
- Licensed practical or vocational nurse, acting within the scope of practice under State law
- Licensed physician (M.D. or D.O)
- Case Manager (qualifications specified in Appendix C-1/C-3)
- Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

☐

☐

Social Worker

Specify qualifications:

☐

☐

Other

Specify the individuals and their qualifications:

The ICDS plans will be responsible for managing and coordinating a full continuum of benefits—medical, behavioral and long term care services and supports. These benefits will be coordinated as part of the ICDS plans’ comprehensive care management program. Under the 1915(b)/1915(c) concurrent waivers, the ICDS plans, through a trans-disciplinary care management team approach, will conduct comprehensive care management activities in accordance with 42 CFR 438.208(c) and the Medicaid provider agreement. The trans-disciplinary care management team led by an ICDS care manager will, with input from the individual and/or authorized representative, consist of the individual the authorized representative, the primary care provider, the ICDS care manager, the individual’s family/caregiver/supports, the waiver service coordinator, and other providers as appropriate.

Specific responsibilities of the ICDS plan care manager will include, but not be limited to, the following: serving as the accountable point of contact for the individual; identifying and negotiating roles and responsibilities for all team members; arranging for, or conducting, the comprehensive assessment; developing, implementing and monitoring the comprehensive care plan; directing all care management activities (e.g., delegating tasks to team members, completing the care gap analysis, and structuring the in-person contacts to ensure alignment with the care plan goals/interventions).

Specific responsibilities of the waiver service coordinator (who is directly employed by the ICDS plan or is employed through a contracted delegated arrangement) will include, but not be limited to, the following: the ongoing assessment of LTSS for individuals currently receiving waiver services; the initial LTSS assessment for individuals who present a need (i.e., community well); waiver service plan development, review and updates; crisis intervention, event-based visits, provider monitoring and assisting individuals with self-directed care. The waiver service coordinator will be accountable to the ICDS plan care manager who is ultimately responsible for ensuring the appropriate development of the waiver service plan and its integration to the comprehensive plan of care.

ICDS plans will be responsible for ensuring that staff, including members of the trans-disciplinary care management team, who are performing care management activities are operating within their scope of practice, are appropriate for responding or managing the individual’s needs, and follow the state’s licensure/credentialing requirements. ODM will not dictate minimum requirements for ICDS plan care managers, however they must have the skills necessary to coordinate the full array of services required by the individual. Waiver service coordinators will be required to demonstrate at least one year of experience working with persons with disabilities/chronic conditions and LTSS. Depending on the structure of the ICDS plan's comprehensive care management program, the roles of the waiver service coordinator and the care manager may be filled by the same person. In this scenario, the minimum qualifications for the waiver service coordinator will still apply.
ODM recognizes the unique needs of this population and will require that the ICDS plan hire a Long-Term Care Services and Supports/Home-and-Community Based Services Director to ensure there is specific focus on meeting the long-term care needs of this population. In addition, ODM will require that the ICDS plans conduct professional training sessions for its personnel regarding disability competency issues, such as access, communication, cultural sensitivity, person-centered approaches, and independent living philosophies.

**Appendix D: Participant-Centered Planning and Service Delivery**

**D-1: Service Plan Development (2 of 8)**

b. **Service Plan Development Safeguards.** Select one:

- Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. **Specify:**

[Select one]

**Appendix D: Participant-Centered Planning and Service Delivery**

**D-1: Service Plan Development (3 of 8)**

c. **Supporting the Participant in Service Plan Development.** Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

Individuals may exercise choice and control over the provision of waiver services they receive as determined during the service planning process. Individuals also have choice and control over who participates in the waiver service planning process. Further, individuals may exercise this authority over the selection and direction of waiver service providers including opportunities to pursue self-direction of certain waiver services. Services and supports furnished to individuals enrolled on the waiver are both planned and implemented in accordance with each individual's needs and expressed preferences. To that end, the ICDS plan through its waiver service coordinator will ensure the following:

* Individuals and/or their authorized representatives participate in the development of the waiver service plan and select or dismiss waiver service providers. Those providers include traditional agency providers such as Medicare-certified HHAs, Joint Commission-, ACHC- and CHAP-accredited agencies, and otherwise approved waiver service providers. They also include non-traditional, non-agency providers such as RNs, LPNs at the direction of an RN, non-legal responsibility family members, other non-agency providers (including consumer-directed individual providers).

* If an individual and/or authorized representative elects to receive all or a portion of their waiver services from non-agency providers, the waiver service coordinator must assure that the consumer/representative trains the providers to meet the consumer's health care needs, and/or specifies additional training the provider must successfully complete prior to furnishing waiver services. The individual and his/her selected waiver service coordinator will establish back-up plans for when a provider(s) is unable to furnish services as scheduled. The individual and/or authorized representative will approve timesheets after waiver services have been furnished.

The ICDS plan must assure the health and welfare of the individual, and the competency of the individual and/or his/her representatives. The ICDS plan must verify that the individual and/or his/her representative can successfully demonstrate an ability to understand and communicate the individual’s health care needs, advocate on their own behalf, and report provider performance concerns to their selected ICDS managed care plan, ODM, and/or the State Long-Term Care Ombudsman. The ICDS plan will also work with the individual to assist with conflict resolution should circumstances warrant such intervention on behalf of the individual and their chosen non-agency provider.

If an individual elects to receive services from a non-agency provider or consumer-directed individual provider but the ICDS plan determines the individual or their representative cannot successfully communicate their health needs or advocate on their behalf, the ICDS plan may provide or arrange for additional training in order for the individual and/or
representative. If, following the completion of the training, the ICDS plan still cannot assure the individual’s health and welfare, the ICDS plan may require that the individual only receive services from agency providers. In the event that an individual is required to transition to an agency provider(s), the ICDS plan will work actively with the individual and/or their representative to manage the transition. Individuals will be given additional opportunities to utilize non-agency providers (including self-directed providers).

*All individuals enrolled in the ICDS waiver have the right to request a state hearing anytime they disagree with an action that has been taken by a county department of job and family services or a state agency. Individuals will also have the right to file a grievance regarding quality of care or an appeal regarding any action with the ICDS plan and attempt to settle their dispute through that administrative process. Filing a grievance does not affect their ability to request a state hearing. Individuals will have to exhaust the plan appeal process before requesting a state hearing in accordance with 42 C.F.R. 438.402.

The ICDS plan is the entity that will be accountable for waiver service plan development and monitoring.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

Under this program, all individuals enrolled in the ICDS waiver will be eligible to receive care management services that will coordinate his/her medical, behavioral, long term services and supports and social needs. The ICDS plan will use a trans-disciplinary team led by an ICDS care manager to deliver all care management activities, including the completion of the comprehensive assessment and the development, implementation and monitoring of the care plan.

The ICDS plan (through the waiver service coordinator who is either directly employed by the ICDS plan or is employed through a contracted, delegated arrangement) will be responsible for developing the waiver service plan with the individual, sharing the waiver service plan with the trans-disciplinary team for review/approval, coordinating the approved waiver services, assuring the individual’s health and welfare and adequacy of service delivery, and integrating the waiver service plan into the comprehensive care plan.

Individuals who are enrolled in the ICDS waiver program will be afforded the opportunity, as a component of the comprehensive care management furnished through the ICDS plan, to select a waiver service coordinator to facilitate and manage the delivery of waiver services authorized in the individual’s waiver service plan.

ICDS plans are required to contract with the AAAs to perform waiver service coordination for individuals age 60 and older. AAAs can also provide waiver service coordination to those under 60. Additionally, ICDS plans may contract with other entities that have experience working with people with disabilities, including, but not limited to centers for independent living and disability-oriented case management agencies, etc. ICDS plans may also perform waiver service coordination as part of comprehensive care management. Individuals age 60 and older are not obligated to receive their waiver service coordination through the AAA, nor are they required to change waiver service coordinators upon reaching age 60.

The individual’s LOC determination will be conducted by the PAAAs and his or her comprehensive assessment will be conducted by the ICDS plan’s care manager in conjunction with the individual and his or her trans-disciplinary care team (including the waiver service coordinator). The comprehensive assessment will evaluate domains such as the following: medical, behavioral, long term services and supports, functional and social needs; individual’s preferences; health history; wellness and prevention activities; etc. A single, individualized, person-centered comprehensive care plan that addresses clinical and non-clinical needs, and integrates the waiver service plan, if applicable, will be developed by the ICDS care manager with the individual and members of the team, including the waiver service coordinator, as appropriate.
The ICDS plan will assist the individual with the development of a back-up plan that provides for alternative arrangements for the delivery of services in the event that the responsible provider fails or is unable to deliver them. The back-up plan will reflect both informal (unpaid) and formal (paid) services, and will be incorporated into the individual’s comprehensive care plan.

Service Planning for Individuals Transferring from a FFS Waiver to the ICDS Waiver

If an individual was enrolled in a FFS NF-LOC Waiver prior to enrollment in an ICDS plan, the plan will honor the individual's existing service levels and providers for a pre-determined amount of time depending upon the waiver services. Waiver personal care aide, nursing, respite, Choices home care attendant, home care attendant, enhanced community living, adult day services, social work/counseling and independent living skills providers will be maintained for 365 days unless a significant change occurs or individuals express a desire to self-direct. All other waiver services will be maintained for 90 days. Prior to the conclusion of the transition period, the individual shall meet with his or her waiver service coordinator, the ICDS plan care manager, and other trans-disciplinary care management team members, as appropriate, to discuss any required changes in services or providers. If a change in provider is required, the individual will be provided information regarding the choice of new providers and an individualized transition plan describing timelines for transition to the new provider will also be developed and integrated into the care plan. The State will provide the existing waiver service plan for each individual to the enrolling ICDS plan prior to the individual's enrollment effective date.

ICDS Waiver Service Plan Approval

The waiver service plan approval process at the individual’s ICDS plan verifies that the services identified are appropriate for meeting the individual’s needs. The review and approval of the waiver service plan will be subject to the coverage and authorization of service requirements established at 42 CFR 438.210. Standard authorization decisions will not exceed 14 calendar days following receipt of the request for the service, or no later than 72 hours for cases in which the provider or the plan determines that the standard timeframe would jeopardize an individual's life or health and ability to attain, maintain or regain maximum functioning.

Once the waiver service plan is approved and services are authorized, the ICDS plan notifies the individual/legally responsible person of the approval and provides information on the services that will be provided and the start date of services. The individual/legally responsible person is given a copy of the approved waiver service plan and individual budget, including crisis plan as applicable. The waiver service plan will be signed by all waiver providers pursuant to 42 CFR 441.301 and effectuated through an implementation plan no later than December 31, 2018.

The ICDS plan will not approve a waiver service plan that exceeds the limitations in any individual service definition, for the sets of services found at C-4 (except where needed to maintain safety as outlined in C-4).

Updates/Changes to the Waiver Service Plan

The ICDS plan works with the individual and the trans-disciplinary care team to ensure that the waiver service plan is updated with current and relevant information. The waiver service plan shall be updated as appropriate based upon the individual's assessed needs or when the ICDS plan becomes aware of any relevant information that should be included in the document (e.g., change in back-up plans, etc.). This will help to assure integrity of and consistency throughout the waiver service administration process. Any updates to the waiver service plan will be provided to the ICDS plan care manager/team to ensure that applicable updates are also made to the comprehensive care plan.

In addition, the State expects that updates to the waiver service plan will be synchronized with updates to the comprehensive assessment and plan of care. The comprehensive assessment must be updated when there is a significant change in the individual's health status or needs, a significant health care event (e.g., hospital admission or transition between care settings, etc.), change in functional status, loss of a caregiver, etc. As a result, the comprehensive plan of care and the waiver service plan, as appropriate, should be updated within 14 calendar days of identifying a change in the individual's needs or circumstances.

New and existing individuals enrolled on the waiver will be informed of the process for requesting additional services if they exceed limitations, but are necessary to maintain safety, by the waiver service coordinator at the time of waiver service plan development and updates. This information will also be included in written materials via a member...
handbook provided by the ICDS plan to the individual.

ICDS Waiver Contact Schedule

The State established a minimum contact schedule for each care management stratification level to which an individual can be assigned, supporting the use of the trans-disciplinary team approach. The staffing ratio is one full-time equivalent to the number of individuals receiving care management in the specific stratification level. The minimum staffing ratios are as follows: intensive -- 1:25 to 1:50; high -- 1:51-1:75; medium -- 1:76-1:100; and low -- 1:101-1:250. Any team member's time may be used to meet this staffing ratio requirement as long as the time is spent directly on performing care management functions and can be linked directly to an individual in the assigned risk stratification level. ICDS plans will consider factors such as chronicity of medical conditions, availability of informal supports, current waiver acuity status, etc., when determining appropriate assignment of an individual to a stratification level.

Based on the stratification level assignment, ICDS plans will: develop a contact schedule with each individual based on his/her needs; document the contact schedule in the comprehensive care plan; and ensure that the contact schedule is no less frequent than what is required by the State, in the contract, for each stratification level.

Beneficiaries newly enrolled in the waiver will have a minimum contact schedule no less frequent than the contact schedule established for the High risk stratification level of care management for at least the first six months. To receive services from the waiver, the beneficiary will receive a minimum of one HCBS service monthly.

The content of the telephonic or in-person contact will be directed by the ICDS plan care manager, with input from the team, and will be linked to the goals, interventions and outcomes of the comprehensive care plan. The ICDS plan care manager, in coordination with the waiver service coordinator, will consider the waiver service plan implementation and monitoring activities that must be addressed during contacts with the individual, and will develop a contact schedule that will documented in the plan of care. It will also identify a primary point of contact for each individual. During a contact, the waiver service coordinator will review the waiver service plan to determine if services are being rendered as intended, gauge participant satisfaction, and identify and discuss changes in the individual’s health, family and environmental situations.

It is possible that that the ICDS plan may request that additional members of the team have contact with the individual depending upon the individual's identified needs, however, these efforts will be coordinated through the primary point of contact. Upon discovery of a potential significant change event, telephone contact between the care manager or waiver service coordinator and the individual must occur by the end of the next full calendar day. If it is determined through this telephone contact that a significant change occurred, a face-to-face visit must take place by the end of the third full day following discovery. Reassessment and an update of the comprehensive care plan/waiver service plan shall occur, as needed.

All team members will be responsible for documenting the content of their contacts, reporting back to the ICDS plan care manager, and integrating the information into the care plan. Any member of the team may request a planning meeting in consultation with the ICDS plan care manager.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

Strategies to mitigate risk are identified as part of an individual's comprehensive assessment with agreed upon interventions integrated into an individual's service plan. Risk is monitored on an ongoing basis through face-to-face visits and telephonic monitoring with strategies being modified as needed based on their demonstrated effectiveness.

ICDS plans must make care management supports and assistance available to individuals on a 24-hour, 7-day a week basis. The purpose is for an individual to have an ability to discuss an issue with a qualified staff person (i.e., preferably his or her care manager and/or a member of the team) who has access to the individual's care plan, is familiar with the case, understands his or her unique needs, and can determine the urgency of the issue in order to act appropriately and timely. During a plan's hours of operation, the plan may use conventional methods, such as direct access to the care management department or a transfer from the member services department to care management, to meet this requirement. However, outside of a plan's hours of operation, the plan is expected to develop a solution that allows
individuals to access care management support and assistance as described above. Within these parameters, a plan may design a strategy to meet their members' needs in this regard. Examples of methods that plans may use include, but are not limited to the following:

* Establishing one number exclusively for care management and to meet this feature of the ICDS.

* Use of a 24/7 nurse advice line as one of the "front doors" to accept and triage requests for care management; however, there must be staff who are familiar with care management processes in order to appropriately route, or respond to, individuals as needed.

Additionally, where necessary, the ICDS plan may initiate risk and safety planning via the implementation of a "Consumer Acknowledgement of Responsibility" or comparable form, or explore development of a behavior support plan by appropriate personnel.

For both provider-managed and self-directed services, the ICDS plan assists the individual with the development of back-up plans reflected in the individual’s waiver service plan. Individuals may use both informal (unpaid) and formal (paid) services as a part of their back-up plan. Agency based providers may serve as both an individual’s primary service provider or as a back-up provider. The ICDS plan will facilitate discussions with individuals to determine who will provide services in the event of a planned or unplanned absence of the primary service provider. The individual/agency providing the service will be identified on the individual’s back-up plan. The back-up plan will indicate the provider’s status as either the primary or secondary back-up provider as well as if the provider is a formal or informal support to the individual.

The ICDS plan will make certain that individuals understand that anyone they may want to pay for service provision through the waiver must be an approved provider with a valid and active Medicaid provider agreement at the time of service. To ensure service continuity, back-up plans are reviewed and updated as needed, and at a minimum, during the annual reassessment evaluation.

Additionally, the ICDS plans will have staff available to the consumer 24 hours-a-day, 365 days-a-year.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

The ICDS plan will make available to the individual, prior to enrollment, at annual reassessment, and at any time upon request, a summary of each agency, and non-agency provider available through the ICDS plan serving individuals in that region. The provider list also includes current self-directed providers who have expressed an interest being employed by additional individuals enrolled in the ICDS waiver. This information will only be provided to individuals who have expressed an interest in self-direction. The ICDS plan will be required to contract with any qualified provider who is willing to accept the specific negotiated rate chosen by an individual who is directing their own care.

Individuals enrolled in the waiver review this information with the ICDS plan’s trans-disciplinary care management team, including the waiver service coordinator, in order to make the best decision for their care needs. If the individual has questions, the ICDS plan will address them and provide any other necessary information requested. The ICDS plan will be responsible for ensuring the information provided is current by updating the document on an ongoing basis. The ICDS plan will explain the information presented to the individual by reviewing each provider type and responding to questions posed by the individual in order to support informed choice.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

Each ICDS plan approves service plans following a process approved by ODM. Service plan approval occurs locally at each ICDS plan. ODM authorizes the ICDS plan to approve services. ODM uses the EQRO to conduct audits of service plans maintained by the ICDS plans. ODM may also review the service plans during annual contract compliance
visits. ODM may revoke approval authority if it determines that the ICDS plan is not in compliance with the waiver requirements. In the case of a revocation, the plan of care approval would be carried out by the ODM designee.

Individuals can request a state hearing with ODM regarding waiver services and ODM has general authority to provide oversight of the ICDS plan’s actions regarding the waiver, which includes waiver services.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- [ ] Every three months or more frequently when necessary
- [ ] Every six months or more frequently when necessary
- [ ] Every twelve months or more frequently when necessary
- [ ] Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies):

- [ ] Medicaid agency
- [ ] Operating agency
- [ ] Case manager
- [x] Other

Specify:

Copies of the waiver service plan are maintained by the ICDS plans.

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

The ICDS Plan care manager will lead the care management team and is ultimately responsible for ensuring all care management activities are performed in order to meet the individual’s needs. As a result, the ICDS Plan care manager will ensure that the waiver service coordinator is monitoring the individual’s health and welfare and adequacy of service delivery. The ICDS plan should perform these activities and provide the required information back to the ICDS plan care manager so that the comprehensive care plan, which includes the waiver service plan, can be updated accordingly.

In this capacity, the ICDS plan will be responsible for:

* Monitoring and assuring that individuals can exercise free choice of provider from among the ICDS plan’s panel of available providers;
* Monitoring and assuring the appropriateness of service delivery and the outcomes identified on the waiver service plan;
* Monitoring and assuring that services meet the needs of the individual;
* Monitoring and assuring that back-up plans are effective;
* Assuring that methods are in place for prompt follow-up and remediation of identified problems; and
* Reporting outcomes of service delivery or unmet needs to the ICDS care manager/trans-disciplinary team.

The monitoring methods include telephone contact and in-person visits with the individual, an ongoing review of needs
and supporting documentation, and when a change in the individual’s care needs or service provision is indicated. In addition, a reassessment of LTSS needs is conducted with each individual. A contact schedule will be developed for each individual based on his/her assigned risk stratification level and should be documented in the comprehensive care plan; the contact schedule and the mode(s) of communication will be dictated by the needs of the individual. At a minimum, the ICDS plan must adhere to the contact schedule as specified by ODM for the intensive, high and medium stratification levels; contacts can range from 1 in person visit every two months to 1 in person visit every six months. Contacts (in person or telephonic) may be more frequent depending on an individual’s circumstances. An individual who is newly enrolled in the waiver will have a minimum contact schedule for the first six (6) months of waiver enrollment that is no less than the contact schedule required for the high risk stratification level. An ICDS Plan must also develop the contact schedule for individuals assigned to the low and monitoring stratification levels which will be approved by ODM.

This contact schedule ensures that a member of the ICDS care management team, such as the waiver service coordinator, is in communication with individuals enrolled in the waiver, and assists with the timely identification of unmet needs or service delivery problems. Modifications to the waiver service plan and service delivery schedule are initiated as soon as the need/issue is identified. The individual enrolled on the waiver chooses from a variety of methods to resolve the identified issues including the selection of alternate providers or direct service workers, negotiation with current providers for service modifications, adding (waiver and non-waiver) services, and changes in the level of involvement of the individual’s informal support systems.

The waiver service plan is updated to describe the intervention developed to address the issues, time frames for implementation, entities responsible for implementation and times frames to evaluate the effectiveness of the intervention in resolving the identified need or problem. The ICDS plan is responsible for monitoring and evaluating the effectiveness of services as well as individual’s satisfaction with the intervention.

ODM monitors that: services are furnished in accordance with the waiver service plan; individuals enrolled in the waiver have access to both waiver and non-waiver services identified on the waiver service plan; needs identified during the assessment are addressed on the waiver service plan; back-up plans are in place and effective; the individual is satisfied with service delivery; and there is prompt follow-up when problems are identified. ODM monitors and provides oversight through a variety of processes, including reviews performed by the EQRO, data and reports submitted by the ICDS plans, conducted by ODM of the PAA under contract with the state to conduct LOC determinations, and reviews of the ICDS plans, as applicable.

Oversight of the concurrent waivers is performed by ODM. ODM’s Office of Managed Care maintains a Compliance Assessment System that assures compliance with Medicaid program requirements for both the 1915(b) and (c) waivers. Identified areas of noncompliance are subject to progressive sanctions which may include, but are not limited to corrective action plans and potential termination, amendment or nonrenewal of the ICDS plan’s Provider Agreement. ICDS plans are required to implement corrective action for any program violation, whether identified by the ICDS plan or by ODM.

b. Monitoring Safeguards. Select one:

- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. Specify:

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances
The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants’ assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:
(3) The number and percent of waiver service plan reviewed that address individuals' personal goals.

#### b. Sub-assurance: The State monitors service plan development in accordance with its policies and procedures.

**Performance Measures**

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

#### c. Sub-assurance: Service plans are updated/revised at least annually or when warranted by changes in the waiver participant’s needs.

**Performance Measures**

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*
Performance Measure:
(5) The number and percent of sampled ICDS Waiver participants whose service plans were revised, as needed, to address changing needs.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible. The State will rely on an external quality review organization (EQRO) to gather information for several performance measures. The EQRO will be required to use a team of reviewers that minimally consists of a
registered nurse and social worker. This will be critical given that the waiver service plan reviews will be included as part of a broader review of the plan’s comprehensive care management model. The EQRO will be required to designate a project lead/director with at least five years of experience with Medicaid long term services and supports. State staff will provide orientation to the EQRO related to waiver service planning and will ensure that the EQRO has access to any operational, regulatory, and program documents related to waiver service planning. State staff will also make themselves available to serve as an ongoing resource to the EQRO. As part of the evaluation design, the State will closely work with the EQRO to ensure it understands and correctly interprets the intent of the QIS measures and will participate in mock reviews with the EQRO until there is a confidence by State staff that the EQRO is able to make appropriate assessments of plan’s compliance with each of the areas under evaluation.

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

Oversight of the concurrent waivers is performed by ODM. ODM's Office of Managed Care maintains a Compliance Assessment System that assures compliance with Medicaid program requirements for both the 1915 (b) and (c) waivers. ODM will compile, trend and review analyzed data gathered through the QIS processes detailed in this waiver application.

ODM relies on reports submitted by the State’s EQRO contractor to identify deficiencies related to service planning. ODM maintains a system for reporting and tracking to resolution findings related to service planning issues. When such findings are reported on a care planning issue, ODM notifies the ICDS plan and requires the ICDS plan to address the identified problem and report completion to the State.

ii. Remediation Data Aggregation
Remediation-related Data Aggregation and Analysis (including trend identification)

Appendix E: Participant Direction of Services
Applicability (from Application Section 3, Components of the Waiver Request):

- Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.
- No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

- Yes. The State requests that this waiver be considered for Independence Plus designation.
- No. Independence Plus designation is not requested.

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

a. Description of Participant Direction. In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver’s approach to participant direction.

Ohio currently has been approved by CMS to operate two Medicaid HCBS waivers for consumers age 60 and over that offer consumer direction opportunities. This waiver proposal will significantly expand self-direction in Ohio and will afford individuals as young as age 18 the opportunity to direct a portion of their services. The ICDS waiver will offer all enrolled individuals the chance to exercise both employer and/or budget authority over the provision of certain services.

A) The nature of the opportunities afforded to individuals:

Employer Authority – The ICDS waiver program will enable individuals to act as the employer of record and have the authority to recruit, hire, train, direct, and terminate providers furnishing personal care and/or Choices home care attendant services. Direct service workers may include friends, neighbors, and some relatives. Individuals may also choose to use agency based providers to furnish hands-on care. Individuals may have multiple direct service workers.

Budget Authority – ICDS waiver individuals may also exercise budget authority for the following services: Choices home care attendant service; alternative meals; pest control; minor home modification, maintenance and repair; and home medical equipment and supplemental adaptive and assisted devices.

Individuals will work with their waiver service coordinator to identify needed services and design their waiver service plan, which includes setting a budget for services, that both ensures the individual’s needs are safely met while providing the individual with the flexibility to implement their waiver service plan according to their preferences. As a result, individuals will be responsible for identifying and scheduling providers for the day-to-day delivery of those services identified in the waiver service plan as self-directed."

In this waiver, for participant directed services paid through the FMS, the FMS is responsible for these activities.

The FMS contractor “tracks and reports participant funds, disbursements and the balance of participant funds.

In addition, the ICDS plans through the care manager or their designee will be responsible for verifying that a provider selected to furnish HCBS meet the necessary qualification established by the state and have the appropriate agreements in place to furnish Medicaid services.

The State (with collaboration from the ICDS plan) will monitor FMS performance against the FMS entity’s contract with the State. The FMS Contractor shall collect, process, and verify timesheets of each participant employer’s workers for the authorized services as outlined in the participant’s service plan and individual budget. The FMS Contractor shall verify that the service billed and hours worked are in the approved service plan prior to making payment. The FMS
Contractor shall produce twice monthly statements for each participant employer and provide a report accounting for all payments made to individual providers. The FMS Contractor shall include in these statements and the report the name and identification number of the employer, the employer’s workers’ name and identification number, wages, taxes, and insurances paid for the current period and year-to-date compared to the amount authorized for the current period and year-to-date.

The FMS, State staff and the ICDS plan care manager or their designee, who may include the waiver service coordinator, review this information on an ongoing basis to ensure the State is monitoring the accuracy of claims paid by the FMS. Should errors be identified the parties will work collaboratively to take corrective action.

B) How the individuals take advantage of these opportunities:

ICDS waiver individuals will be provided with information about the self direction opportunities available in the waiver at the time of enrollment, assessment and reassessment. The ICDS plans operating the ICDS waiver will also include information on self-direction in literature provided to individuals, such as a member handbook/EOC that explains self-direction opportunities in the waiver program. Individuals interested in directing their services can request information from their waiver service coordinator at any time while enrolled in the ICDS waiver. Once that request has been made, the waiver service coordinator will dialogue with the individual to gauge their interest and ability to self direct their services and begin the orientation process which includes a discussion of the purpose of self-direction, the differences between the agency, non-agency and self-directed individual provider types, and the additional responsibilities of the waiver individuals who choose this option.

An individual may appoint an unpaid authorized representative to act on his or her behalf and/or to assist the individual with directing their services. For some individuals, an authorized representative may be required to meet the eligibility criteria of being capable of exercising employer authority. Spouses, parents and step-parents may not be service providers for the individual. Legal guardians and/or authorized representatives may be self-directed providers; however if the legal guardian or authorized representative does become a service provider, another person must be identified and serve in the capacity of legal guardian or authorized representative while the original legal guardian or authorized representative is delivering services.

Individuals use a financial management services (FMS) vendor (fiscal/employer agent) to provide payroll services and assist the individual with the completion of needed Federal and State employment and tax forms in addition to Worker’s Compensation taxes. Provider managed services are not paid through the FMS. The FMS will be responsible for paying consumer-directed individual providers of the personal care and Choices home care attendant services.

C) The entities that support individuals who direct their services:

Two entities serve in the primary capacity of supporting individuals in their role of directing their services: the ICDS plan under contract with the state to operate the ICDS waiver responsible for coordinating the individual’s care; and the FMS under contract with the State.

The ICDS plan either directly, or through a subcontractor, will provide information and assistance, help individuals gain knowledge of employer responsibilities, conduct an orientation on the self-directed service delivery option, and assist with the development and management of the service plan. When an individual expresses an interest in using the individual provider option, the ICDS plan or its designee provides the individual with training on the qualifications/skills of an individual-employed provider; recruitment, hiring, and training of a qualified provider; employer-related tasks, including working with the FMS; and service planning, including development of a back-up plan. Literature about self-direction shall be furnished to the individual. If the individual has identified an authorized representative to act on his or her behalf and/or assist the with directing their service, that person will attend trainings with the individual. If an authorized representative is wanted and has not been identified, the ICDS plan will train the individual on how to choose an authorized representative.

Financial management is an administrative function in Ohio. Each ICDS plan is required to have an operating agreement with the State’s FMS to obtain operational data on a timely basis for service plan monitoring. Waiver service dollars and the FMS contractual amount will flow through the ICDS plan. The selected FMS vendor holds a contract with the State to provide the services statewide. The FMS vendor furnishes individual providers with employee packets that include an employment application, the individual/ employer/ employee agreement, sample reports and the necessary Federal and State employment forms. The FMS reviews timesheets and processes the individual provider’s payroll. The FMS reports payroll errors to the individual and ICDS plan and works with them to resolve problems. The FMS also assists with the completion of required Federal, and State employment and tax forms and facilitates the payment of of
Worker's Compensation taxes.

(D) The waiver's approach to self-direction:

It is the goal of the ICDS Waiver to provide every enrolled individual with the opportunity to direct their services. The ICDS plan will work actively with individuals to determine the level of support they need to direct their services by assessing their ability to supervise the provision of services as described in the service plan.

Interested individuals will be assessed to determine their interest level in self-direction and well as identify their strengths and weaknesses. These results will help determine if the use of an authorized representative will enable the individual to be more successful. For some individuals, an authorized representative may be required to support the use of employer authority.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

b. Participant Direction Opportunities. Specify the participant direction opportunities that are available in the waiver. Select one:

- Participant: Employer Authority. As specified in Appendix E-2, Item a, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.

- Participant: Budget Authority. As specified in Appendix E-2, Item b, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.

- Both Authorities. The waiver provides for both participant direction opportunities as specified in Appendix E-2. Supports and protections are available for participants who exercise these authorities.

c. Availability of Participant Direction by Type of Living Arrangement. Check each that applies:

- Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.
- Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.
- The participant direction opportunities are available to persons in the following other living arrangements

Specify these living arrangements:

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

d. Election of Participant Direction. Election of participant direction is subject to the following policy (select one):

- Waiver is designed to support only individuals who want to direct their services.
- The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.
- The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the State. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria
When an individual has an assessed need for personal care, Choices home care attendant, home medical equipment and supplemental adaptive and assistive devices, pest control, alternative meals, or minor home modification, maintenance and repair services, and he or she expresses an interest in the self-directed service delivery method, the ICDS plan or its designee assesses the individual's ability to self-direct and assume the responsibilities of an employer or with budgeting for the delivery of services.

Individuals must demonstrate their willingness to learn about the expectations of an individual employer if self-directing the personal care or Choices home care attendant service, and/or budgeting for the delivery of the Choices home care attendant service, alternative meals, pest control, minor home modification, maintenance and repair, and the home medical equipment and supplemental adaptive and assistive devices. This information is provided by the ICDS plan and includes the following criteria:

1) Understanding methods for selecting, managing, and dismissing employees;
2) Understanding what service activities are covered;
3) Budgeting for service delivery;
4) Participation in the development, monitoring, and revision of the waiver service plan and reliable back-up plans;
5) Negotiating rates for self-directed individual providers (Choices home care attendant service only);
6) Understanding provider requirements, including assuring the criminal records check procedures are followed and;
7) Working with the FMS vendor for timely payroll processing, including written approval of provider time sheets.

Individuals may choose to have an authorized representative assist them in performing the role of the employer. The ICDS plan will provide additional skills development in specific areas as requested by the individual or as deemed necessary by the ICDS plan to assist the individual in the role of the employer. If, at any time, the individual has negative service outcomes that result from poor execution of their employer responsibilities, an authorized representative may be required to continue this service delivery method. If an authorized representative cannot be found, or if the individual does not want an authorized representative, the individual will receive provider managed services from an agency. For individuals who elect to exercise budget authority, they will receive training from their waiver service coordinator on selecting providers and budgeting to ensure their assessed needs are met.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. Information Furnished to Participant. Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

Within the context of the ICDS, the care manager or their designee, who may include the waiver service coordinator, will work directly with individuals to introduce them to the concept of self-direction. At the initial assessment by the ICDS plan, individuals seeking waiver enrollment are given an overview of the waiver program that includes the role of the ICDS plan, the care planning process, available services and a description of the self-direction options available. This description includes a discussion of the purpose of self-direction, the differences between the agency, non-agency and consumer-directed individual provider types, and the additional responsibilities of the waiver individual who chooses this option.

The assessment includes an education component in which the individual is provided detailed information about the specific requirements for legal hiring practices and complying with tax and insurance requirements. The individual is also notified that, as an employer, they must follow legal interviewing and hiring practices as well as comply with the tax and insurance responsibilities required by Federal, state, and local governments.

All waiver individuals may request additional information about self-direction from their ICDS plan at any time. In addition to the ICDS plan, individuals and family members may request individual provider service delivery method. The ICDS plan will also discuss the consumer-directed individual provider option with individuals at the annual reassessment.

When the waiver individual expresses an interest in the self-direction option, a more detailed "how to" orientation is provided by the ICDS plan. The elements of this orientation include:
1. Identification of the elements of the personal care service to be provided by the consumer-employed provider;
2. Qualifications/skills of consumer-employed provider;
3. Recruitment, hiring, and training of qualified provider;
4. Employer-related tasks, including working with the FMS; and
5. Service planning, including development of a back-up plan.

An Individual/Employer manual, separate from the ICDS plan member handbook/EOC, will include this information and also be furnished to the individual.

The care manager or their designee, who may include the waiver service coordinator, will be required to participate in an orientation presented by the ICDS plan and will be provided with other educational tools to assist individuals selecting this service delivery option. This training is offered to the care manager or their designee, who may include the waiver service coordinator, to ensure the appropriate support and assistance is available to individuals self-directing their services. In addition, among the measures jointly developed by Ohio and CMS as part of the duals demonstration, the State will also determine if staff at the ICDS plans have been trained on self-direction.

Any materials issued by the ICDS plans will be subject to ODM approval. ODM will provide guidance to the ICDS plans on the requirements for these materials to ensure individuals receive the same information on self-direction regardless of which plan the individual selects to manage their services and supports.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

f. Participant Direction by a Representative. Specify the State's policy concerning the direction of waiver services by a representative (select one):

- The State does not provide for the direction of waiver services by a representative.
- The State provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (check each that applies):

- Waiver services may be directed by a legal representative of the participant.
- Waiver services may be directed by a non-legal representative freely chosen by an adult participant.

Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

The authorized representative is an individual’s legal guardian, power of attorney, family member or any other person identified by the individual who is selected to assist with managing the delivery of self-directed services. The authorized representative, who is the individual's non-legal representative, carries out decisions made by the individual and cannot make decisions without the individual's consent. The authorized representative makes decisions in the best interest of the individual. If the individual’s best interests are not consistent with the individual’s expressed wishes, the ICDS plan will assist the individual with exploring suitable alternatives that meet the needs of the individual.

The ICDS plan will also assist individuals seeking a common ground with a legal guardian or non-legal representative by exploring appropriate and alternatives to the individual’s needs.

The authorized representative:

- Demonstrates a strong personal commitment to the individual and show knowledge about the individual's preferences;
- Is willing and able to fulfill all the employer responsibilities, on behalf of the waiver individual;
- Must be at least 18 years old and willing to submit to a criminal background check, if requested;
- Cannot be known to conduct illegal activities or have any history of physical, mental, or financial abuse; and
• Agrees to a face-to-face visit with the individual at least every pay period.

An authorized representative may not be paid for this function or be hired by the individual as a self-directed individual provider.

The individual and authorized representative sign a form that states the individual's choice of the authorized representative and describes the above listed requirements.

Legal guardians and/or authorized representative may also be self-directed providers; however if the legal guardian or authorized representative does become a service provider, another person must be identified and serve in the capacity of legal guardian or authorized representative.

Appendix E: Participant Direction of Services
E-1: Overview (6 of 13)

g. **Participant-Directed Services.** Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Appendix E: Participant Direction of Services
E-1: Overview (7 of 13)

h. **Financial Management Services.** Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one:*

- [ ] Yes. Financial Management Services are furnished through a third party entity. *(Complete item E-1-i).*

Specify whether governmental and/or private entities furnish these services. *Check each that applies:*

- [ ] Governmental entities
- [✓] Private entities
- [ ] No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used. *Do not complete Item E-1-i.*

Appendix E: Participant Direction of Services
E-1: Overview (8 of 13)
i. **Provision of Financial Management Services.** Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. *Select one:*

- [ ] FMS are covered as the waiver service specified in Appendix C-1/C-3

The waiver service entitled:

- [ ] FMS are provided as an administrative activity.
Provide the following information

i. Types of Entities: Specify the types of entities that furnish FMS and the method of procuring these services:

Entities specializing in FMS for self-directed programs and payroll services that are consistent with the applicable regulations of 45 CFR § 74 may provide this function. The State of Ohio issued a Request for Proposals to obtain a qualified vendor. The FMS vendor is paid a monthly fee per individual. Waiver service dollars and the FMS contractual amount will flow through the ICDS plan.

ii. Payment for FMS. Specify how FMS entities are compensated for the administrative activities that they perform:

The FMS vendor is paid a monthly per member per month fee amount per individual. The amount of the fee is set by an administrative contract with the State of Ohio. Waiver service dollars and the FMS contractual per member per month amount will flow through the ICDS plan.

iii. Scope of FMS. Specify the scope of the supports that FMS entities provide (check each that applies):

<table>
<thead>
<tr>
<th>Supports furnished when the participant is the employer of direct support workers:</th>
</tr>
</thead>
<tbody>
<tr>
<td>✔ Assist participant in verifying support worker citizenship status</td>
</tr>
<tr>
<td>✔ Collect and process timesheets of support workers</td>
</tr>
<tr>
<td>✔ Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance</td>
</tr>
<tr>
<td>✔ Other</td>
</tr>
</tbody>
</table>

Specify:

Provides employee training in the following areas:

- Accurate time reporting;
- Correct completion of timesheets; and
- Medicaid fraud detection and reporting.

<table>
<thead>
<tr>
<th>Supports furnished when the participant exercises budget authority:</th>
</tr>
</thead>
<tbody>
<tr>
<td>✔ Maintain a separate account for each participant's participant-directed budget</td>
</tr>
<tr>
<td>✔ Track and report participant funds, disbursements and the balance of participant funds</td>
</tr>
<tr>
<td>✔ Process and pay invoices for goods and services approved in the service plan</td>
</tr>
<tr>
<td>✔ Provide participant with periodic reports of expenditures and the status of the participant-directed budget</td>
</tr>
<tr>

<tbody>
<tr>
<td>☐ Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency</td>
</tr>
<tr>
<td>☐ Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency</td>
</tr>
<tr>
<td>✔ Provide other entities specified by the State with periodic reports of expenditures and the status of the participant-directed budget</td>
</tr>
<tr>
<td>☐ Other</td>
</tr>
</tbody>
</table>

Specify:
iv. **Oversight of FMS Entities.** Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

The FMS contract will be held by the State. A contract manager at ODM will oversee the general operation of the FMS vendor.

The Fiscal Employer Agent (FEA) task list provides the criteria to assess the FMS's contract compliance and service to waiver individuals.

The ODM contract manager will work with the ICDS plans under contract with the State to establish a process for monitoring payroll reports, track responsiveness to questions, and the correction of errors with payroll on an ongoing basis.

On an annual basis, the State will use the Vendor FEA task list to monitor the FMS's compliance with the contract.

The deliverables of the FMS contract include reporting data that will support the monitoring of FMS performance relative to the functions and responsibilities outlined in the ICDS waiver and approved OAC rules. On an annual basis, the FMS vendor will report to ODM on the performance of specific deliverables.

**Appendix E: Participant Direction of Services**

**E-1: Overview (9 of 13)**

j. **Information and Assistance in Support of Participant Direction.** In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (check each that applies):

- **Case Management Activity.** Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

  Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

- **Waiver Service Coverage.** Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

☑️ Administrative Activity. Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:

(A) The ICDS plan under contract with the State to operate the ICDS waiver in the county where the individual resides will be responsible for supporting the waiver individual in exercising employer and/or budget authority under the waiver. In the context of the ICDS program, the ICDS care manager is responsible for overseeing the development of a care plan and the delivery of services to the enrolled beneficiary. A component of this work is the development of a waiver service plan which reflects identified needs and the services that support those needs. It is during the waiver service plan development process that the individual is advised of their ability to direct certain HCBS waiver services. Should the individual choose to direct their care, both the waiver service plan and the care plan will specify that the individual has selected the self-direction option. It will be the responsibility of the plan care manager or their designee, who may include the waiver service coordinator, to furnish information and assistance in support of the individual to meet their identified goals.

The individual may contact either the ICDS care manager or their waiver service coordinator at any time to pose questions or request additional information.

The care manager or their designee, who may include the waiver service coordinator, is responsible for providing information and assistance to support the individual in the development of the waiver service plan, and educates the individual on the responsibilities and opportunities for self-directed services. For those services in the waiver in which the individual has budget authority, the care manager or their designee, who may include the waiver service coordinator, in the context of working with the individual to build his or her waiver service plan, will also work with the individual to establish the budget for services. The individual will also be supported to identify a spending plan for the individual budget which includes determining rates of pay for employees and hours of service.

(B) The information and assistance supports provided are an administrative function offered through the ICDS plan.

(C) The individual's ICDS plan is responsible for providing information and assistance to support self-direction of services. The State views these activities as an element of case management provided by the ICDS plan under treatment planning requirements per 42 CFR 438.208(c).

(D) The care manager or their designee, who may include the waiver service coordinator, supports the individual in developing a waiver service plan and assists them in exercising employer and/or budget authority. The care manager or their designee will be responsible for providing information and assistance to the individual.

Within the context of the ICDS, the care manager has ultimate responsibility for the development of a
comprehensive care plan that details all services furnished to an individual enrolled in the program. A significant element of this care plan is the waiver service plan developed by the individual’s waiver service coordinator. The individual’s ICDS plan, which includes the care manager or their designee, who may include the waiver service coordinator, is responsible for providing information and assistance to support self-direction of services. The State views these activities as an element of case management provided by the ICDS plan under treatment planning requirements per 42 CFR 438.208(c).

Supporting and increasing individuals’ understanding of the employer responsibilities includes providing information to support them with being the employer of record is a function of the care manager or their designee, who may include the waiver service coordinator. The ICDS plan’s care manager or their designeey discusses methods for hiring staff as a part of the explanation of employer responsibilities. The ICDS plan care manager or their designee also makes available information on currently certified individual providers who are willing to work with additional individuals. The information also includes guidance regarding hiring, firing, and training workers.

The ICDS plan care manager or their designee also supports the individual/authorized representative in the development of a waiver service plan including budgeting for the delivery of services for which the individual has an assessed need. The ICDS plan care manager or their designee provides in-person education with the individual/authorized representative prior to the initiation of self-directed services and the development of the waiver service plan.

(E) On at least an annual basis ODM will evaluate the plans’ performance data to determine how well individuals are being informed and assisted by their waiver service coordinator.

(F) OMA will evaluate data provided by the ICDS plans on information and assistance in support of self-direction.

Appendix E: Participant Direction of Services

E-1: Overview (10 of 13)

k. Independent Advocacy (select one).

○ No. Arrangements have not been made for independent advocacy.

○ Yes. Independent advocacy is available to participants who direct their services.

Describe the nature of this independent advocacy and how participants may access this advocacy:

The Office of the State Long-Term Care Ombudsman program (SLTCOP) is responsible for addressing complaints regarding the health, safety, welfare, and civil rights of HCBS waiver individuals, as well as the rights of nursing homes and RCF residents found in Chapter 3721.10 - 3721.17 of the Ohio Revised Code. Further, the SLTCOP investigates allegations of the action or inaction of a provider of long-term care or a representative of a provider of long-term care, government entities, or private social service agencies whose actions may adversely affect the health, safety, welfare or rights of an individual.

The waiver individual receives SLTCOP information from the ICDS plan, including contact information for the state and local programs at enrollment, annually at reassessment, and as needed.

Ohio Administrative Code 173-14-16 (A) (4) and 173-14-16 (C) respectively address timeframes for responding to inquiries and resolution. Contact with the Ombudsman does not have an effect on the timeframes for appeal rights under Medicaid.

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

l. Voluntary Termination of Participant Direction. Describe how the State accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the State assures continuity of services and participant health and welfare during the transition from participant direction:

The ICDS plan is responsible for facilitating the transition from self-directed services to provided-managed services. When a request to discontinue self-direction is received from the waiver individual, the ICDS plan:
(1) Identifies the contributing factors which led to the voluntary termination of self-direction;

(2) Determines what, if any, other changes are occurring that may impact the waiver individual's health and welfare or service needs;

(3) Reassesses the waiver individual's current needs to establish continued need for the service to be discontinued;

(4) Establishes the service authorization for the agency provider;

(5) Assists the waiver individual with the selection of an agency provider;

(6) Reviews basic parameters of provider-managed services with the waiver individual; and

(7) Coordinates the last date of self-directed service with the first date of provider-managed service;

(8) Determines the waiver individual's back-up plan is adequate, or assists with the development of an alternative, in the event that self-directed services cannot be maintained until the provider-managed service is in place;

(9) Ensures the appropriate actions are taken by the waiver individual, individual provider, and the FMS to terminate the employer-employee relationship.

The ICDS plan care manager or their designee, who may include the waiver service coordinator, will work directly with the individual to determine if termination is necessary and to complete that process. There is no time frame for the transition; however, the ICDS care manager or their designee will assure there is no disruption in services as the individual transitions from self-directed to provider managed care.

To the extent possible, it is Ohio's expectation that the ICDS care manager or their designee will make every effort, including efforts to identify an authorized representative, to avoid the need for an involuntary termination to self-direction.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the State will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

Involuntary termination of the self-direction option for the personal care service may be necessary when the waiver individual:

No longer has an assessed need for the self-directed service;

Is unable to perform the responsibilities of an employer;

Does not have a qualified authorized representative to act on his/her behalf (if needed); or

Requires assistance in order to preserve their health and welfare.

When there is no available qualified authorized representative, the waiver service coordinator will assist the waiver individual to choose a different provider type to meet the assessed needs.

Following the process outlined in E-1-l, the ICDS plan will assist the individual to obtain appropriate provider-managed services. The ICDS plan will support the individual to continue to receive self-directed services until provider managed services are in place. The ICDS plan care manager or their designee, who may include the waiver service coordinator, will work directly with the individual to determine if termination is necessary and to complete that process. There is no time frame for the transition; however, the ICDS care manager or their designee will assure there is no disruption in services as the individual transitions from self-directed to provider managed care.

The ICDS plan will ensure that the individual is receiving appropriate services and supports to transition safely back to
Individuals will be offered fair hearing rights and provided with an explanation of how to access these rights. This process is described in Appendix F of this waiver. When an appeal is filed, individuals may continue to receive services up through the final decision by the Bureau of State Hearings as long as the individual meets the appeal deadlines, the original period covered by the authorization has not expired and the individual requests continuation of the service. This policy is consistent with 42 CFR 438.420.

To the extent possible, it is Ohio's expectation that the ICDS care manager or their designee will make every effort, including efforts to identify an authorized representative, to avoid the need for an involuntary termination to self-direction.

**Appendix E: Participant Direction of Services**

**E-1: Overview (13 of 13)**

**n. Goals for Participant Direction.** In the following table, provide the State's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the State will report to CMS the number of participants who elect to direct their waiver services.

<table>

**Appendix E: Participant Direction of Services**

**E-2: Opportunities for Participant Direction (1 of 6)**

**a. Participant - Employer Authority** *Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:*

**i. Participant Employer Status.** Specify the participant's employer status under the waiver. *Select one or both:*

- **Participant/Co-Employer.** The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

- **Participant/Common Law Employer.** The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

**ii. Participant Decision Making Authority.** The participant (or the participant's representative) has decision making authority over workers who provide waiver services. *Select one or more decision making authorities that participants exercise:*

- **Recruit staff**
Refer staff to agency for hiring (co-employer)
Select staff from worker registry
 Hire staff common law employer
 Verify staff qualifications
 Obtain criminal history and/or background investigation of staff

Specify how the costs of such investigations are compensated:

The consumer-directed individual provider is responsible for the cost of obtaining a criminal records check.

Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.

Determine staff duties consistent with the service specifications in Appendix C-1/C-3.

Determine staff wages and benefits subject to State limits

Schedule staff

Orient and instruct staff in duties

Supervise staff

Evaluate staff performance

Verify time worked by staff and approve time sheets

Discharge staff (common law employer)

Discharge staff from providing services (co-employer)

Other

Specify:

Appendix E: Participant Direction of Services
E-2: Opportunities for Participant-Direction (2 of 6)

b. Participant - Budget Authority Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:

i. Participant Decision Making Authority. When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. Select one or more:

- Reallocate funds among services included in the budget
- Determine the amount paid for services within the State's established limits
- Substitute service providers
- Schedule the provision of services
- Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3
- Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3
- Identify service providers and refer for provider enrollment
- Authorize payment for waiver goods and services
- Review and approve provider invoices for services rendered
- Other

Specify:
Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

ii. Participant-Directed Budget Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

At the time of enrollment in the ICDS waiver, the individual’s ICDS plan will review the individual’s assessed needs and work with the individual to develop a self-directed service package that will safely maintain the individual at home. The individual and their ICDS plan will set their initial budget for services as if all services will be provider managed. The amount of money that is allocated for the individual to direct the delivery of his or her services is based on the estimated cost of comparable provider managed services. Based on that budgeted amount, the individual, in consultation with the care manager or their designee, which may include the waiver service coordinator, will determine how much of the budget will be used to purchase self-directed services, the number of hours that will be purchased and the number of employees that will be hired to provide the service. The care manager or their designee must adhere to the service planning requirements set forth in Appendix D-1-a of the waiver application when developing the self-directed service package. Individuals may also exercise budget authority over the alternative meals; pest control; minor home modification, maintenance and repair; and the home medical equipment and supplemental adaptive and assisted devices services by designing their service plan and prioritizing services according to their preferences. As a result, the amount spent may vary by individual, however, the care manager or their designee, who may include the waiver service coordinator, will be responsible for monitoring the implementation of the waiver service plan to ensure the needs of the individual enrolled on the waiver are consistently being met.

The individual will also establish the rate of pay for each consumer-directed individual provider and any pay differentials (early morning/late night) that will be offered. The individual must pay each worker no less than the current state minimum wage. The average pay for direct care agency and non-agency staff are shared with the individual to assist them with determining employee pay rates. The individual is educated about the correlation between wages and the amount of service hours available for purchase based on those wages.

According to the proposed transition requirements in the waiver, individuals will retain their waiver providers for up to one year and they will receive services in the same amount, scope, and duration during that time. In addition, providers will continue to be reimbursed at the rate paid prior to the individual’s enrollment in the ICDS. The maximum rates for these services are specified in the Ohio Administrative Code. Once the transition period ends, the individual will also transition to providers on the plan’s provider panel (there may not be a need to change providers unless there is an identified performance issue or at the request of the individual). The reimbursement rates paid may differ from the fee-for-service waivers as the ICDS plans are given the latitude to negotiate rates with providers as is typical for all providers in a managed care arrangement.

During the orientation process, individuals who elect to direct their services are given wage information in order to assist them with negotiating a payment rate with their employee.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

iii. Informing Participant of Budget Amount. Describe how the State informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

The ICDS plan will inform the individual of the projected cost of assessed services in their initial service plan. The ICDS plan will then work with the individual to develop the self-directed services budget.

The individual may request a reassessment if the current service plan needs change. A reassessment of need will be conducted and, if appropriate, the individual’s waiver service plan and budget will be revised to reflect the
new waiver service plan. Individuals will receive a notice of their right to request a hearing if their request for a budget adjustment is denied or the amount of the budget is reduced.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

   iv. Participant Exercise of Budget Flexibility. Select one:

   ● Modifications to the participant directed budget must be preceded by a change in the service plan.

   ● The participant has the authority to modify the services included in the participant directed budget without prior approval.

   Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

   [Blank]

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

   v. Expenditure Safeguards. Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

   The ICDS plan will, in conjunction with the FMS, monitor the individual’s monthly use of the of the Choices home care attendant service; alternative meals; pest control; minor home modification, maintenance and repair; and the home medical equipment and supplemental adaptive and assisted devices service.

   The individual will submit timesheets for consumer-directed individual providers twice a month. If the individual is in a position to overspend the service budget, the ICDS plan will contact the individual to discuss the service use and, if necessary, reassess the individual’s service needs and the waiver service plan.

   If the individual is under utilizing the budget the ICDS plan will ensure that the individual has adequate access to all services stated in waiver service plan. If under utilization continues for a quarter, reassessment of the individual’s service needs will be conducted and the waiver service plan and individual budget may be revised. The individual will be given fair hearing rights.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.
The ICDS waiver operates concurrently with a 1915(b) waiver through an ICDS plan, which is a capitated managed care delivery system. All waiver applicants/individuals are notified of their right to request a fair hearing by the ICDS plan in accordance with 42 CFR 431 Subpart E and 42 CFR 438 Subpart F.

Upon enrollment in the ICDS plan, the ICDS plan provides information about Medicaid appeal rights. Individuals with limited literacy will receive a verbal explanation of their appeal rights during the initial home visit. In addition, per 42 CFR 438.406(a), the ICDS plan will be required to give individuals any reasonable assistance in completing forms and taking other procedural steps. This includes but is not limited to, providing interpreter services and toll-free numbers that have adequate TTY/TTY and interpreter capability. Individuals enrolled will receive information, guidance and support from the ICDS plan and their waiver service coordinator regarding how to freely exercise their rights and accept personal responsibility.

Final approvals and denials for waiver participation are issued by the State. Individuals are notified of their appeal rights whenever an adverse action benefit determination is proposed. Adverse actions benefit determination includes denial or limited authorization of a requested service, including determination based on the type or level of service, requirements for medical necessity, appropriateness, setting or effectiveness of a covered benefit; reduction, suspension or termination of previously authorized services; denial in whole or in part, of payment as not covered for a service; failure to provide or authorize services in a timely manner; and failure to act within the required appeal/grievance response times.

The ICDS plan sends a written notice to the individual explaining the reason for the adverse benefit determination, instructions on how to access an appeal and a state fair hearing (and if applicable, the Medicare hearing process for Medicare covered services), the time frame for making the request, information on continuation of services during the appeal process (if applicable) and contact information for questions and concerns. The notice also contains information on the state level hearing processes as set forth in OAC Division 5101:6, and toll free numbers for the Medicaid agency and for requesting free legal assistance.

Notices of termination, suspension or reduction are mailed to the individual a minimum of 15 days before the authorized service is actually reduced, terminated or suspended, or as outlined in 42 CFR 431.211, 431.213 and 431.214 and include reasons and process for benefit to continue while under appeal. The plan must provide all reasonable assistance in filing a grievance, appeal or state hearing. Individuals must exhaust their ICDS plan’s internal appeal process before requesting a hearing with the State (and if applicable, the Medicare hearing process for Medicare covered services) in accordance with 42 CFR 438.402.

An individual or AR can appeal any decision to the ICDS plan. An authorized representative must have the member’s written consent to file an appeal on the member’s behalf.

If an ICDS plan appeal was requested, the ICDS plan sends a written notice of the reconsideration decision to the individual, along with detailed instructions on requesting a State fair hearing after plan appeal process is exhausted (or with Medicare, if applicable).

The ICDS plan gathers information on the case and schedules the appeal with an independent reviewer who had no prior involvement in making the adverse decision in accordance with 42 CFR 438.406. Appeals must be resolved as expeditiously as the individual’s health condition requires, but always within prescribed timeframes, including any expedited appeals conducted by the ICDS plans.

The individual must be notified in writing of the decision.

Notices of all adverse benefit determination, documentation of appeal decisions and the opportunity to request a fair hearing will be kept at the ICDS plan and in the individual’s case record in accordance with 42 CFR 438.3(h).

When the plan appeal process is exhausted and a state hearing is requested, the ICDS plan must provide the individual or AR with a copy of all appropriate state hearing forms, and the state hearing process will be followed in accordance with OAC Division 5101:6. Individuals must be provided with a reasonable opportunity to present evidence and allegations of fact or law, in person as well as in writing, must be allowed to examine the case file before and during the appeals process.

Each ICDS plan must develop and implement a system that includes a grievance process, an appeals process, and a process to inform individuals about accessing the state hearings system. These processes must be described in the ICDS plan’s member handbook/EOC, and must allow individuals to pursue resolution of their concerns either through the ICDS plan, the state hearing process, or both.

**Appendix F: Participant-Rights**

**Appendix F-2: Additional Dispute Resolution Process**
a. **Availability of Additional Dispute Resolution Process.** Indicate whether the State operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. **Select one:**

- No. This Appendix does not apply
- Yes. The State operates an additional dispute resolution process

b. **Description of Additional Dispute Resolution Process.** Describe the additional dispute resolution process, including: (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

The ICDS plan has an internal dispute resolution system as required by 42 CFR 438 Subpart F. The internal system encompasses both an appeal process, as described in Appendix F-1, for addressing an action and a grievance process for addressing grievances (complaints). Actions include the denial or limited authorization of a requested service, reduction, suspension or termination of a previously authorized service and failure to take action within the timeframes specified in the contract for resolving grievances and appeals.

---

### Appendix F: Participant-Rights

#### Appendix F-3: State Grievance/Complaint System

**a. Operation of Grievance/Complaint System.** **Select one:**

- No. This Appendix does not apply
- Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

**b. Operational Responsibility.** Specify the State agency that is responsible for the operation of the grievance/complaint system:

Grievances

An individual or AR can file a grievance orally or in writing at any time in accordance with 42 CFR 438.402. The ICDS plan must acknowledge receipt of the grievance and review grievances as expeditiously as the individual’s health condition requires, but no less than within prescribed timeframes. At a minimum, the ICDS plan must provide oral notification of a grievance resolution to the individual; however, the plan must issue confirmation in writing if it is unable to speak directly to the individual or if the resolution includes information that must be confirmed in writing. The individual must be informed of his or her hearing rights when grievances are not resolved according to prescribed timeframes.

Additionally, ODM maintains a Medicaid Hot Line which is a toll-free number available to anyone to lodge a complaint regarding a Medicaid-funded program or provider. The SLTCOP is responsible for addressing complaints regarding the health, safety, welfare, and civil rights of long-term care individuals, as well as violations of rights of residents of nursing homes and residential care facilities found in Chapter 3721.10 - 3721.17 of the Ohio Revised Code. Further, the SLTCOP investigates allegations of the action or inaction of a provider of long term care or a representative of a provider of long term care, government entities or private social service agencies whose actions may adversely affect the health, safety, welfare or rights of an individual.

**c. Description of System.** Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The ICDS plan is responsible for receiving, reporting, and responding to grievances received for individuals enrolled in that ICDS plan, including those supported through the ICDS waiver. Grievances are defined as any expression of dissatisfaction other than actions per 42 CFR 438 Subpart F.

ODM requires each ICDS plan to report all grievances under 42 CFR 438 Subpart F made to the ODM not less than quarterly. The submission of the ICDS plan grievance and appeal report is included in the contract between the ICDS...
Information is recorded on the customer service form and recorded in the ICDS plan grievance and appeal database for analysis. Action taken by the ICDS plan is recorded to include a summary of all issues, investigations and actions taken and the final disposition resolution. Guidelines define the resolution for types of grievances that may be made. The total number of calendar and working days from receipt to completion are also recorded.

The ICDS plan must accept and dispose of all grievances consistent with the policies and procedures and timelines in 42 CFR 438 Subpart F and approved by CMS in the ICDS contract. The ICDS plan must dispose of each grievance and provide notice, as expeditiously as the individual’s health condition requires, within State-established timeframes not to exceed 90 days from the day the ICDS plan receives the grievance.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the State operates Critical Event or Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in the waiver program. Select one:

- Yes. The State operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)
- No. This Appendix does not apply (do not complete Items b through e)

If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the State uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The State has an established system for reporting, responding to, investigation and remediation of all critical incidents. The State has identified and established case management standards for reportable incidents which do not meet the criteria for a critical incident. The State has defined the responsibilities of all incident reporters, case management entities and investigative entities. All investigative entities are required to submit incident data to ODM in a format and frequency determined by ODM.

Types of Critical incidents that must be reported

Abuse
Neglect
Exploitation
Misappropriation over $500
Unexplained Death
Theft of prescribed medication that resulted in either and EMS response, emergency room visit, or hospitalization.
Health & Welfare of the individual or others are placed at risk to due any of the following: activities that involve law enforcement intervention; activities that involve referral to child Protective services, individual’s health and welfare is in immediate and serious jeopardy, unexpected crisis in the individual’s family or environment that results in inability to ensure health and safety in the individual’s primary residence; or the individual cannot be located, is lost or wandering.
Prescribed medication issues other than theft that result in EMS response, ED visit, or hospitalization.

The following reportable events must be addressed as determined appropriate by the case management entity and shall be entered into the State’s incident management system for the purpose of tracking and trending:

Death, other than unexplained
Self-neglect or self-harm
Misappropriation under $500.
Theft of prescribed medication that did not result in EMS, ER, or hospitalization. 
Individual or family behavior/actions resulting in the creation of or adjustment to an Acknowledgement of 
Responsibility Agreement.
Health and Welfare of the individual or others at risk due to the loss of the individual’s caregiver.
Prescribed medication issues, other than theft, that do not result in EMS response, ED visit, or hospitalization.
Hospitalization that results in an adjustment to the person-centered services plan
Eviction from place of residence.

Individuals/entities that must report critical incidents and reportable events.
ODM or its designee and all waiver service providers are required to report all critical incidents.

Time frames within which critical incidents must be reported
Critical incidents must be reported upon discovery but no later than 24 hours unless bound by federal, state or local law
or professional licensure or certification requirements to report sooner.

Method of Reporting
Critical incidents may be reported by phone, in written form (email/fax), or through a web-based reporting system. The
case management entity must enter the critical incident into the State’s incident management system within one business
day of discovery

**c. Participant Training and Education.** Describe how training and/or information is provided to participants (and/or
families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including
how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities
when the participant may have experienced abuse, neglect or exploitation.

Training/Information Furnished to participants and informal caregivers
Information regarding how to prevent, identify, and report abuse, neglect and exploitation is provided to individuals
and/or their informal caregivers.

Entities Responsible for providing the training/information
The case management entity is primarily responsible for providing the training/information.

Frequency the Training/Information is Provided
At a minimum, the training/information is required to be provided at initial enrollment and at the annual re-assessment.
Information will be provided during the course of the waiver enrollment in response to participant specific
circumstances.

**d. Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that
receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such
reports, and the processes and time-frames for responding to critical events or incidents, including conducting
investigations.

Entities that Receive Critical Incident Reports
The case management entity receives the initial report of each type of critical incident listed in G-1-B and notifies ODM
within twenty-four hours of discovery of the critical incidents. The case management entity is also required to notify
ODM within twenty-four hours any significant public media event involving an individual enrolled on the waiver or a
provider serving an individual enrolled on the waiver or when an employee of the case management entity or the
investigative entity is the alleged violator.

Entities Responsible for evaluating reports and how reports are evaluated
The initial evaluation of a critical incident report is completed by the case management entity.
The evaluation includes: ensuring immediate action is taken, as applicable to the nature of the incident, to protect the
health and welfare of the individual and any other individuals who may be at risk; issuing notification to any appropriate
investigative, protective authority or regulatory, oversight or advocacy entities and notify ODM within twenty-four
hours of discovery.

Entity Responsible for conducting investigations and how investigation are conducted
Within one business day of receipt of the critical incident, the investigative entity is required to take the following
action:
• Verify the immediate action taken, as applicable to the nature of the incident, resulted in protecting the health and
welfare of the individual and any other individuals who may be at risk. If such actions were not taken, the investigative
tity must do so immediately and no later than 24 hours after discovering the need for action to protect those at risk.

• Verify the appropriate entities have been notified. If such action was not taken, the investigative entity must make the
appropriate notifications.
No later than two business days after being notified of a critical incident, the investigative entity must initiate the
investigation. The investigation will include the following:
• Conduct a review of all relevant documents as appropriate to the reported incident
• Conduct and document interviews, as appropriate to the reported incident, with anyone who may have information
relevant to the incident investigation.
• Identify, to the extent possible, any causes and contributing factors
• Determine whether or not the incident report is substantiated.
• Document all investigative activities in the State’s incident management system established by ODM.

Timeframes for conducting and completing an investigation
Unless a longer timeframe has been prior-approved by ODM, the investigative entity must conclude the investigation no
later than forty-five days after the investigative entity’s initial receipt of the incident report.

Process and timeframes for informing the participant and other relevant parties of the investigation results
The investigative entity shall provide to the individual and/or their authorized representative or legal guardian, a
summary of the investigative findings, unless such action could jeopardize the health and welfare of the individual. The
summary shall include: summary of the investigation, and identify whether or not the incident was substantiated.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the State agency (or agencies) responsible for
overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight
is conducted, and how frequently.

State Entity Responsible for overseeing the operation of the incident management system
ODM/ODA is responsible for overseeing the operation of the incident management system.

Methods for overseeing the operation of the incident management system
Oversight of the incident management system includes regular monitoring of reports generated by the system, as well as
any ad hoc pulling or review of data to track and trend incidents and reportable events to predict and prevent future
occurrences.

Frequency of Oversight Activities
At least quarterly or more often as necessary.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will
display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses
regarding seclusion appear in Appendix G-2-c.)

☐ The State does not permit or prohibits the use of restraints

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this
oversight is conducted and its frequency:

☐ The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i
and G-2-a-ii.

i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the State has established
concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical
restraints). State laws, regulations, and policies that are referenced are available to CMS upon request
through the Medicaid agency or the operating agency (if applicable).
Restraints are measures of last resort that may be used to assist in keeping an individual safe when he or she presents behaviors that are a danger to self or others. Allowable restraints include:

- Physical restraint, i.e., the use of any hands-on or physical method that to restrict the movement or function of the individual’s head, neck, torso, one or more limbs or the entire body; or
- Chemical restraint, i.e., the use of any sedative psychotropic drug exclusively to manage or control behavior; or
- Mechanical restraint, i.e., the use of any device to restrict an individual’s movement or function for any purpose other than positioning and/or alignment.

Less restrictive measures such as verbal redirection/prompting and positive reinforcement are alternative strategies to avoid or reduce the use of restraints. They will always be explored and encouraged by the ICDS plan and the individual’s trans-disciplinary care team.

Restraints may not be used as a routine programmatic intervention, for punitive purposes or for staff convenience. The only restraint that may be used in an emergency is a protective hold which is the application of body pressure to an individual for the purpose of restricting or suppressing the person’s movement.

If it is determined through the assessment and care planning processes that restraint is being considered by the individual’s trans-disciplinary care team, the ICDS plan will work with the team to promote the least restrictive/intrusive, most positive intervention culture needed to keep the individual safe. Restraints must be authorized pursuant to a behavior support plan developed by a physician, licensed psychologist, or another behavioral health treatment professional, in conjunction with the ICDS plan and the individual’s trans-disciplinary team. The behavior support plan is an addendum to the service plan. The development and implementation of this plan are covered State plan services through rehabilitation and other services and the plan will be coordinated to ensure an integrated approach to support individuals with complex behavioral challenges. Staff who are implementing restraints will be trained via a variety of methods including, but not limited to, training directly from the entity that is writing the plan.

When a plan for restraint is being developed, the ICDS plan must assure that the following elements are addressed:

- Agreement from the individual's trans-disciplinary team that the use of restraint is appropriate.
- Promotion of the least restrictive/intrusive intervention, and the most positive intervention culture needed to keep the individual safe.
- Inclusion and requirement of the use of preventive and/or alternative and non-aversive measures to assure the safety and well-being of the individual.
- Verification of authorization of the use of restraint by the authorizing entity.
- Identification of an oversight entity responsible for ensuring that staff are appropriately trained regarding implementation of the behavior plan, including use of the restraint, as well as for ongoing monitoring of the use of restraint. The oversight entity can include a parent/guardian or authorized representative or a behavioral health provider. However, the person implementing the restraint cannot be the person responsible for monitoring the use of the restraint.
- Existence of a plan to assure, and identification of the party responsible for, training the staff who implement restraint.
- Documentation of the planned use of restraint in the individual's waiver service plan and communication record.
- Development and plan for submission of tracking logs related to the use of restraint.

If a protective hold, or unauthorized restraint is utilized, direct care staff must report the incident and follow appropriate reporting procedures. The provider must contact the ICDS plan and the ICDS plan must contact the individual and his/her legal representative within 24 hours of receiving the incident report. Changes to the service plan or living situation may be considered to support the person’s safety and well-being. Follow-up visits in response to the incident report and to complaints by the individual and his/her legal representative will be conducted and include questions about any actions taken by the service provider that may qualify as unauthorized use or misapplication of physical restraints.

Individuals who are also receiving services through a county board of developmental disabilities are eligible to access services through a behavior support plan. This includes the county board’s oversight committees and processes. ICDS plans are expected to collaborate with county board staff to access this service on
behalf of the individual. ICDS plans should request to be added specifically to the list of those who receive status reports for individuals with an aversive plan, which would include those plans with restraint.

**ii. State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

The ICDS plan reports data to ODM on a quarterly basis regarding such things as the number of individuals for whom restraints are used; and authorizing entity.

The ICDS plan will identify any unauthorized or inappropriate use of restraints and report case-specific information through the incident management system operated by the investigative entity contractor. The investigative entity contractor will report this data to ODM.

Data is analyzed by both the ICDS plan and ODM, with appropriate follow-up as needed regarding identified trends and patterns to support improvement strategies. Follow-up includes, but is not limited to: additional ODM or ICDS plan training of ICDS plan or provider staff, and/or changes in protocols and/or rules. Through this analysis and the incident management system, if case-specific concerns are noted, follow-up will occur with the authorizing entity and the individual's team.

Any significant injuries which result from employment of a restraint must be carefully analyzed and immediately reported to ODM and the ICDS plan in accordance with critical incident reporting requirements.

In addition, the ICDS Plan and an oversight entity (e.g., a parent/guardian or authorized representative or a behavioral health provider) will help to ensure that staff is appropriately trained and that restraint is used safely and appropriately. The waiver service coordinator must communicate with the ICDS care manager and verify documentation of the use of restraints in the comprehensive care plan, waiver service plan, and communication record.

**Appendix G: Participant Safeguards**

**Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)**

**b. Use of Restrictive Interventions.** *(Select one):*

- The State does not permit or prohibits the use of restrictive interventions

  Specify the State agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

- The use of restrictive interventions is permitted during the course of the delivery of waiver services

  Complete Items G-2-b-i and G-2-b-ii.

  **i. Safeguards Concerning the Use of Restrictive Interventions.** Specify the safeguards that the State has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

  Restrictive interventions are measures of last resort that may be used to assist in keeping an individual safe when he or she presents behaviors that are a danger to self or others. Less restrictive measures such as verbal redirection/prompting and positive reinforcement are alternative strategies to avoid or reduce the use of restrictive interventions. They will always be explored and encouraged by the ICDS plan and the individual’s trans-disciplinary care team.

  Restrictive interventions may be appropriate to address issues such as wandering in unsafe environments, risk of ingesting unsafe or unhealthy items or failing to complete necessary medical/personal care tasks.
Interventions may include, but are not limited to manipulation of the environment or denying access to a wanted item or activity until completion of a certain task. Restrictive intervention may not be used as a routine programmatic intervention, for punitive purposes or for staff convenience.

Time away is a restrictive intervention during which the individual is directed away from a location or an activity using verbal prompting, only to address a specific behavior. The individual is able to return to the location or activity at his/her choosing. Time away shall never include the use of a physical prompt or an escort. Time away is considered a restrictive intervention as long as the intervention does not meet the definition of seclusion/time-out. The use of any physical prompt or required timeline for re-engaging in an activity shall elevate the restrictive intervention to "seclusion."

If it is determined through the assessment and care planning processes that restrictive intervention is being considered by the individual’s trans-disciplinary care team, the ICDS plan will work with the team to promote the least restrictive/intrusive, most positive intervention culture needed to keep the individual safe. Restrictive interventions must be authorized pursuant to a behavior support plan developed by a physician, licensed psychologist, or another behavioral health treatment professional, in conjunction with the ICDS plan and the individual’s trans-disciplinary team. Staff who are implementing restrictive intervention will be trained via a variety of methods including, but not limited to, training directly from the entity that is writing the plan.

When a plan for restrictive intervention is being developed, the ICDS plan must assure that the following elements are addressed:

- Agreement from the individual's trans-disciplinary team that the use of restrictive interventions is appropriate.
- Promotion of the least restrictive/intrusive intervention, and the most positive intervention culture needed to keep the individual safe.
- Inclusion and requirement of the use of preventive and/or alternative measures to assure the safety and well-being of the individual.
- Verification of authorization of the use of restrictive interventions by the authorizing entity.
- Identification of an oversight entity responsible for ensuring that staff are appropriately trained regarding implementation of the behavior plan, including use of the restrictive interventions, as well as for ongoing monitoring of the use of the restrictive interventions. The oversight entity can include a parent/guardian or authorized representative or a behavioral health provider. However, the person implementing the restrictive interventions cannot be the person responsible for monitoring the use of the restrictive interventions.
- Existence of a plan to assure, and identification of the party responsible for, training the staff who implement the restrictive interventions.
- Documentation of the planned use of restrictive interventions in the individual's waiver service plan and communication record.
- Development and plan for submission of tracking logs related to the use of restrictive interventions.

Use of restrictive intervention in accordance with an approved plan is documented using a tracking log. ICDS care managers must assure the providers have access to and understand the use and submission expectations of the tracking log. All restrictive interventions must be documented on the log, except in cases where the restrictive intervention lasts for the entire day. Environmental controls such as door alarms, locked cabinets or other access limitations within a residence do not require notation in a tracking log.

If an unauthorized restrictive intervention must be utilized, direct care staff must write a report the incident and follow appropriate reporting procedures. The provider must contact the ICDS plan. The ICDS plan must contact the individual and his/her legal representatives within 24 hours of receiving the incident report. Changes to the service plan or living situation may be considered to support the person’s safety and well-being. Follow-up visits in response to the incident report and to complaints by the individual and his/her legal representatives will be conducted and include questions about any actions taken by the service provider that may qualify as unauthorized use or misapplication of a restrictive intervention.

ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

The ICDS plan reports data to ODM on a quarterly basis regarding such things as the number of individuals for whom restrictive interventions are used; types of restrictive interventions being used; and authorizing entity.
The ICDS plan will identify any unauthorized or inappropriate use of restrictive intervention and report case-specific information through the incident management system operated by the investigative entity contractor. The investigative entity contractor will report this data to ODM.

Data is analyzed by both the ICDS plan and ODM, with appropriate follow-up as needed regarding identified trends and patterns to support improvement strategies. Follow-up includes, but is not limited to: additional ODM or ICDS plan training of ICDS plan or provider staff, and/or changes in protocols and/or rules. Through this analysis and the incident management system, if case-specific concerns are noted, follow-up will occur with the authorizing entity and the individual's team.

Any significant injuries which result from employment of a restrictive intervention must be carefully analyzed and immediately reported to ODM and the ICDS plan in accordance with critical incident reporting requirements.

In addition, the ICDS Plan and an oversight entity (e.g., a parent/guardian or authorized representative or a behavioral health provider) will help to ensure that staff is appropriately trained and that restrictive intervention is used safely and appropriately. The waiver service coordinator must communicate with the ICDS care manager and verify documentation of the use of restrictive intervention in the comprehensive care plan, waiver service plan, and communication record.

The ICDS plan must develop an individual-specific annual report that will be sent to the physician who certified the plan if the physician is the authorizing entity. The report must include identification of the restrictive interventions used, frequency of use per month, and information regarding the outcome or response to the use of the restrictive interventions. The ICDS plan must assure the physician reauthorizes the use of the restrictive interventions at least annually.

The ICDS plan must review tracking logs and status reports for approved plans at least monthly. This must include addressing any implementation concerns and assuring unauthorized restrictive interventions have been reported appropriately. The ICDS plan must review and discuss the use of restrictive interventions with the individual's trans-disciplinary team on an ongoing basis, and at least every 90 days. Additionally, the ICDS plan must review all incidents related to the use of restrictive interventions. They must also review the use of all restrictive interventions to ensure the use was appropriate and within prescribed guidelines.

Use of any unauthorized restrictive interventions is reported to the ICDS plans as an incident. Additionally, the use of any prohibited restrictive interventions is reported as an incident. ICDS Care Managers are required to review these expectations with all persons authorizing and implementing a restrictive intervention.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)

- The State does not permit or prohibits the use of seclusion

Specify the State agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

- The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii.
i. **Safeguards Concerning the Use of Seclusion.** Specify the safeguards that the State has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Seclusions are measures of last resort that may be used to assist in keeping an individual safe when he or she presents behaviors that are a danger to self or others. Less restrictive measures such as verbal redirection/promoting and positive reinforcement are alternative strategies to avoid or reduce the use of seclusion. They will always be explored and encouraged by the ICDS plan and the individual’s trans-disciplinary care team.

Seclusion or Time-Out is used to address a specified behavior that prevents the individual from leaving a location for any period of time. Seclusion may include preventing the individual from leaving an area until he or she is calm. Seclusion shall never include the use of locked doors and must always include constant visual supervision of the individual. It must only be used for behaviors that are physically harmful to the individual or other persons.

Seclusion may not be used as a routine programmatic intervention, for punitive purposes or for staff convenience. Seclusion will only be permitted if approved as a part of a behavior support plan.

If it is determined through the assessment and care planning processes that seclusion is being considered by the individual’s trans-disciplinary care team, the ICDS plan will work with the team to promote the least restrictive/intrusive, most positive intervention culture needed to keep the individual safe. Seclusion must be authorized pursuant to a behavior support plan developed by a physician, licensed psychologist, or another behavioral health treatment professional, in conjunction with the ICDS plan and the individual’s trans-disciplinary team. The behavior support plan is an addendum to the service plan. The development and implementation of this plan are covered State plan services through rehabilitation and other services and the plan will be coordinated to ensure an integrated approach to support individuals with complex behavioral challenges. Staff who are implementing seclusion will be trained via a variety of methods including, but not limited to, training directly from the entity that is writing the plan.

When a plan for seclusion is being developed, the ICDS plan must assure that the following elements are addressed:

• Agreement from the individual's trans-disciplinary team that the use of seclusion is appropriate.
• Promotion of the least restrictive/intrusive intervention, and the most positive intervention culture needed to keep the individual safe.
• Inclusion and requirement of the use of preventive and/or alternative and non-aversive measures to assure the safety and well-being of the individual.
• Verification of authorization of the use of seclusion by the authorizing entity.
• Identification of an oversight entity responsible for ensuring that staff are appropriately trained regarding implementation of the behavior plan, including use of the seclusion, as well as for ongoing monitoring of the use of seclusion. The oversight entity can include a parent/guardian or authorized representative or a behavioral health provider. However, the person implementing the seclusion cannot be the person responsible for monitoring the use of the seclusion.
• Existence of a plan to assure, and identification of the party responsible for, training the staff who implement seclusion.
• Documentation of the planned use of seclusion in the individual's waiver service plan and communication record.
• Development and plan for submission of tracking logs related to the use of seclusion.

If unauthorized seclusion is utilized, direct care staff must report the incident and follow appropriate reporting procedures. The provider must contact the ICDS plan and the ICDS plan must contact the individual and his/her legal representative within 24 hours of receiving the incident report. Changes to the service plan or living situation may be considered to support the person’s safety and well-being. Follow-up visits in response to the incident report and to complaints by the individual and his/her legal representative will be conducted and include questions about any actions taken by the service provider that may qualify as unauthorized use of seclusion.

Individuals who are also receiving services through a county board of developmental disabilities are eligible to access services through a behavior support plan. This includes the county board’s oversight committees and processes. ICDS plans are expected to collaborate with county board staff to access this service on
behalf of the individual. ICDS plans should request to be added specifically to the list of those who receive status reports for individuals with an aversive plan, which would include those plans with seclusion.

ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of seclusion and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

The ICDS plan reports data to ODM on a quarterly basis regarding such things as the number of individuals for whom seclusion are used; and authorizing entity.

The ICDS plan will identify any unauthorized or inappropriate use of seclusions and report case-specific information through the incident management system operated by the investigative entity contractor. The investigative entity contractor will report this data to ODM.

Data is analyzed by both the ICDS plan and ODM, with appropriate follow-up as needed regarding identified trends and patterns to support improvement strategies. Follow-up includes, but is not limited to: additional ODM or ICDS plan training of ICDS plan or provider staff, and/or changes in protocols and/or rules. Through this analysis and the incident management system, if case-specific concerns are noted, follow-up will occur with the authorizing entity and the individual's team.

Any significant injuries which result from employment of seclusion must be carefully analyzed and immediately reported to ODM and the ICDS plan in accordance with critical incident reporting requirements.

In addition, the ICDS Plan and an oversight entity (e.g., a parent/guardian or authorized representative or a behavioral health provider) will help to ensure that staff is appropriately trained and that seclusion is used safely and appropriately. The waiver service coordinator must communicate with the ICDS care manager and verify documentation of the use of seclusion in the comprehensive care plan, waiver service plan, and communication record.

---

**Appendix G: Participant Safeguards**

**Appendix G-3: Medication Management and Administration (1 of 2)**

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. **Applicability.** Select one:

- No. This Appendix is not applicable (do not complete the remaining items)
- Yes. This Appendix applies (complete the remaining items)

b. **Medication Management and Follow-Up**

i. **Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

The safe, effective and appropriate use of medications is an essential component to the ICDS Waiver, and to the assurance of the individual’s ongoing health and welfare.

Each ICDS plan will complete a review of the individual’s medications and utilization during the assessment/reassessment process. This includes all prescription, over-the-counter medications, nutritional supplements and herbal remedies. The person(s) responsible for administering medications will be identified and documented in the comprehensive assessment and on the care plan.

Administration of medication will be limited to medical personnel who are professionally licensed to do so in accordance with the Revised Code (e.g., a physician licensed to practice in the State of Ohio, and a nurse licensed to practice in Ohio in accordance with Section 4723. of the Revised Code, etc.). Providers who are responsible for medication administration will be required to record and report medication administration errors.
to the ICDS plan for appropriate follow-up and referral (see incident reporting above). Medication errors will be included in the data management system. When errors are substantiated, referrals will be made to the physician, and when appropriate, the applicable state licensing authority.

Medical professionals who prescribe medication will have “first-line” responsibility for monitoring medication regimens. Ongoing monitoring of medication management will also take place during regular contacts and visits with the ICDS care manager and the waiver service coordinator as outlined in Appendix D.

In addition, each ICDS plan will be required to make available a medication therapy management program for all individuals participating in the ICDS demonstration. This person-centered approach will empower individuals to take an active role in their medication management, improve collaboration among pharmacists, physicians and other healthcare providers, enhance communication between individuals and their trans-disciplinary care team, and improve health outcomes. It will also pay specific attention to the use of narcotics, poly-pharmacy and providers with outlier prescribing patterns.

Upon request by the individual or upon referral by a provider or the trans-disciplinary care team, medication therapy management program pharmacists will meet face-to-face and/or consult by phone with individuals to:

- Ensure individuals receive the correct medications in the proper dosage and for the appropriate length of time;
- Ensure that individuals can access all of their medications, including filling prescriptions in a timely manner;
- Monitor prescription use to ensure the best possible health outcomes and to avoid or decrease the likelihood of adverse events;
- Provide individuals with education and counseling about their medications, including such things as why the medications are necessary, when they should be taken, risks and side effects, etc.; and
- Identify and alert prescribing physicians of any medication contraindications, and any other medication therapies that may be appropriate.

ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the State uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the State agency (or agencies) that is responsible for follow-up and oversight.

Direct oversight of medication management is conducted by the ICDS plans; however, the State has methods to detect systemic issues. State rules and regulations outline the requirements for policies and procedural precautions that must be implemented for medication management, including prohibited practices. Case-specific situations where harmful practices are discovered receive remediation. Additionally, medication errors are reported and remediated through the incident management system. Data is reviewed and analyzed with trends and patterns noted, and follow-up as needed. Follow-up includes, but is not limited to requirements for additional staff training, and changes in protocol and rules. The ICDS plans must report any corrective action taken or technical assistance offered to staff.

Licensed provider agencies shall comply with appropriate licensing requirements governing medication management. Unlicensed provider agencies are required to have a pharmacist or physician complete quarterly medication/drug reviews for participants taking medications with potentially serious side effects. Individuals or their authorized representatives who are employers of record are required to train or arrange for training of their employees in medication administration, if applicable.

Appendix G: Participant Safeguards
Appendix G-3: Medication Management and Administration (2 of 2)
c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. Select one:

- Not applicable. (do not complete the remaining items)
- Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)
ii. **State Policy.** Summarize the State policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Administration of medication is limited to medical personnel who are professionally licensed to do so in accordance with the Ohio Revised Code (e.g., a physician licensed to practice in the State of Ohio, and a nurse licensed to practice in the State of Ohio in accordance with Section 4723 of the Ohio Revised Code, etc.).

Personal care aides are not permitted to administer prescribed or over-the-counter medications to the individual, but may, unless otherwise prohibited by the provider’s certification or accreditation status, pursuant to rule 4723-13-02 of the Administrative Code, help the individual self-administer medications by:

- Reminding the individual when to take the medication, and observing to ensure the individual follows the directions on the container;
- Assisting the individual by taking the medication in its container from where it is stored and handing the container to the individual;
- Opening the container for the individual who is physically unable to open the container;
- Assisting the individual who is physically-impaired, but mentally alert, in removing oral or topical medication from the container and in taking or applying the medication; and
- Assisting the individual who is physically unable to place a dose of medication in his or her mouth without spilling or dropping it by placing the dose in another container and placing that container to the mouth of the consumer.

Additionally, pursuant to Sections 5111.88-5111.8811 of the Ohio Revised Code, certain unlicensed providers are permitted to assist individuals with self-administration of medications as part of the home care attendant service.

iii. **Medication Error Reporting.** Select one of the following:

- **Providers that are responsible for medication administration are required to both record and report medication errors to a State agency (or agencies).**

  Complete the following three items:

  (a) Specify State agency (or agencies) to which errors are reported:

  (b) Specify the types of medication errors that providers are required to record:

  (c) Specify the types of medication errors that providers must report to the State:

- **Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the State.**

  Specify the types of medication errors that providers are required to record:

  Providers are required to record the medication error and report to the ICDS plan through the non-critical event reporting process.

  The specific types of medication error that providers must record are:

  - Administering the wrong drug, strength, or dose of medication;
  - Missed dosage;
iv. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

ODM is responsible for the oversight of medication administration. The monitoring functions have been delegated to ICDS plans in accordance with Appendix A. Providers who are responsible for medication administration will be required to record and report medication administration errors to the ICDS plan for appropriate follow-up and referral through the non-critical incident reporting process. When errors are substantiated, referrals will be made to the physician, and when appropriate, the applicable state licensing authority.

The ICDS plan is responsible for reporting all medication errors to the investigative entity vendor. The ICDS Plan and ODM will ensure that all applicable state requirements have been followed regarding medication errors as part of the critical incident report review process. Aggregate data reports will be used through the continuous quality improvement process to identify recurrent problems with providers and prevent reoccurrence.

**Appendix G: Participant Safeguards**

**Quality Improvement: Health and Welfare**

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. **Methods for Discovery: Health and Welfare**

_The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare._ (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. **Sub-Assurances:**

a. **Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death.** (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

**Performance Measures**

For each performance measure, the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**

(6) Number and percent of ICDS Waiver participants (and/or family members or legal guardians) reviewed who received information/education about how to report abuse, neglect, exploitation and other incidents as specified in the waiver.

**Data Source (Select one):**

- Record reviews, on-site

Performance Measure:
(1) The number and percent of incident reviews/investigations for ICDS Waiver participants that were initiated as specified in the waiver.

Data Source (Select one):
Reports to State Medicaid Agency on delegated Administrative functions
If 'Other' is selected, specify:
Data from the Incident Tracking System operated by the ODM investigative entity vendor
b. **Sub-assurance:** The state demonstrates that an incident management system is in place that effectively resolves those incidents and prevents further similar incidents to the extent possible.

**Performance Measures**

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

c. **Sub-assurance:** The state policies and procedures for the use or prohibition of restrictive interventions (including restraints and seclusion) are followed.

**Performance Measures**
For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

d. **Sub-assurance:** The state establishes overall health care standards and monitors those standards based on the responsibility of the service provider as stated in the approved waiver.

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

- **ii.** If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

**b. Methods for Remediation/Fixing Individual Problems**

- **i.** Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

  Oversight of the concurrent waivers is performed by ODM. ODM’s Office of Managed Care maintains a Compliance Assessment System that assures compliance with Medicaid program requirements for both the 1915 (b) and (c) waivers. ODM will compile, trend and review analyzed data gathered through the QIS processes detailed in this waiver application.

  ODM relies on reports submitted by the State’s EQRO contractor, investigative entity vendor, and through information gathered via the State’s ongoing review to identify deficiencies affecting individual health and safety and to monitor incident reporting and investigation.

  ODM, through the investigative entity vendor, maintains a system for reporting and tracking to resolution critical incidents. ODM monitors activities performed by the investigative entity vendor and the ICDS plans to assure that all prevention, investigation and resolution protocols are followed through and to completion. Individual remediation and any subsequent corrective action as required by OMA will be monitored by OMA and ICDS plans will be required to demonstrate compliance as appropriate.

- **ii. Remediation Data Aggregation**

  **Remediation-related Data Aggregation and Analysis (including trend identification)**

### Appendix H: Quality Improvement Strategy (1 of 2)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver’s critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state’s waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver’s relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

### Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I) , a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the system improvement activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent roles/responsibilities

<table>

<td>Specify:</td>
</tr>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously assess the effectiveness of the OIS and revise it as necessary and appropriate.

If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 2)

H-1: Systems Improvement

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

ODM will utilize the information gathered during the discovery and remediation efforts identified throughout this waiver application in conjunction with the information garnered through the 1915(b) waiver to ensure a seamless approach to system improvement for the ICDS waiver. In support of these activities ODM will convene a quality team led by ODM and comprised of representatives from ODA, each ICDS Plan, the provider oversight contractor and others as appropriate. This team will assist ODM in identifying areas requiring system improvements through the review of information gathered through the discovery and remediation processes.

Systems improvement strategies used by ODM will be tailored to address the specific issues identified through discovery and remediation data, and can include targeted technical assistance and training with the ICDS plans (and, as needed with their provider panels), data system improvements, or contract clarifications or adjustments to ensure that the issues identified through discovery and remediation are ameliorated. ODM will carefully monitor the implementation and subsequent data to ensure that the designed system improvement has the intended results.

The 1915(c) waiver data sources identified throughout the appendices in this application will form the basis of information upon which systems improvement will be undertaken. In addition to the data and information related to the measures specifically identified in this waiver, ODM will utilize Information from the following sources to achieve a coordinated, effective system improvement strategy. The additional information sources will include: information from accreditation and Medicare reviews, consumer satisfaction surveys, Care Management surveys, ICDS consumer advisory groups, quarterly reports, systematic review of hearing and grievance data, EQRO reviews, on-site reviews, Performance Improvement Projects and performance measures. These sources (described in greater detail below) will be used together with the ICDS Waiver discovery and remediation data to determine appropriate design changes and system improvements throughout the life of the waiver.

Accreditation and Medicare Reviews - ODM will use information from private accreditation and Medicare reviews in conjunction with other compliance monitoring activities in order to evaluate the quality and timeliness of, and access to, care and services, and to identify, implement and monitor interventions to improve quality, timeliness and accessibility of services.

Consumer Satisfaction and Care Management Surveys - ODM and the ICDS Plans will utilize a variety of surveys in order to assess participant satisfaction with the ICDS Plans, services and care management.

Consumer Advisory Groups - ICDS plans will be required to obtain beneficiary and community input on issues of program management through the establishment of ICDS plan specific regional consumer advisory groups that will meet at least quarterly. State staff and representatives from consumer advocacy groups will also participate. Feedback from the groups will help the State to inform and refine processes related to the administration of the program.
Quarterly Reporting - The ICDS plans, the level of care vendor and the provider oversight contractor are required to submit a set of quarterly reports to ODM that include operational output and quality performance data. ODM reviews this information and follows up with each entity as needed.

Systematic Review of Hearing and Grievance Data - ICDS plans will be required to submit data files to the State that document grievances and appeals received during the prior month in all regions for which the ICDS plans have a provider agreement. State staff will review a representative sample of appeals and grievances on a monthly basis to verify accurate categorization and adequate resolution, and to identify patterns. Audits may occur to evaluate appropriate identification and submission of grievances in response to any observation in reported appeals or grievance to assure compliance with program requirements. Compliance action is taken by ODM following the review of grievances or appeals if it is determined that the issues were not resolved or the ICDS Plan is in violation of a program requirement.

EQRO Findings - Ohio’s External Quality Review Organization will conduct independent assessments of the program’s impact on access, quality and cost effectiveness during the first two waiver periods. The EQRO will integrate CMS’s duals demonstration evaluation into the design of the waiver review. Additionally the EQRO will be a primary data source for many of the quality measures contained within the ICDS Waiver.

Onsite Reviews - Onsite reviews are primarily conducted with the comprehensive administrative reviews that are completed every three years to comply with 42 CFR 438.358; however, focused reviews may be conducted on an annual basis at OMA’s discretion. Reviews may focus on a variety of domains including, but not limited to, coordination and continuity of care, subcontracting and delegation, health information systems, coverage and authorization of services, etc.

Performance Improvement Projects - Performance Improvement Projects are an integral part of improving the overall quality of care. Each ICDS plan will be required to conduct PIPs on clinical and non-clinical areas. ODM expects PIPs to be multi-year, structured quality improvement projects that yield favorable health outcomes and improved experiences of care for individuals.

Performance Measures - ICDS Plans will be held accountable for comprehensive performance measures that focus on most aspects of the program from improved health outcomes to access to care, as well as the 1915(c) waiver assurances. When negative findings are identified related to the QIS measures, individual remediation will be required in accordance with the ICDS Waiver.

Data from these sources will be aggregated by ODM and reviewed as a whole to create a broad picture of the program and inform timely and ongoing systems improvement. Quality assessment and systems improvement will be continuous as plans will be required to complete evaluations of the impact and effectiveness that their care management model has on individuals’ health outcomes and participant satisfaction. The results of these evaluations will be integrated into the ICDS plans’ continuous quality improvement programs. Quality will be further assured through the utilization of a core set of measures used by all demonstration projects. Ohio-specific measures focused on transition, diversion and balance will also be used, in addition to QIS measures traditionally associated with home and community-based services. The findings from these measures will further inform areas requiring systems improvement, contributing to a fully integrated approach to systems improvement that assures adherence to the statutory assurances of the 1915(c) waiver and beyond. These efforts will be further informed by a CMS-State Contract Management team which shall conduct ICDS Plan contract management activities related to ensuring access, quality, program integrity, program compliance, and financial solvency. For the ICDS demonstration, CMS and the State shall conduct a joint comprehensive performance and quality monitoring process that is at least as rigorous as Medicare Advantage, Medicare Prescription Drug, and Medicaid managed care requirements.

### ii. System Improvement Activities

b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

ODM is committed to making sound, data driven design changes based upon information gathered from discovery and remediation, from the 1915(b) waiver monitoring activities and the evaluation component of the ICDS program. The State will use this data to inform future QIS considerations. The State will utilize formalized processes, including solicitation of input from CMS, to monitor the efficacy of the intervention to ensure that the areas targeted for improvement are positively impacted. ODM will carefully monitor design changes from two vantage points. First, we will monitor to ensure that the systems improvement intervention is implemented as intended. Recognizing that a well targeted but flawed implementation of a systems improvement intervention may yield negative results, ODM will work with all partners to ensure that the strategy for improvement is carried out with fidelity to design. Second, ODM will monitor interventions to make sure that they were, indeed, the right strategy to achieve the desired system improvement. Information from all of the review processes is used to determine compliance with state and federal regulations, evaluate the quality and timeliness of, and access to care and services, and to identify interventions needed to improve outcomes for individuals and the overall performance of the system. Areas of non-compliance are addressed through a progressive sanctioning process that may include corrective action plans developed by the ICDS Plans or by the level of care or provider monitoring contractor, as appropriate, and such interventions will further inform overall system design changes to prevent future issues.

Within Ohio, ODM will work seamlessly in the review of discovery, remediation and related data to determine system improvement strategies. While a formalized trending and prioritization of data will happen quarterly, communication regarding oversight and quality improvement will be ongoing and continuous. Similarly, OMA will work collaboratively with the ICDS plans, the level of care vendor, and the provider oversight contractor to ensure that systems improvements are well-tailored, implemented as intended and achieve desired outcomes. ODM will further work with CMS in joint oversight of the plans for the ICDS demonstration to ensure a fully integrated approach to quality improvement on aspects of system design and implementation.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

ODM has engaged with stakeholders and advocates throughout the design and development phases of ICDS demonstration. In order to ensure success and maintain a truly collaborative process, we will continue reaching out to providers, advocates, and individuals throughout the implementation and operational phases of the demonstration. To that end, Ohio commits to an ongoing review of the quality improvement process to ensure that it is effectively identifying issues, remediating problems and ensuring effective systems improvements. In addition to the ongoing incorporation of a continuous quality improvement process for the quality and oversight process as a whole, ODM will, at least once during the initial term of the waiver engage in a critical assessment of the performance of both the system improvement and the QIS and revise it as necessary and appropriate.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).
Ohio’s ICDS 1915(c) waiver will operate concurrently with a 1915(b) waiver and all services are provided through an ICDS plan. In accordance with the three-way Agreement and Medicaid Provider Agreement, the ODM makes a capitated payment monthly to each ICDS plan for each individual and the contracting ICDS plan provides all needed Medicaid State Plan and HCBS services through their provider networks. The contract requires each ICDS plan to implement a compliance plan to guard against fraud and abuse, to conduct provider audits to verify that services authorized and paid for by each ICDS plan are actually provided and to make referrals to ODM for review in cases of suspected fraud or abuse.

ODM staff meet periodically with each ICDS plan to discuss financial integrity and accountability. The ODM routinely conducts audits of state held contracts and reviews data and information relative to the concurrent (b)(c) waiver.

The ICDS plans are required to promptly report all instances of provider fraud and abuse to ODM and member fraud to the appropriate county department of job and family services (CDJFS). The ICDS plan, at a minimum, must report on cases where the ICDS plan’s investigation has revealed that an incident of fraud and/or abuse has occurred. This requirement requires reporting (by provider type) all fraud and abuse findings promptly through an organized Managed Care Program Integrity Group (MCPIG), as well as annually in a summary report. Provider agencies are monitored at a frequency set by the State. Each ICDS plan must comply with all applicable program integrity requirements, including those specified in 42 CFR 455 and 42 CFR 438 Subpart H.

The Program Integrity Group (PIG) is comprised of ODM’s program and audit performance staff, the state’s Recovery Audit Contractor (RAC), the Ohio Auditor of State’s (AOS) Medicaid Contract Audit Section, and the Medicare Zone Program Integrity Contractor (ZPIC), Cahaba. This group meets monthly to develop data mining algorithms designed to identify aberrant Medicaid providers and to plan a coordinated response to these findings. Participants share active case lists and make decisions about who is best positioned and best able to address particular behaviors.

The MCPIG is comprised of representatives of ODM’s Office of Managed Care (OMC) and representatives of each of Ohio’s Medicaid Managed Care Organizations (MCO). This group meets quarterly to share information about fraud trends, fraud schemes, and on-going MCO compliance investigations.

The contract also requires that each ICDS plan’s annual financial reports be audited in accordance with Generally Accepted Auditing Standards by an independent certified public accountant. Each ICDS plan provides copies of the annual audit to ODM. The annual financial audit is subject to independent verification and audit by a firm of ODM’s choosing.

ODM assures that services are appropriately provided to individuals enrolled on the ICDS plan through several required activities described in the contract such as routine financial reports and the collection encounter data by each ICDS plan, the administration of participant and provider surveys by each ICDS plan or an external entity, on site reviews of operational processes and procedures, record reviews and external quality review activities through an independent entity.

The ICDS plans and any subcontractors shall make available to the State, its agents, and appropriate federal representatives, any financial records of the ICDS plan or subcontractors. Accounting procedures, policies and records shall be completely open to State and federal audit at any time during the Contract Period and for six years thereafter.

The Contract awarded by the State and all subcontractors shall include a provision that ODM, CMS, the HHS awarding agency, the US Comptroller General, HHS Inspector General, or any authorized federal representatives, shall have access to any books, documents, papers, and records of the ICDS plan or subcontractors which are directly pertinent to a specific program for the purpose of making audits, examinations, excerpts, and transcriptions. HHS awarding agencies, the HHS Inspector General, the US Comptroller General, or any of their duly authorized representatives has the right of timely and unrestricted access to any books, documents, papers, or other records that are pertinent to the awards, in order to make audits, examinations, excerpts, transcripts and copies of such documents. This right also includes timely and reasonable access to the subcontractors’ personnel for the purpose of interview and discussion related to such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Financial Accountability Assurance:
   The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State
i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.

(Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

(2) The number and percent of claims sampled in performance measure #1 that were found to be unsupported claims for waiver services for which payment was recouped.

### b. Sub-assurance: The state provides evidence that rates remain consistent with the approved rate methodology throughout the five year waiver cycle.

#### Performance Measures

*For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

### ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Medicaid capitated payments to the ICDS plans are developed and certified by an actuarial contractor in accordance with managed care requirements for contracts and rate development in 42 CFR Part 438. The actuaries use Medicaid data to set the rates and take into consideration any program or policy changes that might impact the waiver program.

The Managed Care Program Integrity Group (McPIG), is comprised of representatives of ODM’s Office of Managed Care (OMC) and representatives of each of Ohio’s ICDS plans and the Attorney General’s Medicaid Fraud Control Unit. This group meets quarterly to share information about fraud trends, fraud schemes, and ongoing compliance investigations.

Additionally, ICDS plans are required to routinely monitor the federal exclusion list for providers that have been excluded from Medicaid.

### b. Methods for Remediation/Fixing Individual Problems

#### i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.*
The 1915(b) permits selective contracting of providers and the ICDS plans are responsible for assuring the quality and adequacy of their provider network. Also, the ICDS plans have the authority to terminate their contracts with providers and recoup payments when finding that services are provided inappropriately, i.e., services are not provided in accordance with program requirements. When significant problems are detected that may impact the health and safety of individuals, the ICDS plan reports to the State immediately. The State initiates remediation as appropriate and may require corrective action by the ICDS plans.

When MFCU prosecutes a provider for defrauding the Medicaid program, it will always ask that as part of the defendant’s sentence, the court order restitution to the entity that paid the claim. If the false claims were paid directly by OMA, MFCU will ask that the court order restitution to ODM. If, in the alternative, the false claims were paid by an ICDS plan, MFCU will ask that the court order restitution to the ICDS plan. In the event that both ODM and an ICDS plan paid the false claim, MFCU will ask that the court order restitution to both based on the value of the false claims paid by each.

### ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. **Timelines**

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

- ☐ No
- ☑ Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

### Appendix I: Financial Accountability

**I-2: Rates, Billing and Claims (1 of 3)**

a. **Rate Determination Methods.** In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

The State employs an actuary to calculate an actuarially sound payment rate per 42 CFR 438.4 and 42 CFR 438.5 on at least an annual basis.

The ICDS plans are responsible for negotiating rates with providers for waiver services (except for those rates for
services included in the capitation payment that remain at the FFS level during transition periods as noted above). The ICDS plans negotiate provider payment based on demand for services, availability of qualified providers, clinical priority or best clinical practices and estimated provider service cost.

b. **Flow of Billings.** Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the State's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

The 1915(c) waiver operates concurrently with a 1915(b) waiver. Capitated payments for each individual enrolled on the ICDS Waiver are made to each ICDS plan monthly through the State’s Medicaid Information Technology System (MITS) which is Ohio’s MMIS, in accordance with the risk contract between the state Medicaid agency and each ICDS plan. The capitated payments are considered payment in full for all services covered under the 1915(b)/1915(c) concurrent waivers.

Individual providers bill the contracting ICDS plan according to the terms of the contract between the contracting ICDS plan and its providers. The risk contract between the state Medicaid agency and each ICDS plan outline requirements for subcontracting and timeliness of payment to providers by the contracting ICDS plan.

**Appendix I: Financial Accountability**

I-2: Rates, Billing and Claims (2 of 3)

c. **Certifying Public Expenditures** *(select one):*

- **No.** State or local government agencies do not certify expenditures for waiver services.
- **Yes.** State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.

*Select at least one:*

- **Certified Public Expenditures (CPE) of State Public Agencies.**

  Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-a.)*

- **Certified Public Expenditures (CPE) of Local Government Agencies.**

  Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-b.)*

**Appendix I: Financial Accountability**

I-2: Rates, Billing and Claims (3 of 3)

d. **Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:
The State determines eligibility for capitated payments by identifying individuals through MITS who are eligible for Medicaid, reside in one of the counties covered by the waiver and have been determined by the State to participate in the ICDS. MITS generates a capitated payment to each ICDS plan at the beginning of the following month for each waiver individual identified through this process.

The ICDS plans have mechanisms in place to ensure that payment for waiver services occurs according to the service plan. Through the comprehensive care management process, authorization for waiver services is entered into each ICDS plan’s claims payment system. These claims payment systems then edit claims against authorized service plans to prevent payment for unauthorized services.

Pursuant to 42 CFR 455.20, ICDS plans must have a method for verifying with individuals whether services billed by providers were received. Therefore, the ICDS plan is required to conduct a mailing of Explanation of Benefits (EOB) to a 95% confidence level (plus or minus 5 percent margin of error) sample of the ICDS plan’s enrollees once a year. The EOB mailing must only include those members that have received health care services within the last six months, comply with all state and federal regulations regarding the release of personal health information, outline the recent medical services identified as having been provided to the enrollee, and request that the enrollee report any discrepancies to the ICDS plan. ICDS plans must inform their Contract Administrator of the date of the EOB mailing and provide results of the mailing 60 to 90 days after the mailing (i.e., number mailed, number of enrollees reporting discrepancies). This annual EOB mailing (which would include waiver services) is a tool for the state to gather information from consumers to verify/report if services are not received.

e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

- Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).
- Payments for some, but not all, waiver services are made through an approved MMIS.

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- Payments for waiver services are not made through an approved MMIS.

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.

Describe how payments are made to the managed care entity or entities:

Eligibility for waiver participation is entered into the State’s eligibility system by the CDJFS in the participating counties once the determination has been made that an individual is Medicaid eligible and is eligible to participate in the waiver. The eligibility system transmits eligibility information into MITS, which pays a monthly capitated payment to each ICDS plan for each individual. Capitated payments continue until one of the following occurs: the
individual loses Medicaid eligibility, the individual moves to a county outside of the managed care service areas, or eligibility for ICDS is not met.

**Appendix I: Financial Accountability**

I-3: Payment (2 of 7)

**b. Direct payment.** In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements *(select at least one)*:

- The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.
- The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.
- The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

- Providers are paid by a managed care entity or entities for services that are included in the State's contract with the entity.

Specify how providers are paid for the services (if any) not included in the State's contract with managed care entities.

Not applicable – all services are in the State’s contract with ICDS plans.

**Appendix I: Financial Accountability**

I-3: Payment (3 of 7)

c. **Supplemental or Enhanced Payments.** Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- No. The State does not make supplemental or enhanced payments for waiver services.
- Yes. The State makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the State to CMS. Upon request, the State will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

**Appendix I: Financial Accountability**

I-3: Payment (4 of 7)

d. **Payments to State or Local Government Providers.** Specify whether State or local government providers receive payment for the provision of waiver services.
No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.

Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of State or local government providers that receive payment for waiver services and the services that the State or local government providers furnish:

Types of public providers that receive payment for waiver services include city and county health departments with HHA, services and senior centers providing personal care, homemaker, and transportation services as well as public ICFs-MR providing Out-of-Home Respite Services. Additionally, public hospitals that may provide personal care or home delivered meals. Public providers furnish the same services that private providers furnish.

Appendix I: Financial Accountability

I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the State recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

- The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

- Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.
- Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the State.

Each ICDS plan retains the monthly capitated payment. A quality withhold may be instituted pursuant to the MOU negotiated between CMS and the State to implement the ICDS demonstration.

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements
i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

- ☐ No. The State does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.
- ☑ Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

- ☐ No. The State does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.
- ☑ Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used.

iii. Contracts with MCOs, PIHPs or PAHPs. Select one:

- ☐ The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.
- ☑ The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

- ☑ This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.
- ☑ This waiver is a part of a concurrent §1115/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1115 waiver specifies the types of health plans that are used and how payments to these plans are made.
Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the State source or sources of the non-federal share of computable waiver costs. Select at least one:

- Appropriation of State Tax Revenues to the State Medicaid agency
- Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the State entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

- Not Applicable. There are no local government level sources of funds utilized as the non-federal share.
- Applicable

   Check each that applies:
   
   Appropriation of Local Government Revenues.

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Other Local Government Level Source(s) of Funds.

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the State Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:
I-4: Non-Federal Matching Funds (3 of 3)

c. **Information Concerning Certain Sources of Funds.** Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. **Select one:**

- None of the specified sources of funds contribute to the non-federal share of computable waiver costs
- The following source(s) are used
  
  **Check each that applies:**
  - Health care-related taxes or fees
  - Provider-related donations
  - Federal funds

  For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. **Services Furnished in Residential Settings.** **Select one:**

- No services under this waiver are furnished in residential settings other than the private residence of the individual.
- As specified in Appendix C, the State furnishes waiver services in residential settings other than the personal home of the individual.

b. **Method for Excluding the Cost of Room and Board Furnished in Residential Settings.** The following describes the methodology that the State uses to exclude Medicaid payment for room and board in residential settings:

  The capitated payments to each ICDS plan were initially based on expenditures for similar services in the FFS 1915(c) waivers that serve the rest of the State. FFS payment rates are based on the cost of providing the service exclusive of room and board. Subsequent capitated payments to each ICDS plan have been developed utilizing a combination of ICDS plan submitted cost report information and available encounter data.

  For the Assisted Living service offered through the ICDS waiver, providers receive two separate payments: the monthly room and board payment and the service payment. These payments come from two different sources. The authorized service payments are paid to the provider by the ICDS plans. The room and board payment is made by the individual directly to the waiver service provider. The State does not play any role in collecting or paying the room and board payment.

  The State's role in the cost of room and board furnished in a residential setting to an individual enrolled on the waiver is limited to establishing the maximum monthly room and board amount paid by an individual. The provider may not charge the individual a security deposit or an additional fee above the maximum monthly room and board rate to hold the living unit during a temporary absence (i.e., hospital or short term nursing facility stay).

  The room and board rate is the current Supplemental Security Income (SSI) federal benefit minus a $50.00 personal needs allowance. The room and board rate increases annually when the SSI benefit cost of living adjustment is applied. The room and board rate may not exceed the rate established by the state.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

**Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:**

- No. The State does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.
Yes. Per 42 CFR §441.310(a)(2)(ii), the State will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The State describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability
I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the State imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- Yes. The State imposes a co-payment or similar charge upon participants for one or more waiver services.
- No. The State does not impose a co-payment or similar charge upon participants for waiver services.

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

<table>
<thead>
<tr>
<th>Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):</th>
</tr>
</thead>
<tbody>
<tr>
<td>□ Nominal deductible</td>
</tr>
<tr>
<td>□ Coinsurance</td>
</tr>
<tr>
<td>□ Co-Payment</td>
</tr>
<tr>
<td>□ Other charge</td>
</tr>
</tbody>
</table>

Specify:

Appendix I: Financial Accountability
I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability
I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.
Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the State imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

- No. The State does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.
- Yes. The State imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (1 of 9)

a. Number Of Unduplicated Participants Served. Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

https://wms-mmdl.cms.gov/WMS/faces/protected/35/print/PrintSelector.jsp 7/24/2018
Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The average length of stay (ALOS) has been projected based on actual experience from the current waiver period, reflecting year-over-year increases during the new 5-year waiver period based on projected phase-in and phase-out assumptions. The calculation of the ALOS estimate of 290 for WY 1 in the renewal period is equal to the projected total number of days for members on the waiver during WY 1 divided by the unduplicated participant count (9,524,512/32,869). The ALOS is calculated based on actual experience through February 2018 and estimated phase-in and phase-out assumptions for future time periods. Changes in ALOS over the course of the 5-year renewal period are based on projected changes in enrollees over the waiver period and reflecting slightly shorter stays with more people phasing into the waiver than phasing out in a given year.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

Continuing enrollment for the renewal period was developed based on actual enrollment data for through the current waiver year 4 (March 1, 2017 to February 28, 2018). The new entrants assumption is based on actual experience identified in the MyCare Ohio program over the course of waiver years 1 through 4 with an adjustment for future enrollment trend. The March 1, 2017 to February 28, 2018 time period represents actual experience with the remaining time periods projected utilizing phase-in and phase-out assumptions developed from historical experience observed during waiver years 3 and 4. These were calculated based on average experience of members phasing in and phasing out of the waiver during the current waiver period. With a beginning actual enrollee number of 25,840 as of March 1, 2018, we projected an unduplicated participant count for the partial time period of WY 5 through December 31, 2018. The phase-in and phase-out assumptions utilized to project the remainder of the current waiver time period as well as the 5-year renewal time period were adjusted on a monthly basis to reflect the increasing enrollment over time and observed fluctuation of members into and out of the waiver enrollment.

Development of the Factor D costs for the MyCare Ohio program is based on an allocation process of the managed care capitation rates paid to MyCare Ohio health plans. We applied an allocation to the actual payments made to the MyCare Ohio health plans based on the development of the capitation rates specific to the waiver services provided to MyCare Ohio waiver enrollees. The following provides a summary of the methodology utilized to allocate historical expenditures for purposes of a starting point:

• Step 1 – Summarize encounter data
  o Utilizing files, we summarized unduplicated participants and days of waiver enrollment for the historical time periods.
  o Total expenditures from the vendor files were summarized for each waiver service category for the identified MyCare members.
o Costs reported in the files were divided between the waiver services (Factor D) and state plan services (Factor D').

• Step 2 – Allocate capitation expenditures
  o Total waiver expenditures were summarized from the portion of monthly capitation rates attributed to waiver services.
  o Factor D costs were calculated as the ratio of total waiver expenditures divided by the unduplicated participants.
  o Waiver expenses by waiver service distribute the total waiver expenses from the monthly capitation rates according to the distribution of expenses by waiver service summarized from the encounter claims in the files. Factor D for the new 5-year waiver period for the renewal (January 1, 2019 through June 30, 2023) was projected from waiver year 4 of the current renewal data in the following manner:
    • Base number of users was calculated by determining the allocated number of users from the historical experience as described in the process above. The percentage of members identified as using a service from the historical unduplicated participant count was applied to future projected unduplicated participant counts to determine the number of users across the 5-year renewal period. Therefore, a projected number of users for WY 1 represents projected experience for current WY 5 multiplied by the change in unduplicated participant count from WY 5 to WY 1. Growth from WY 1 to WY 5 of the renewal period applied the same methodology, which reflects an approximate 7.4% composite increase from WY 1 to WY 5 of the renewal period.

    • Baseline average units per user was calculated by adjusting the historical experience of average units per user through WY 4 (March 1, 2017 to February 28, 2018) by projected growth in the ALOS. Therefore, a projected average units per user was developed for WY 5 by taking actual experience and multiplying by the change in ALOS from WY 4 to projected WY 5.

Subsequently the State developed average units per user for WY 1 of the renewal period utilizing a similar methodology of projected WY 5 experience multiplied by the change in ALOS from WY 5 to WY 1. Growth from WY 1 to WY 5 of the renewal period applied the same methodology. The change reflected in WY 1 of the renewal period for average units per user was calculated from the projected WY 5 average units per user multiplied by the estimated change in ALOS to 290.

    • Baseline average cost per unit values were calculated by adjusting the historical experience of unit cost through WY 4 (March 1, 2017 to February 28, 2018) and developed from the allocated capitation expenditure calculation methodology discussed above. Using the total expenditures by waiver service developed from the allocation process and dividing by the total number of units, the cost per unit was established for most of the services in the MyCare Ohio program. This calculation resulted in an approximate 4.0% increase in unit cost per year.

    o Separate cost per unit rates were established for the Personal Emergency Response System (PERS) and Home Delivered Meals service categories. Both of these services were set at consistent reimbursement rates for the entirety of the 5-year waiver renewal period based on a statewide reimbursement rate being established effective January 1, 2019 for these services across multiple waivers in the State of Ohio. These rates were calculated based on a blend of historical reimbursement (which varied) across the different waivers.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Base Year data for Factor D' was developed based on the state plan services identified in the capitation payment allocation methodology discussed above. The Factor D' values for future time periods were developed based on anticipated changes to acute care services for future MyCare Ohio capitation rates. A reduction from historical reported Factor D' costs is expected based on a policy change wherein Medicaid does not reimburse above the Medicaid fee schedule on services which coordinate with Medicare.

Estimates of Factor D’ for each waiver year are illustrated in the cost neutrality summary in Table 1.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Base Year data reflects currently filed Factor G costs for WY 5 of the current waiver: March 1, 2018 through February 28, 2019.

Factor G was trended at a rate of 2.0% per year based on historical experience and budget forecast trends to assess future MyCare capitation rates.

Estimates of Factor G for each waiver year are illustrated in the cost neutrality summary in Table 1.
iv. **Factor G’ Derivation.** The estimates of Factor G’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Base Year data reflects currently filed Factor G’ costs for WY 5 of the current waiver: March 1, 2018 through February 28, 2019.

Factor G’ was trended at a rate of 2.0% per year based on historical experience and budget forecast trends to assess future MyCare capitation rates.

Estimates of Factor G’ for each waiver year are illustrated in the cost neutrality summary in Table 1.

**Appendix J: Cost Neutrality Demonstration**

**Appendix J: Cost Neutrality Demonstration**

**J-2: Derivation of Estimates (9 of 9)**

d. Estimate of Factor D.

ii. Concurrent §1915(b)/§1915(c) Waivers, or other authorities utilizing capitated arrangements (i.e., 1915(a), 1932 (a), Section 1937). Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. If applicable, check the capitation box next to that service. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.
